Hundreds who attended the program were well drenched in a downpour of rain that came in the midst of the dedicated ceremonies.

Arthur J. Bellar, chairman of the honor roll committee of Camp Chase Post, this week expressed his thanks to newspapers, radio, businessmen, and citizens of the community for their cooperation in making the program possible. He also expressed special thanks to the auxiliary police, West High band and Columbus Drum and Bugle Corps.

The display will be lighted from 9 to 12 every night until the "boys come home." It is the desire of the committee to have the panels encased in glass and caulked with a moulding.

Rubbish Will Be Collected-- By Volunteers!

Each person is needed in the volunteer refuse collection which is planned to be continued by the city as announced Wednesday by Mayor Floyd F. Green.

An attempt will be made to provide truck drivers and trucks to those property owners who will organize among themselves to shovel the rubbish onto the truck.

"The manpower situation is such that we will have to call on everyone to lend a hand if refuse is to be hauled away this summer," said the mayor.

Among recent volunteers was the mayor himself. Upon the complaint Tuesday of Detective Chief Leo C. Phillips, 617 S. Ogden-av, that rubbish hadn't been removed from his alley for more than a year, a city rubbish truck appeared that evening, driven by the mayor. Mr. Phillips, some neighbors and the driver worked about three hours loading debris, making four trips to the McKinley-av dump.

TO MOTHER

Mother don't worry about your son,
He will come home after the war is done,
He will be safe from the tanks and guns,
That were shot by the boys of this nation.
If you pray to God for your son, and other boys too,
He will see that they get safely through,
From the misery of war, and killing and strife.
He will let the Axis see that our way is right.

Everingham-Bishop Rites Solemnized

On Sunday, July 4, Barbara Everingham, daughter of Mrs. Kathryn Gee Everingham, 160 S. Burgess-av, became the bride of James M. Bishop, son of Mr. and Mrs. Galen D. Bishop, 46 N. Roys-av. The double ring ceremony was solemnized in the Glenwood Methodist Church where the candlelight of nine candelabra made flickering shadows around the baskets of ferns and white gladiolus.

The bride, who was given in marriage by her uncle, Clarence E. Shepard, Indianapolis, wore a gown of ivory satin and lace. The high round neckline was accented by a garnet and gold necklace, a gift of the bridegroom. Her blonde hair was framed with a halo of orange blossoms from which sheer folds of bridal illusion fell in a fingertip length veil. Her shower bouquet was of gardenias and stephanotis.

Miss Madge Bishop, the groom's sister, maid of honor, wore a gown of yellow marquisette. Mrs. George Cash and Mrs. Walter Stone, bridesmaids, wore identical dresses of pink and blue marquisette; all attendant's bouquets were of pink roses and baby's breath. Charles Apel acted as best man, while Robert Sheron and Fred Knott ushered.

Mrs. Everingham, the bride's mother, wore a flowered print of boucle mesh and the groom's mother, Mrs. Bishop, wore pink chiffon. Corsages chosen by both were of gardenias.

Immediately following the ceremony a reception was held at the Southern Hotel, after which the new Mr. and Mrs. Bishop left for Cincinnati where they will honeymoon at the Netherland Plaza. Upon their return they will make their home at 63 Demorest-av.

Returns Home After Vacation With Son In Camp

Mrs. Joe Koebel, 188 Demorest-rd, returned June 30, from Camp Joseph T. Robinson, Little Rock, Ark., where she vacationed two months with her son, Pfc. Harold Koebel, who has been stationed there since February.

"I had the most wonderful time," stated Mrs. Koebel, "I met so many lovely people on the bus." When she arrived it was so hot that she thought that she could not bear it. During her entire stay in Little Rock, the temperature was always 104 degrees with just a slight breeze to keep the hot air moving. "I dressed Columbus style, but I kept removing until I finally decided to mail all of my clothes back to Columbus and buy some new, cool ones." However the night she left, the temperature fell and Harold writes that the warm weather must have left with his mother, for it has been cold since.

Mrs. Koebel states that the boys apparently miss their mothers for when she arrived at the camp they welcomed her as their "Adopted Mother." One of her "adopted sons" is a Mexican boy whose home is in Texas. After a trip into Mexico the Mexican boy's mother sent Mrs. Koebel some unusual souvenirs. One of these gifts was a box of chocolate candy with a filling of rare old wines which tasted exotic.

The boys were just starting their bivouac training when she left. This training includes the infiltration course, actual "live-fire" experience, and other combat conditions which the boys will experience when faced with a real situation.

Young Koebel, who is the company clerk and writes news items for "The Military News," the camp paper, expects to have his first furlough in the early part of August. After that he will probably be sent to Camp Fannin in Texas. He is a graduate of West High School and attended Ohio State University. Prior to his entrance into the service, he was employed at the Ohio State Journal.

"WHEN THE TIME COMES"
A More Understanding Service
Service depends on people. In time of sorrow, one seeks the sincere, sympathetic assistance of those who are experienced in arranging all details of a service. Because of their careful training and many years of experience, the personnel at this funeral home are, we think, capable of giving a more understanding service. They will carry out every detail just as it is wanted and make all arrangements to meet individual wishes.

KEEP THE HOME FIRES BURNING

Even if you have riches and can't retire
'Till our boys hit the back track,
You must clean the flue or have no fire
In mansion or tumble down shack.
Forget your position and be a physician
Also an expert with a hoe
Nobody has the time nor the disposition
To listen to your tale of woe.

Early each morning roll up your sleeves
Study sedate how to inflate a flat,
If dust from leaves give you the heaves
Keep that under your hat.
Carry a box full of tools in your auto
Slacks, pliers, jacks and wire;
Bravely print on your flivver this motto
I Love To Repair Flat Tires.

By C. C. Hartley

Thanks, and Farewell

Last week the Record told that the conductor of this corner has received a commission as Lieutenant (j. g.) in the Navy and was to report at Ohio State University for initial training on Thursday.

When this is printed I will have had my first day's experience in the Navy.

If I can continue to contribute to this column regularly will depend on the regulations of the Navy and if my commanding officer will grant such permission. I trust such an arrangement can be made and that I will find sufficient time to keep a contact back home just as long as I am within the good old U. S. A.

Numerous friends have called to express their congratulations and incidentally their surprise.

The congratulations and best wishes have been most thoughtful and appreciated. The surprise was to be expected. It may have been natural to think that I have always had a lot of things to do here and many interests that would take my full time and attention.

While I am leaving these many interests behind I realize I may be giving up a lot. On the other hand I feel there is a job for me to do too, and I am grateful to the Navy for such an opportunity. I trust that if my activities and contributions on the home front have in any way been worth while that now in a new capacity I may continue to serve in a new and entirely different activity.

The contacts with Hilltop folks I have enjoyed in the years since 1926 have been fine in every respect. Working with and for these people during this period can only serve to make me look forward to the time when I will return to take up my job again.

I am indeed fortunate in that I am able to leave my business in the hands of trusted and capable employees and feel that they will carry on in my absence to give the Hilltop Record readers and advertisers the best possible service.

I am certain they will receive the same fine cooperation in publishing a good community newspaper that the Record has always merited and received.

Most Miserable Week Spent Sleeping In Beet Field With No Beets

Lt. Arthur E. Currier, son of Mrs. Nannie Currier, 45 Eldon-av, who has been active in the North African campaign, tells of his interesting experiences 'over there.' Following is a letter from Lt. Currier dated June 16, and received in the Record office this week:

"Now that the battle of Africa is over, we are all agog as to our future operations. The beautiful part of being in this campaign turned out to be the fact that we took part in a complete victory. The celebrations, etc., were all glorious and the boys all join me in feeling that regardless of future happenings, we have tasted of real victory and it was truly worthwhile.

"As for me, I landed at Oran but spent most of my time in Tunisia or in the mud (the two terms are synonomous). It was a wonderful Christmas present when we passed into Oran's beautiful harbor but a rude awakening was in store for us as it rained continuously from then to New Years. We were sleeping in a beet field with no beets and believe me, it was the most miserable week I have spent overseas. It was so cold and wet that we lost a lot of men to hospitals. At the same time, dirty, ill-clothed Arabs walked the streets barefooted—what a people they are!

"I have read several notices in your Record which I get regularly and enjoy so much, that have come from boys in Africa and so I needn't go into detail about this continent. However, its beauty is worth metnioning again. Tunisia is the most beautiful part of Africa I have seen, for it has portions that are like our Smokey and Blue Ridge Mountains in the Northern sector and like Wyoming and Nevada in the South. In between, there are sections that remind one of most any part of our glorious U. S. The Arabs are generally bother-

— Letters — To the Editor

Gentlemen:

You have no doubt received many letters of appreciation from the Hilltop fellows and girls who are now in service. I would like to be listed among those who read your paper more now than I ever did when I was back home. My name is Wayne Brown, Y/3c, 168 S. Hague-av.

Miss Juanita Reynolds, WAVE Y/3c, is now working in the personnel office with me. We both read the Hilltop Record two or three times each week. It is wonderful the backing you give us while we're away. Believe me, it helps to know the people back home are thinking of us as we are them, and you can bet we'll be mighty glad to return to the Hilltop.

The Honor Roll you recently published, is another thing I would like to thank you for. It's good to look back over all the names of the boys and girls you used to run around with, and think back of all the fun we had, and the fun to come after the war. Yes, by your backing you will help end this war, people will begin to realize that we are away, the fight will go on harder to end the war so we can get back.

You mentioned in one of your articles that you missed seeing our faces. Don't think we do not miss seeing familiar faces also. All we have to do is close our eyes for a few minutes and we can see everyone and every building on the Hilltop. Yes, we want back, and as soon as possible.

I thought you might be interested in the fact that Miss Reynolds and I are working here together, and were quite pleased to see each other when she walked in about a week or so ago. I have been here since Nov. 11, 1942, and have been home a few times since. But, to have someone you know working here with you, sure helps a lot.

Thank you for your time and once again keep up the swell job you're doing. We all sincerely appreciate it and you'll be remembered in the days to come. Hope to see you soon again.

I remain
Wayne Brown.

MOST MISERABLE

(Continued from Page 1)

som and eternally filthy but they are very neat about their work. Nearly every square foot of ground, in fertile areas, is cultivated and beautifully so. The entire section looks as if it was landscaped. The most beautiful season was some month or two ago when the poppies and other wild flowers were in bloom by the millions. Miles and miles of red-blanketed rolling hills. Color film would have been welcome—but I guess it is hard to get there also.

"The towns in Africa were extremely interesting at first but they soon become boring. They are of two types: large and small. The large towns, Oran, Algiers, Constantine, Bizert, Tunis, Sousse and Sfax are all nearly the same. Or rather they were—Bizerte, Sousse and Sfax had their faces and not only lifted but in the first named, completely removed. Bizerte is a complete wreck and the other two are pretty badly damaged. Algiers is the queen city of Africa with Tunis a close second. In all of these cities, there are two sections, the modern section which is not unlike ours and the Arab section which is most unlike ours. In the latter sections the streets are some six to 8 feet wide and are labrynth-like in design. There are too many things to tell so I won't attempt it.

"The small towns such as Kasserine, Sbertha, Sbiba, Gafsa, Maknassy, Medjez-el Bab, Beja, Tebourba, Matern, Fenyaith, etc. are all similar. They surely don't live up to the tremendous publicity given them by the U. S. press. My favorite is the huge headline — 'Americans Lose Kasserine.' You should see Kasserine. You could do just that if you weren't traveling too fast and had good eyes!

"We are through with our short rest period now and are making last minute preparations for the coming invasion. The loss of the small islands between us and Sicily should aid us immeasureably. The air force is doing a wonderful job and they have saved many lives by the "softening" tatics.

"My own part in the victory must be secret but we also feel that we have done a lion's share of the work. We were at the front continually and did a lot of new type work in our field, camouflage. During the course of the war we worked with the British Eighth Army and First Army as well as our own. The British are wonderful soldiers even though their methods of doing things are somewhat irritating to us.

The huge army of captured Germans, after fighting ceased, was very interesting. They are well trained and disciplined soldiers and make us realize our job is a tough one. Our equipment seems to be an equal with German and superior to some of their late materials.

This rambling has gone on too long so I must stop. Before I do, I might mention morale. The morale here is very good and it seems to be good at home (which it should!). However, if the strikes continue at home, I think the doughboy will figure that his supremen sacrifice will be in vain and he figures, "what's the use?". I think we should conquer the enemy at home and then start on those over here.

Thanks for the swell Record news and we all dream of our past and of our homes. I hope to be home by Christmas, but one never knows.

Your friend,
(Lt.) Arthur E. Currier."

Use Only As Much Fat As You Need

Spread butter and margarine thin.

Use the smallest possible amount of fat when you fry foods of season vegetables.

Limit your deep fat frying. Do it only when you have a planned use for the remaining fat. (If the fat has not been allowed to smoke, it may be strained or clarified and re-used for frying or some shortening uses.)

Fats used for frying mild flavorated foods pick up little food flavor and can be re-used for any frying purposes.

Fats used for frying strong flavored foods, like onions or fish, retain some of their flavor and can be re-used only for frying the same foods. (Or it may be put in the salvage can.)

Use no extra fats for browning meats which have fats of their own. Cut off a small piece of the fat, oil the pan with it, then brown the meat.

WHEN OUR SUN GOES DOWN

I watched the beautiful flowers
Over in my neighbor's yard
Saw the owner toiling for hour
Breaking clods dry and hard.
Their fragrance permeated the atmosphere
Twenty four hours each day
Then the flowers commenced to disappear
One by one they dropped away.
The flowers fell and also the leaves
To mingle with clods and clay
The owner gathered them into sheaves
The trash man trucked them away.
We are like the flowers, cotton and clover
Bloom for a year or a day
Then the undertaker trucks us over
To the graveyard cold and gray.
We flutter around in the days of youth
As though anointed and blessed
Then they haul us away the stylish, uncouth.
When our Sun decends in the west.

Fillin' In

By Eileen Griggs

In the absence of The Spectator, which has appeared in this corner for the past six years, I'll make my contribution to carry on for the duration, until C. Carlton Hartley returns from the Navy.

Last week he took up new duties in the Naval Recognition School at Ohio State University and week-end reports are that he is experiencing the fullest 17-hour day he has ever gone through.

It's a great life though and he doesn't think he will weaken. Anyway, he's resolved to give it everything he has, to fit the Navy program.

His roommate is another newspaper man from Kankakee, Ill., Robert Hawkins. The new class is made up of other newspapermen, teachers, architects, lawyers, some Marines, some Army men and a few Navy men up from the ranks.

The men come from all over. Hartley and two others, a Mr. Brannon, Central High School teacher, and a Mr. Forrest, a university teacher, are all that hail from Columbus and this is more than usual.

Forrest, by the way, reported to duty via street car. His roommate, reported via airplane from the state of Washington.

Hartley reports another interesting item of social interest. His first evening there he had a caller, an indoctrination officer from Detroit. It seems this gentleman had been told to look him up by a Hilltop man stationed in the Navy Officer Procurement Office in Detroit. It was James Goudy, a former teller at the Hilltop branch of the Ohio National Bank who is now a Yeoman 3/c in the Detroit office. Goudy had handled Hartley's application and photograph when it passed through Detroit and thus learned of his appointment.

Among other things he is learning how to make a bed without the presence of "Irish flags"; and how to keep a room spotlessly clean, using no little amount of elbow grease in doing so.

* * *

In the interest of parents of those whose names appear on the Hilltop Honor Roll, it has been suggested that a sort of scoreboard be erected on or nearby the plaque to keep a daily count of those who have entered the service of our country.

Notes and Nubbins: Charles Campbell is ill at his home this week . . . It is certainly a long automobile ride which Gladys (her last name was never learned), formerly of the Tavernette, is planning when she treks to the West Coast in the near future . . . And it was certainly a long train ride from which Kathryn Coakley returned after visiting in Canada . . . Yeoman Bob Rose, whom it was reported last week had learned he was near his brother, Captain Cecil Rose, obtained permission for a leave, only to learn, after traveling 66 miles in a jeep, that his brother had boarded a ship for the Sicilian invasion only an hour before.

Enlistee In Marine Corps W. Reserve

Miss Helen Louise Hill enlisted Tuesday, July 13, at Cleveland in the Marine Corps Women's Reserve. She will report for active duty in the near future at Marine Barracks, Camp Lehenne, New River, N. C., for a training period of approximately six weeks.

She is a graduate of West High School, and has been employed by the Ohio Fuel and Gas Co. She is the daughter of Mr. and Mrs. Kenneth F. Hill, 709 S. Roys-av.

"Bomb" Scare Found To Be Transformer

"Bombs" were dropped on Valleyview last Saturday, only the "bombs" were discovered by the sheriff's deputies to be the noise caused by shorted transformers which were soon repaired by trouble shooters from the Columbus and Southern Ohio Electric Co.

It is necessary to make a request for such postponement to their draft board after they receive the draft call. High School registrants in summer vacation are still subject to draft, not being entitled to postponement.

If a registrant ceases his instructions during the last half of the year, he is immediately subject to draft.

Ball Game Tonight To Raise Athletic Funds For Service Men

The fire and police departments will play against each other tonight at the State Hospital grounds in the first of a tri-game benefit for the servicemen's athletic fund. It is believed that the intensive rivalry between these two groups will be seen when their chiefs take up positions on the coaching lines.

The two other games are Wilkie Meats, runners-up to the state girl's title, opposing Provident Loans of Mansfield, state champs in 1940 and 1941, and the headliner Ferguson State Auditors, defending state champions, opposing Amrine's Angels of the London Prison Farm.

All money received, except the federal tax, will go into the service men's fund, since the field, lights, balls and the services of umpires and gatemen will be donated.

Petitions For Re-election Filed By Mayor Green

Mayor Green

Mayor Floyd F. Green, 3049 Crescent-dr, filed his nominating petitions for re-nomination and re-election with the board of elections Wednesday, two days before the deadline, which is 6:30 p. m. today.

Factors concerning his forthcoming campaign are set forth in the following statement:

"Of the 15,000 signatures already secured on my nominating petitions we have completely checked and are filing approximately 6,500.

"The expressions of confidence of Columbus citizens as they signed the petitions is a source of great satisfaction. The past four years have been difficult and the problems of the city have been numerous, some of which seemed almost beyond solution. But again Columbus has met her problems and stands high in the family of great cities in the nation.

"Much of the credit must go to my diligent and loyal associates who have sacrificed opportunities for greater personal gain to perform splendid public service.

"In the campaign I shall make my bid for re-election upon a record of the accomplishments of my administration.

"Of the public, I ask but one thing — thoughtful consideration of the facts. From time to time, as the campaign progresses, every phase of municipal activity will be explained, and I am sure that a fair and enlightened electorate will wholeheartedly endorse our public stewardship."

Mayor Green is the third to file as a candidate, Sheriff Jacob Sandusky and Arthur P. Lamneck, having filed previously.

New A Book Now In Effect

All motorists who haven't applied for their new A gasoline ration book should do so at once. The A books expired Wednesday night. There are approximately 2000 in this district who have not as yet applied.

When the new A books are received, the license number of the car, the name of the state in which the license was issued, must be written across the face of each gasoline coupon before the coupon will be accepted at any filling station.

Former West Hi Band Leader Recuperating

Charles Bennett, former musical director at West High School, who recently underwent an operation on his knee, informed friends here that he is "improving every day." He is able to be around some, although he will be in the hospital another week or so, after which he expects a furlough which he will spend here in Columbus.

The popular band leader expressed his appreciation to those who had already written, adding that he would like to hear from many of his former friends and associates here on the Hilltop.

Some time ago we saw STAN STENCIL and BOB VAN ORDER being picked up by three girls on Hague-av. . . . And did you know GLADYS SAHR works at Jaeger Machine Co.? I, and several other people, were under the impression that JUANITA GREENE liked a boy from West, but what about this boy in 12B P. O. D.?

OPA Sets Restaurant Ceiling Price Higher

In answer to the many inquiries as to reasons restaurants have been able to offer beef to their patrons when it was impossible to buy the same cut of meat at grocers during the communities present meat crisis, it has been found that OPA regulations are responsible.

The OPA has set a ceiling for restaurants 4c per pound higher than the ceiling grocers are allowed to pay. The packers therefore are selling their small supply of beef to the restaurant trade. The meat dealer who has no beef should not be alarmed as he is not allowed to pay the higher price

EVERGREEN TREES

I cherish the evergreen cedar trees
Much more than I do flowers,
The strife of life to me they appease
I'd abide with them for hours.
Always look new the whole year through
Gracefully bowing with the breeze
Never out of season-courage they embue
I love the evergreen trees.

Boughs and fragrance always the same
An antidote for despondency,
Others I'll name possessing great fame
Mulberry, cherry and the apple tree.
Maple, beech and birch, walnut, peach and pine
All these have lofty degrees
But the ones I o-pine that's really Divine
Are the evergreen cedar trees.

Issue Permits For Motorists Clean Tags

North Side motorists may remove those dirt-covered license tags from which the paint is rapidly disappearing one at a time, for a seven-day period to be cleaned and repainted so they will meet state law requirements, under the decision today by Highway Director H. G. Sours.

Permits to operate motor vehicles with one tag, to be displayed on the rear of the machine, for one week may be obtained after today from state highway patrolmen, police departments or sheriffs, C. W. Wallace, motor vehicle registrar, said.

Director Sours emphasized that the tags must be repainted with a white background and green letters and numerals. The director also declared that motorists must continue to drive with the windshield sticker while operating on one tag or after the tags are repainted.

EXTREME PUNISHMENT

Little Johnny started the day by introducing the cat to the canary. Next he upset the bowl of goldfish, twisted a knob off the wireless, took granddad's watch to pieces to see what made it tick, spilt ink over the carpet, let the bath overflow, and kicked his nurse on the shins.

"The little fiend!" his mother said when she was told; "I'll punish him for that. Now he shan't go to Sunday School!"

Waste Kitchen Fats Help Win the War

WE USED TO get most of our fats from places now conquered by Japan. In the last war, loss of her fat supplies was one big reason Germany collapsed. Today, it's up to every American housewife—to you—to save waste kitchen fats—and TURN THEM IN!

MODERN POETRY

THOUGHTS AT EVENING

I walk with my thoughts at evening when twilight settles down;
I hear the birds in the tree which have lost their leafty crown.
It seems to me God is closer when all my work is done,
And I have time to worship after a setting sun.
—Colma Williams Thomason, in Avo.

LOST

When I was younger
And God was all about,
I had no hunger
To seek Him out.

Never in the dim
Old church of stone
Did I talk to him
Quite alone.

The only place
I ever heard Him pass
Was, lying on my face,
In prairie grass.

Now that I search
Destitute,
The old stone church
Is oddly mute.

And feet march on
The trembling sod.
The grass is gone—
I can't find God.
—Doris Wilson Parker, in Poet Laureate.

FROZEN FLAME

I wish folks had told him
Her heart was his to hold;
Her love he craved madly,
Now both are lone and old.

He rode off unknowing,
And she must seem still gay!
Why did he not listen
To words she could not say?
—Edna Hull Miller, in Vistas.

What'll it take here to get things started? A match? A lighted cigarette? The forgotten pilot light of the stove? A spark generated merely by rubbing the clothes? Any one of these would turn the trick.

The National Safety Council says one in every six accidental deaths in America is caused by burns, explosions and conflagrations.

Principal danger in home dry cleaning is of course explosion with subsequent fire. But explosions and fires aren't the only dangers. Poisoning by toxic fumes is another.

Use a non-flammable fluid, even if you're just taking spots out of a garment. (Products advertised as non-explosive may still be flammable.) When possible keep your hands out of the solvent by using a hand type suction washer.

Do the cleaning outside the house on a day when there is enough wind to carry the vapors away. Dry the garments outside the house. Keep children and pets away.

The importance of care in dry cleaning cannot be overemphasized. Don't arrive for your date with St. Peter ahead of time.

When their car collided on July 18, at Grandview and McKinley-avs, Mrs. Lulu Wise, 73, of 1411 Eldon-av, suffered chest injuries, cuts and bruises, while her daughter, Helen, also suffered cuts and bruises. They were taken to Mt. Carmel Hospital.

Corn—Home-Canned To Keep!

"Corn, a favorite food of man, beast, and bacteria, is the victim of defense propaganda and I am not talking about war." Gladys Kimbrough, Home Service Director of Ball Brothers Company, made the above statement and went on to explain, "Persons who refuse to take the time and trouble to understand corn, defend their canning failures by claiming that it refuses to keep. The truth is, corn is more than willing to be canned, but is doomed to spoilage unless right tactics are used, because it has no acid to protect it against the invasion of bacteria. Tactics? Why," says Miss Kimbrough, "they can be summed up in one sentence: i. e., learn what is to be done, begin at the right time, keep things moving, and turn on the heat."

Photo Courtesy Ball Bros. Co.

The first thing to be done is to get jars, lids, rubbers, and canner ready. If you have no pressure cooker, get along with a water-bath canner. Examine every jar and lid to see that it is in good condition—remember glass top seals and two-piece metal vacuum seal caps won't work unless the top edges of the jars are perfect. Wash everything clean; cover jars, glass lids and zinc caps with luke-warm water and put on the stove to heat. Cover vacuum seal lids and rubbers with boiling water and leave until needed. When everything is ready, gather the corn—bring in no more than needed for one canner full. Keep in mind that canning too much too late is a common cause of spoilage. Place the corn on a board and use a strong sharp knife to cut the husks (shucks to you in the Middle West and South) off at each end just where the corn begins and ends. There shouldn't be any worms if you have followed Victory garden directions, but if there are worms in the tassel end, cut deep enough to leave them with the husks. The husks will come off easily and bring most of the silks with them.

Examine every ear of corn and use only those having plump, glossy, juice-filled kernels. Remove all silks; rinse the corn and cut it from the cob. One or more cuttings may be made, but scrapings should not be used unless processing can be done in a pressure cooker, because the scrapings make a thick mass that heats through slowly. Cover the corn with boiling water, using about half as much water as corn; cook five minutes; then pour immediately into clean, hot jars. A generous amount of water helps the corn heat through quickly and aids in preventing its sugar from carmelizing and causing a brownish color. Add one teaspoon salt to the quart and seal jars according to manufacturer's directions. Then put into the canner and process.

If possible, use pint jars, as they heat through more rapidly — the quicker the jars can be heated through, the more certain the destruction of bacteria. Process pints and quarts 70 minutes at 10 pounds pressure or by boiling 3½ hours in hot-water bath. Remove the jars from the canner as promptly as possible after processing; finish sealing all jars that require rubber rings; set jars as far apart as possible on folded newspaper or cloth so they can cool quickly, but be sure they are not where a breeze will strike them.

The jars should be examined after twelve hours in order to make sure they are sealed. To do this, remove bands from glass top seals and metal vacuum seal caps (leave the bands off when the jars are put away). Test the glass top seals by pulling gently on the lids with the finger tips. Vacuum seals are tested by pressing down on them with the fingers—if sealed, they won't move under this pressure. "Lightning" type are tested by holding upside down and watching for leaks. There won't be any leaks if instructions are followed and there won't be any spoilage if you keep in mind that Vigilance means Victory. Furthermore, you will never know how good canned corn can be until you have tasted your own home-canned brand.

If it is an honor for the Japs to die in battle the Yanks are helping them to preserve their honor.

State Helps Farmers With Food Harvest

With Ohio ranking second in the nation in vegetable packing, the state took another step in the food crisis today with the announcement by Highway Director H. G. Sours that department trucks and workers would be made available to farmers and canneries during the rapidly approaching packing season.

Under tentative arrangements just completed the highway department will provide as many trucks and men as can be spared from work on the roads so that growers will be helped in harvesting sweet corn and tomatoes, and transporting the crops to the canneries. It was emphasized that use of the department's equipment in the harvesting will not interfere in any way with work on the highways. Hours are to be staggered and in that manner both personnel and equipment will do a day's work on the highways before going into the corn and tomato fields to help the farmers.

Tag Shows Catfish Made 70-Mile Trip

Local anglers interested in the migration of fish in addition to the sport of catching them, will find the data obtained by the Ohio Conservation department through tagging of fish quite informative.

For instance, last October the Division placed 711 adult black and yellow bullheads in Blacklick Creek in Franklin County. To date fishermen have returned 12 tags but not a catfish tag was sent in between Oct, 23, 1942 and May 8, 1943. However, all 12 fish were caught from May 9, 1943 to June 6, 1943.

The movements of these fish are of interest as two of the 12 bullheads were caught seven months later at the McGuffey-rd Bridge, or the same place as released. Three traveled up Blacklick Creek, two going four miles to the Brice-rd Bridge and the other going five miles to Hempy's Grove. Two more moved downstream in Blacklick, one going twelve miles to the covered bridge below Livingstonav and the other eight miles to the McGuffy-rd Bridge. The remaining three all moved downstream two miles in Blacklick Creek to the confluence of Blacklick, Alum and Big Walnut Creeks. One of the three turned upstream in Big Walnut and was caught almost to Galena in Delawnare County, a distance of 30 miles upstream, while the other two preferred the upstream muddy waters of Alum Creek. One of these was caught at the Main-st Bridge about seven miles upstream and the other at the Broad-st Bridge.

Another return this spring is of interest. One adult channel cat taken from Lake Erie and released in Van Buren Lake in Hancock County on April 29, 1940, moved over or through the dam of Rocky Ford Creek, downstream to the Middle Branch of the Portage and continued with the current to the main Portage River into Lake Erie and followed the shore line down the lake to Catawba Island. This 15 inch channel cat was caught by a Catawba Island commercial fisherman on May 25, 1943, or more than three years after it was released. The channel cat had moved 70 miles below Van Buren Lake to within a few miles of where it was originally taken in Lake Erie and was stocked by the Ohio Division of Conservation and Natural Resources.

Ohio has tagged fish for 18 years and this record of three years is as long as any received to date.

DON'T QUIT

When things go wrong, as they sometimes will,
When the road you're trudging seems all up hill.
When the funds are low and the debts are high,
And you want to smile, but you heave a sigh,
When care is pressing down a bit,
Rest, if you must—but don't you quit.

Women are learning fast — I saw one the other day filling the radiator of her car.

Have Women Forgotten Their Fight For Suffrage?

In the near future each and every citizen of voting age will be called upon to cast his or her ballot. Men and women alike should support their candidate for his office.

Women especially should not forget the advantages given them by the fight for women suffrage. Now, more than ever, women are filling jobs which have formerly been entrusted to men only and it was their entrance into occupations generally held by men which gave them an equal interest with men in legal decisions.

As early as 1856, the fight by women to vote, was started. The coming of the Civil War checked its' progress. However, with the ending of the war, the emancipation of the slaves and the proposition to give the ballot, to freedmen, brought the matter of suffrage to a national issue.

It was not until August 18, 1920 that this right was granted.

Those women who lived during the time of this struggle have shown in the past that they have not forgotten and they will again be present to make the most of this right.

We all should!

The Problem Is Transportation

There are quite a few people who would like very much to visit relatives at army camps but are unable to do so because of the transportation facilities.

Since travel is practically impossible by bus or train due to the crowded conditions, some people are finding it possible to drive their cars through. In most of these cases, additional passengers could be accomodated very nicely, either for travel part or all the way to their destination.

This would be a friendly and co-operative overture and would be well-received by those who are finding it difficult to secure means of travel.

Share, and share alike.

Across the Desk—

Statistics show there are over 38 million quarts of milk delivered daily to homes throughout the nation.

A day or days away from camp are referred to as "leaves" by officers; and by enlisted men, they are "furloughs."

Henry Ford will celebrate as an octogenarian today.

VISITING IN CALIFORNIA

While visiting her son and daughter-in-law, Mr. and Mrs. Ray Beery, in Snyder, Calif., Mrs. Margaret Beery, 44 N. Wayne-av, writes that she is having a wonderful time. She states that her weekly issue of The Record helps her keep up with the activities of the Hilltop people and gives her enjoyable reading. She journeyed west June 1 and will return home in October.

Receives Air Medal

Lt. Kenneth C. Nuzum

Recently decorated for meritorious achievement while participating in aerial flights, was Lt. Kenneth C. Nuzum, son of Mrs. R. C. Richards, 162 N. Burgess-av. He was awarded an air medal for his participation in 25 operational flights in the Southwest Pacific.

Before his assignment to overseas duty, Lt. Nuzum was stationed at Sarasota, Fla. He is a former student in the College of Agriculture at Ohio State University and was in his sophomore year at the time of his entrance into the service.

Awarded Merit Badge For Over 50 Hours Service

"I hate to have a story put in the paper about me because after all I was only one of the many who did the same thing," protested Mrs. L. E. Baird, 154 N. Burgess-av. The 'same thing' was the gigantic job of processing and mailing War Ration Book No. 3.

Among the first to donate her services, appearing the second day at the Masonic Temple, 34 N. Fourth-st, she has missed only a few sessions and worked more than 50 hours, for which she was awarded an OCD merit badge Wednesday night, July 21. Mrs. Baird has experienced 'writing', 'checking', and 'screening', which she explained was the correcting of mistakes and supplying omitted parts of addresses. Her estimate of the books she has handled is an average of 800 a day.

Her reason for undertaking this additional work is that she thought that bit was small and insignificant to what boys like her grandson, Earl Waldo Baird, Jr., are doing. Her grandson is a Corporal and is stationed at Ft. Riley, Kan., and his parents live next door, at 158 N. Burgess-av.

A graduate of West High School, he attended Ohio State University where he received his Doctor of Medicine degree and completed his internship at St Francis Hospital. He had offices at 2518½ W. Broad-st, for one year.

His wife, the former Margaret Fletcher, is now residing with him at Osborne, O.

Burial was in Green Lawn Cemetery by Jerry Spears Funeral Home.

A doll which played music awarded Rose Tonti first prize for the most unusual doll entered and Geraldine Vale, second prize. Patty Blackburn received honorable mention for a doll made of an egg and milk bottle.

Judges for the show were Mr. and Mrs. W. J. Egnor, 1955 Floral-av, and Glenn Lloyd, S. Grubbs-st.

This afternoon at 2:30 p. m. there will be games and prizes for children six to 12 years old, with a special event at 7 p. m. for children over 12 years.

Starting this week, there will be a scrap book contest; a coloring and drawing contest is held each Wednesday at 2:30 p. m., while the Girls' Hiking Club, which is open for new members, meets each Wednesday at 4 p. m. with Miss Morgan in charge.

Other activities of the playground include croquet, weaving, handicraft, volleyball, softball, story telling, folk dancing and singing. All classes are open to both boys and girls.

Air Raid Post To Receive Award

Three shows for all Civilian Defense Personnel will be shown Monday, Aug. 2, at 8 p. m. in West Broad Street School. Shows will include control center activities, duties of the air raid wardens, and information about how to make reports on the new A. R. W. forms.

During the evening there will be a presentation of the Fifth Region Honor Post Award to A. R. W. Post 11-K-1, at 81 N. Wheatland-av, of which James McCready is senior warden. This is the first post in the city to receive such a reward.

Share Your Vacation - - -

(EDITOR'S NOTE: This is the first of a series of vacation stories which we hope to present. If you desire to share your former vacations with those unable to enjoy a vacation this year due to gas and tire rationing, your notes will be appreciated.)

By Shalmir Springer

For the first time in 21 years Mr. and Mrs. John C. Rohr, 255 Binns-blvd, have not planned a vacation. "My husband's vacation starts next week and it doesn't seem like it at all; why, I can remember the summers when we talked, planned, and packed for days in advance," Mrs. Rohr exclaimed.

There was the time they vacationed in Florida, in the summer of '39. They went down through the Great Smokies and by the west coast of Florida and returned to Columbus by the east coast. Their daughter, Marilyn, accompanied by her grandmother, Mrs. Maybelle Stout, went to New York and reached Miami Beach by boat, where they joined them.

They stopped at St. Augustine, the oldest city in the United States, and visited Ft. Monroe, the fortress which had been held by several different countries before remaining in the possession of North America. Cruising the lake and passing many beautiful homes, the guide pointed out the residence of Al Capone, notorious racketeer and gambler, and the home of James M. Cox, ex-governor of Ohio. They also hiked through Parrot Jungle; before entering this colorful paradise in which wild birds—and mosquitoes—thrive, each received two whisk brooms

In Army Air Corps

Richard Byerly

Experiences have been plentiful for Cpl. Richard Byerly, son of Mr. and Mrs. E. Byerly, 48 S. Hague-av, since his entrance into the Army Air Corps, Jan. 18.

He feels he has learned about everything there is to learn of a plane, its parts and operations. When he returns home it will not be necessary for him to have his car repaired when it needs it, for he will be able to take care of it himself.

In a letter to his parents, written while he was in Lincoln, Neb., prior to his graduation and advancement to rank of corporal, he remarked, "I have traveled many miles and I have seen and talked to fellows from all over. I have learned that not all Texans carry six-shooters, that all of Louisiana is not swamp, and Nebraska is not full of Indians."

At present he is stationed at Chanute Field, Ill.

Gasoline Coupons Must All Be Endorsed Immediately

Motorists and all other gasoline users were reminded today by Theo. F. Webb, chairman of the West Side Rationing Board 25-10, Franklinton School, Sandusky and Broad-sts, that all coupons in their gasoline ration books must be endorsed immediately.

Coupons in new books issued since July 22 should be endorsed on the face of the coupon soon as they are received from the rationing board, Mr. Webb said. In addition, users should write endorsements immediately on any coupons now in their possession.

In the past it has not been necessary to write notations on coupons until they were actually used to buy gas.

Immediate endorsements are required under a new O. P. A. amendment both as a convenience to the public and as a help to O. P. A. investigators in checking misuse of ration coupons falling into the hands of persons not entitled to them, the board chairman pointed out.

Supplemental Gas Rations

Effective immediately motorists will not be required to apply for a renewal of their "B" and "C" ration for occupational mileage because the period for which the coupons were issued has expired, and the coupons thereby rendered invalid. They may continue to use them until they have obtained a renewal of the old ration. This also applies to non-highway users holding "E" and "R" coupons.

Service Men's Rations

It will no longer be necessary for service men or women home on furlough, to spend part of their leave at the ration board for special food allotments. When applying for furlough or pass, they may also make application for off-the-base rations. The allowances are computed for three days, covering nine meals.

The application can either be taken to the board by the service man or the householder. Or the home owner may wait 'till the expiration of the furlough, but no longer than 15 days thereafter, to replace rations used.

Such applications must be made on forms supplied by the armed service unit to which the applicant belongs, and must be signed by an officer and the applicant.

Ration Book No. 3

Upon receiving your Ration Book No. 3, make a record of the serial numbers on the book or books, so that if they are misplaced or lost, you can report them to your local rationing board. If for any reason you haven't as yet received your book, go to the local ration board after Aug. 1, and present the stub retained from your original application, if one was made; if not, you will then be permitted to make a new application.

Parents of children born since June 10 may obtain books for them in the same way.

Coffee Rationing Ended

Suspension of coffee rationing became effective yesterday, after an address Wednesday night by President Roosevelt, in which he stated there had been a great increase in merchant shipping, making this possible.

Respect Your Ration Book

Just as the men and women in the armed services of our country are taught to respect the uniform and the equipment that is issued to them, so the civilian on the home front should respect his ration papers. All ration books, regardless of whose name they bear, remain the property of the United States Government. Theft of such books or the altering of ration papers for the purpose of obtaining additional rations, may be punished under powers granted to the Federal Government by the Second War Powers Act.

The law provides severe penalties for the theft or misappropriation of a ration book. Anyone guilty of stealing books that have been left at an applicant's house by the postman may be imprisoned for tampering with the United States Mails.

Life of A Fireman, Exciting To Others--Unexciting To Him

By Joan Young

"You never think about the narrow escapes or exciting experiences you have had until you stop and talk it over with someone," said Frank L. Luckshaw, 317 N. Wheatland-av, in a conversation Wednesday evening.

"It sounds exciting and thrilling to anyone outside but when you do it every day you just don't think much of saving lives and battling flames," he continued.

When asked if he had ever encountered any really harrowing experiences on the Columbus Fire Department, Luckshaw said yes, a couple.

Among his "harrowing experiences" is the fire that burned the building out at Long and High-st, in 1936. This fire fighter was blown out of the building twice while trying to beat back the flames.

"I would have a hard time telling you where I would be today if it hadn't been for one of the firemen who caught me the second time on the stairs," he remarked.

Another experience recalled was the time he carried an invalid lady, weighing over 200 pounds, down an 18 foot ladder. The victim roomed on the second floor of the burning house and was unable to help herself in any way because she was bedridden with a broken hip and her body was badly deformed. Luckshaw said all he could do was put the lady over his shoulder, and with her arms around his neck, he stealthily carried her down the ladder to safety.

When asked if any victims ever got hysterical or gave him trouble while trying to save them, his reply was no, but that he had carried a couple of people out of buildings who were very weak from fright.

One such case was the time a family had evacuated a house filled with gas fumes, leaving a sick boy in the second story. Luckshaw said he climed up the old stand-by "18 footer" again and carried the lad to safety, but in the maneuver he held the boy close to him and felt his pounding heart against his side.

And so it goes—the mad dashing life of a fireman—to him unexciting.

Luckshaw is now fire chief at Fort Hayes Service Command where things have been rather tame for him since his arrival several months ago.

Gas Is Allowed For Vacation Purpose

Birkett L. Williams, Regional Administrator, OPA, in explaining how gasoline may be "legitimately used," under the ration program to visit state parks and for vacation purposes, stated that the holder of an A card who is allowed 240 miles of personal driving each month can make a round trip of 480 miles by accumulating his coupons for a period of two months.

The holder of B and C cards in accepting supplemental mileage for occupational purposes automatically reduce their additional driving for personal purposes to 90 miles per month. This can be saved up for two months making a total of 180 miles round trip.

"If people would use the gas ration allotted them in a fair manner, I am sure that everyone could enjoy a vacation at some spot conveniently located and within reach of the legitimate mileage they have been granted" Mr. Williams concluded.

After the optometrist had tested the professor's eyes and found them wanting, he asked:

"And now, sir, which shall it be — eyeglasses or spectacles?"

"Spectacles, please; and I think I'd better have three pairs."

"What ever for?" demanded the optometrist in surprise.

"Yes," said the professor; "one pair for home and one for my office, and a third pair to look for the other two."

BASEBALL PLAYERS

No athlete can compete with ball players
The essence of symetry and grace,
Sprinters need speed if they'd succeed,
That's all they need in a race.
Professional wrestlers are good athletes
Nimrods are good as a rule
Boxers I could name who acquire any fame
All came from an athletic school.

Baseball players must have many talents
In a contest they need every one,
Throwing with precision from any position
Catching backhanded on the dead run.
Every football player is a good athlete
Millions every fall they enthroll
But there is no athlete who can compete
With the experts in baseball.

Some Day, An Ambition To Fly A Plane, May Come True

By Shirley Springer

"To fly a plane—my happiest dream, my greatest ambition; someday, perhaps, it shall come true, recently I went to the Sullivant Avenue Airport where there was constant activity. People who were leaning against the fence between the parking lot and the field were watching the planes land and leave. I watched too, for a while; then I walked toward the hangers on the west side of the field where I saw a group of boys, including Bob Watts, 88 N. Roys-av, intently observing some men who were working on a plane engine. Every one there was far too busy to talk, so I turned eastward to the other hangars where I met Harold (Bud) Fryer, 2723 Elliott-av pushing a Culvert Cadet into its 'garage.'

"We talked about the various makes of planes and about the types of services which women may enter. I became so enthusiastic about the Women' Ferry Command that I resolved that the next day I would go to Port Columbus to get an application for the government's statement of approval. (All civilians must have permission from the Civilian Aeronautics Authority before they may take flight instructions).

"Upon entering the office of the Sullivant Avenue Airport to inquire about the W. F. C., I met Eddie Arn, manager of the field and Calvin Beard who was checking planes as they left and returned. E. G. Jones, owner of the airport, explained that the cartoons on the wall were for the Navy cadets who make mistakes while flying. Two of these cartoons were a warning not to overshoot the field while landing and to look around while flying. Bud Fryer said, "You'll be flying along with nothing around, and in the next second when you glance back, there's a huge transport coming toward you. Then it's time to get out of the way, quick."

"Mrs. Jones took me into the class room to see some air traffic rules. While there, I noticed parts of black ties which had names in chalk printed on them. Whenever a Navy man makes his first solo flight, his fellow 'shipmates' cut off his tie. There was also a lock of girl's hair on the "Solo Board." No doubt the Navy boys were helping her rejoice over her first flight alone.

'Just before my arrival at the airport, one girl who had made her first solo had thought a wheat-field was part of the landing field. Her plane turned over but there was no damage done. However, when the girl stepped out of the plane, she fell and bumped her nose. After it stopped bleeding, she was in the air again.

"My biggest thrill came when Sgt. Gene Carville, a crew chief at the Lockbourne Air Base, said that I might ride in the Taylor Craft plane which he owned. During the flight when Charlie Reiber, the pilot, would make a sudden ascent and just as quickly dip the nose of the plane my throat had the sensation of sliding to my stomach and reversing position before it hit the top of my head.

"Frankly, I don't think I'd mind having a reversed throat, a bumped nose or being minus a tie or my hair, if I could just get the first eight hours necessary for a solo flight.

"Although I am ineligible for entrance into the W. F. C., because of the age requirement of 21 years, I wish best luck and 'happy landing' to those who may do so in the near future."

Defense Worker Receives Certificate For New Idea

A national honorable mention certificate from the War Production Board was received this past week by Pietro Passalia, 132 Westgate-av, for his proposed idea to improve and increase the production of Helldiver planes.

Before entering defense work, Mr. Passalia, was a blacksmith. He devised a machine attachment which has reduced the time a beading steel bands from more than six minutes to less than one. One department only now handles the work, with two less men than previously necessary for the project. The amount of non-productive feet each piece traveled was cut by 1000 feet.

Mr. Passalia is a native of Philadelphia, Italy.

for the purpose of brushing away insects.

Their group passed through the Everglades on the Tamiama Trail which extends from Tampa on the west coast to Miami on the east. Both crocodiles and Indians were plentiful.

They visited Hileah race track and saw the graceful pink flamingos which are kept in the center.

The Rohr's general impression of Florida was neat, well-kept shrubbery and lawns, beautiful pastel stucco homes, waving palms, and statuesque cocoanut trees.

A more recent journey was their tour through the New England states in '41. Part of the time they spent in Worcester, a village near Boston, with friends, and cruising lazily about in Boston harbor in a cabin cruiser. They visited Wayside Inn, immortalized by Longfellow and restored by Henry Ford. At the inn they serve only the food that is grown there. Picturesque scenery was afforded by the neat, red farm houses scattered throughout the countryside. And Mr. Rohr acknowledges that he was most impressed by the White Birch Forest in Connecticut.

They stopped at the Lobster Pot in Rhode Island, noted for its lobster dinners and unique manner of serving. It was built out over the water; the building itself is divided into numerous rooms which have troughs with different size lobsters (alive!) in them. The diners select the lobsters they wish and then wait for them to be prepared.

Returning, the family viewed for 'about the twelfth time—but never on a honeymoon'—Niagara Falls.

Last year, in compliance with the O. P. A. tire regulations regarding short distances they went to Sunset Beach, which is located near Morgantown, W. Va., where only a week was spent.

Plans for future vacations include an exploration of Yellowstone National Park. "In fact," Mrs. Rohr smilingly admitted, "it will be our very first vacation trip after rationing.

Jar Rubbers Are Different This Year

It is now thought that red rubber will be available for jar rings this year but there will be no cause to alarm if the rubbers you buy turn out to be black. It is the rubber not the color, that counts. True, you may be a bit startled when you open your first package of the war models. "But what of it?" asks Gladys Kimbrough, Home Service Director of Ball Brothers Company. "Our grandmothers got along well enough with lipless rubbers and so can we."

Months ago, manufacturers began experiments to learn how to make jar rings that would conserve both rubber and food—the government set its scientists to the same task. One of the first things upon which all agreed was that lips are unnecessary for opening jars. The point of a thin knife can be run under the rubber to make a tiny space for air to seep through and break the seal. It is then easy to remove cap or lid. It was also agreed that jar rings could be a small fraction of an inch narrower but the thickness must remain at the pre-war standard.

War-time rubbers will keep jars sealed air-tight, but they won't stand abuse. To get good results, break yourself of that never-good habit of stretching to test and follow these four simple rules:

1. Wash and rinse rubbers. Boil them to sterilize if you can fruit the old-fashioned open-kettle way. If processing is to be done, drop the rubbers in boiling water and set aside until needed.
2. Have rubbers wet when they are used—and be sure that each rubber lies flat on the sealing surface of the jar.
3. Partly seal all jars before processing.
4. Screw zinc caps and bands on glass top seal closures slowly when sealing, as quick or jerky turns cause rubbers to slip out of position.

ONLY A LITTLE DEAD BIRD

I saw it lying dead on the sidewalk
A Wren fully feathered and small
Never again to sing, chatter or talk
With companions upon the wall.
I was walking alone to my humble hotel
Early one morning on a busy street
And I could not tell why the bird fell
Lying dead there at my feet.
I made a pause to discover the cause,
Too deep for me was the mystery,
Never again to hear the gay applause
Of friends in the old apple tree.
We too pass away every night and day
Women and men like that little Wren
Often call us away from their work or play
And nobody knows the instant when.

—C. S. Parks.

Apply After Aug. 1 For Ration Book 3

According to an announcement by OPA, mailing of ration book 3 has been completed. In case any residents of the community have not received the new book, they may after August 1 go to their local ration board, taking with them the receipt from the application previously mailed by June 10.

Residents who did not apply for ration book 3 by the June deadline, may also go to the local ration board after August 1 and make their application, stating reasons for not complying earlier in the summer.

BOUNDARIES

There is the boundary of each belief,
Not visible as neighbors' fences, yet
Although there is no sign in lettered jet,
Interlopers, hurdling, come to grief.
Beyond the inviting gate and parapet
Are acres of our faith, green-swept to a leaf.
Frothy hounds are better kept outside,
Their whirlwind greed to touch peace but twists
The grasses mangled beneath a gory hide.
What was a gracious host with welcoming stride
Becomes a hostile watcher, stones in fists.

—Ida Elaine James, in Taleria.

French Isle Has Interesting History

Reunion's history is as varied as its topography. Discovered in 1545 by a Portuguese, Mascarenhas, the island bore his name until 1643 when it was claimed for France and renamed Bourbon Island. Colonization began in 1664 at St. Paul bay under the direction of the French East India company. In 1764 the island reverted to the French government. When the Revolutionists came to power in France they called the island "Reunion," an idea that endured only to the rise of Napoleon.

"Ile Bonaparte" then became the fashion. The English seized the island in 1810, and gave it back five years later. "Reunion" again emerged as the island's official name.

Reunion has been administered as a department of France through a resident governor and counsel general. Three delegates, one to the French senate, two to the house of deputies, traveled the 7,500 miles to Paris to represent the island's interests in the French parliament. Their constituents are, for the most part, Frenchmen, British, Indians, Chinese, Africans, and natives of Madagascar. To Reunion, France has sometimes sent political exiles, notably Abd el Krim, famed Riff leader, in 1926.

Like An Old Shoe,
Even A Suitcase Can Return

Vacationing has its good points and sometimes its bad, as in the case of a young lady who journeyed to Texas prior to the western flood we had several months ago. As she was returning, she checked her suitcase from town to town, but in one town she arrived before her suitcase and therefore, in order to make connections and arrive home on schedule, she had to leave her name and address for her traveling bag to be forwarded to her.

But, she waited, and waited, and waited. and it never arrived. However, after three months' search, it was finally located and returned, still in fairly good condition.

Observations . . .

Robert Cramer has one of the most beautifully situated homes on the Hilltop. Called 'Hilltop House,' it overlooks the Honor Roll at Glenwood Park.

Strange things occur now and then. It was told to me there was a certain young lady who retired for the night without locking her automobile. During the night she was startled awake by the thought and immediately attended to it, clad only in a nightgown, after which she again retired and I trust she then enjoyed a good nights' sleep.

Share Your Vacation - - -

(EDITOR'S NOTE: This is the second in a series of articles meant as a travelogue for persons unable to vacation this year. If you have experienced an enjoyable vacation in previous years, a call will be appreciated.)

By Shalmir Springer

"We're looking forward to another outing on Lake Winnipesauke, even though we did get lost the first time," laughed Mrs. Charles P. McDonald, 38 S. Roys-av. She was talking about the time she and her husband, with their two children, Patty and Tommy, went to New Hampshire to spend their vacation.

They stayed with Mrs. MacDonalds' aunt, who had a lovely spacious home in the woods, and near the beach.

"The first thing we did after arriving at my aunt's home, was to go out in the boat on the lake. It was a lovely evening, and we stayed out boating much later than we intended. When we started back is was dusky, and we weren't sure just which way we were supposed to go. All the inlets looked the same. We finally saw some people on shore, and asked them the way. They pointed, and we made a bee-line straight back."

Thrills were to come along frequently on the trip. Each day the group would start out in a different direction.

There was the ride on the Skimobile tramway at Cranmore Mountain. The cars resemble miniature automobiles and seat one person. The trip from the Base to the Summit is 2052 feet and takes about twelve minutes.

They voyaged up into the White Mountains and admired the massive Old Man of the Rock. The Flume, with its moss-covered rock walling, and slippery pine needles blanketing the ground appealed to Mrs. MacDonald. They were awed by the sentinel-like pines, which grow densely on either side of the trail which cuts through the forest.

The beautiful state of Massachusetts was also visited by this historically-minded family. In it there is the Wayside Inn, an impressive place to visit. Henry Ford paid all the expenses for the road from the main highway leading to it. Behind the Inn there is the barn where coaches of olden days are kept. Patty climbed into one, and liked very much the feel of the red velvet coverings.

Surrounding the Wayside Inn are exquisite gardens. Near the Inn is where Mary took her little lamb to school.

The one room building still has the scarred desks, the battered door, and a typical 'little red school house' look.

Both Patty and her mother were intrigued by the stairway hidden in the chimney in the House of Seven Gables. This narrow, winding, and very steep pathway led up to the secret room, very small with a great deal of antique furniture placed in it.

They passed by the 'Witch House' in Salem, and found many other things pertaining to witchcraft. They viewed Plymouth Rock, and paid tribute to the magnificient bronze Minute Man Monument.

Particularly Tommy was impressed by the trip from Boston around Cape Cod to the colony of Provincetown. It's an all day trip and upon arriving there, one can see groups of artists on the beach, swimmers, fishermen, whaling boats; there is always a pleasant hum of excitement.

Long after the rest is forgotten, Patty will probably remember the battlefields of Lexington and Concord. Her bedroom furniture is solid walnut and was made in Concord. There are knot holes in the foot and headboards of the bed, where the rope was strung through, for ropes were formerly used instead of springs.

Vacations to come will bring more visits to historical spots.

Surgical Supplies Arrive

A large shipment of dressing supplies has arrived at West Broad Street School, Red Cross Surgical Dressing Unit. The arrival of these supplies is making it possible for the unit to resume its former time schedule which was, Tuesdays, Wednesday, and Thursday from 9:30 to 3:30 and Wednesday evenings, 6:30 to 9:30.

An appeal is being made by Mrs. Carl Wisker for more volunteers to enable this unit to do its share towards the Franklin County 100,000 dressing per month quota for the remainder of this year.

High school girls, as well as women, will be accepted for this work. Each worker is required to wear a clean, cotton dress, but no rings or nail polish.

Miss Lovewell will study with Doris Humphrey, (Modern Dance); Muriel Stuart (Ballet); Johnny Sager (Tap); Donald Sawyer and Fred LeQuorne (Ballroom); and Jose Fernandez (Spanish).

Classes at the Keith School of Dancing will open on Tuesday, Sept. 7, featuring classes in baton twirling which Miss Lovewell spent some time in studying earlier this summer in Chicago.

Enrollments for all classes will be taken at the studio after Aug. 16.

Percentage Low On Hilltop Tin Can Collection

It has been reported that only about one in seven families actually have tin cans in front of their homes when the truck comes along to collect. This makes a very low percentage on the Hilltop.

In a discussion with A. H. Knapp at the City barns, it was discovered that only a very few people actually are saving tin. It is expected that each home will have at least one tin can properly prepared, placed out in front for collection.

Are Hilltoppers doing their part?

Amusements

Loew's Ohio

Cassowaries Largest of Borneo's Odd Birds

Largest of the many strange birds of Borneo are the cassowaries, relatives of the ostrich and emu. Characteristic features are possession of horny casques and neck wattles. Some six species of these flightless birds of the genus Casuarius occur in Australia, Borneo and neighboring islands. They inhabit the forests and, while preferring a fruit, vegetable and rodent diet, have strong digestions, for, in common with the ostrich, they will eat almost anything.

All are about five feet high, with a black, horny-plated casque on the head, writes Edith M. Laing, in Nature Magazine. Stout gray legs, capable of high speed, can deliver a bone-breaking kick and the long, horny, spiked calw of the inner toe can mortally lacerate an enemy. Would-be molesters had better beware, too, of the spine-like quills with which the rudimentary wings are equipped.

To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives—you lend your money.

Teaches School In Mexico City

A year ago Carter Sanders was wearing an Army uniform. When all arrived he received a medical discharge and returned to the home of his parents, Mr. and Mrs. C. W. Sanders, 96 S. Hague-av.

Since he could not participate in active military service, he decided he would return to Ohio State University from which he had been inducted, to complete his course in the College of Education.

Even prior to his graduation from West High School, he had dreamed of the day when, in cap and gown, he would cross the graduation platform to accept his 'sheepskin'. However, when the commencement exercise took place this past June Mr. Sanders was not present as he was already teaching school in Mexico City.

The school, American School Foundation, founded in 1888, has an enrollment of 930 pupils, housed in a three story modern building.

Like all schools in the country which is our neighbor to the South, it has two school semesters. Opening in February, the division is in June, the second semester ending in November. Climatic differences make the variance from the schedule followed by schools in the United States. Ten days vacation are allowed at Easter and in September.

School opens at eight o'clock in the morning, closes at one p. m. However, for those who need help in their studies, the school remains open in the afternoon.

Teachers are subject to the same requirements established by schools in the U. S. They receive a salary for 12 months, although school is in session only 10!

Their grading system is quite different from ours; 10 signifies excellent, a grade between 94 and 100; nine equals good, grade 88 to 93; eight means average, 82 to 87; seven denotes fair; a grade of 76 to 81; six is passing, 70 to 75; five or below designates a failure, zero to 69. Mr. Sanders found it difficult to become accustomed to their method of grading, stating, "I have been brought up on the A, B, C, D, and E system, it is hard for me to distinguish between fair and average, the only saving grace being the one is designated by a seven and one by an eight."

A separate grade card must be made each month for each subject taken by a student. Final examinations are given at the end of the semester, and the term grade is derived by averaging the monthly and final examinations.

Eighteen units are required to be eligible for graduation from high school. Courses from which students are permitted to choose are: college preparatory, commerce, general, homemaking, domestic science and national university. As in our school system, certain subjects are required for entrance in a university. Such subjects as Latin, Greek, logic and world literature are necessary to enter the National University of Mexico,

Refugees from other countries consider the American School the closest approximation to schools in their home countries. Mr. Sanders says "The American School should truthfully be named 'The International High School' or the 'Melting Pot School', or some similar name," as there are 26 nationalities represented in the student body.

Although Mr. Sander's main objective is to teach school, he is also studying at the National University while in the climate prescribed for his health.

Extra curricula education and recreation obtained by Mr. Sanders has been a visit to Chapultepec Park and Castle, which is the home of Maxmillan. The castle is located on a high hill and is surrounded on all sides by extensive forests. The rooms still contain the furniture used by Maxmillan and his wife, Carlotta.

Also, he has seen the floating gardens of Xochimilco and the Shrine of Guadalupe Canal. He was much impressed by the church which was built in honor of the Virgin of Guadalupe, the patron saint of Mexico.

He will return to the United States in December.

Helpful Hint: A quick salad can be made by mixing carrots shredded fine with grated onion, chopped parsley and seasoning with French Dressing.

1¼ to 1½ tsp. salt
Few grains pepper

Wash the heart, cut away any tough tubes and remove excess fat. Add the onion and put through the food chopper. Add the crumbs, milk, slightly beaten egg and the salt and pepper and mix well. Put in a small well-buttered loaf pan and bake in a moderate oven, 350 degrees, for about 1 hour and 10 minutes. Serve with Cream Gravy. Serves six. Make Cream Gravy as follows:

1½ Tbsp. butter
3 Tbsp. flour
1 or 2 bouillon cubes
1½ C. milk
Salt and pepper

Melt the butter in a double boiler, add the flour and bouillon cubes and mix well. Add the milk gradually and cook, stirring constantly until thickened. Season with salt and pepper. Six servings.

¼ lb. salt pork, diced
1 Tbsp. onion, chopped
1 tsp. salt
1 Tbsp. fat
1 pt. milk
1 pt. water
1 Tbsp. flour

Cook the pork and onion together until a delicate brown. Add this mixture and the water to the potatoes. Cook until potatoes are tender but not mashed. Make a white sauce of the fat, flour, and milk and add it to the potatoes. Serve hot.

Graham Cracker Cake

1/3 C. butter or margarine
2/3 C. sugar
2 egg yolks
2/3 lb. graham crackers

Charm and Chic For The Furlough Bride

Many a girl who has cherished dreams of going to the altar in the traditional white gown and veil is getting married in whatever dress or suit happens to be handy when her hero comes home for a *brief* furlough. A wedding dress is part of every young woman's dream, but in these uncertain days she gladly does without it.

That doesn't mean that the war bride can't look glamorous. Arrayed in her Sunday best, or even in the suit that she wears to the office, the girl who has a furlough marriage can look sweet, charming, and lovely. There may not be time to shop for a shimmery satin gown, but there will still be ample time for the grooming that makes the plainest girl good to look at. Even if her entire outfit is restricted to "something old" and "something borrowed" and "something blue", today's bride can wear the invisible halo which should surround every young wife's head.

Consciousness of looking right comes largely from complete cleanliness. That is true as much for casual events as for the biggest day in a woman's life. A bath, a shampoo, a manicure, clean clothes from skin out—these give radiance to a happy woman. She may yearn for a three-yard train and orange blossoms in her hair, but she doesn't need them to be every inch a charming and lovely bride.

Good grooming is important too, for the war bride to keep in mind when her new husband is far away. It helps morale and it also makes sure that tidy home habits await her hero when war is over.

SAVE WASTE FATS

PROLONG THE LIFE OF FATS

Never heat a fat until it smokes. (When fats burn or smoke they have an acid taste and are indigestible. Burned fats and rancid fats have outlived their kitchen usefulness, but are still good for ammunition. Sell them to your meat-man as waste fat.)

Most cooking fats burn at relatively high temperatures. They can be used for all frying as well as baking.

Butter, margarine and drippings that contain some sugar and salt — such as bacon drippings — burn or smoke at relatively low temperature. Take extra care in using them for frying. Use them principally for baking and seasoning.

WHY DIDN'T SHE HIDE?

Maud Muller they say raked the hay
How much I do not know,
But I would say she shirked one day
My version is printed below.
She left her work for a lazy shirk
I claim she tried to beguile
Why didn't she hide or scamper inside
When she saw his crafty smile?

The Judge I think asked for a drink
Too lazy to get off his horse,
Maud gave him a drink made a wink I think
Then suffered the pangs of remorse.
Girls leave clover all the World over
And occasionally one will fall
They pay the frieght but get this straight
Man isn't the cause of it all.

West High Round-Up

By Shalmir Springer

Everyone—seems to be enjoying a vacation except yours truly. Barbara Reynolds recently returned from here; she spent several very pleasant days in Xenia . . . Barbara Knox left Monday, a-traipsin' off to Pennsylvania . . . Marilyn Grinnell and Wilda Swain went on a Youth Hostel trip, sponsored by the Girl Reserves . . . Aggy Hart is spending four weeks at camp and enjoying the Peace and Quiet—if she's practicing her bugling, I doubt if the other campers are enjoying the same.

Serving—in the Navy will be Ted Sonner, Lewis Strickland, Bob 'Rabbit' Evans, and Dave Haines . . . You can just call Bo Sheward 'Draftie' now . . . All of the West kids wish you the best of luck, boys! . . . and Nancy McFadden and Esther Ongaro boosted a boy's morale when they appeared at Union station to see Barney Maddox, from Chillicothe, who is going into the Army Reserves.

Dots and Dashes — Janice Campbell and Millicent Shafer pled with Bob Harvey to get another pineapple . . . Bill Richards was struck by lightning as he was drinking water—after that, I bet he will be a teetotaler . . . Cupid must be asleep, think those, who wish Jean Heaney and Bill Patterson could get together . . . Rumored is the return of Pat Lauer from Washington next week. She was visiting a boy friend who is ill . . . Clem Wolfe is to arrive soon, bringing with him 'Torchy' a sharp red-headed boy from Vincennes . . .

Betty Hem and Bunny Watkins are hand-holding I hear . . . A petition is being circulated for Roger Atkinson to come back to the rink — all West kids are signing, hoping it will be successful . . . Does Pat Smith still like Matere Alban? — certain parties would like to know . . . Elaine Bigler is said to be admiring Jody Graham . . . David Scoles seems to have left Morehouse Martens in shambles . . . It's bewildering! but Albert Swain and John Steiner seem to like to take girls up to the top of the AIU—several invitations having been issued . . .

Marjorie Norris will enter Nurses Training in September . . . Shug Haines and Stan Smith are visiting Dick Hoover in Tenn. . . . Clara Belle Bowers is wearing a ring with the initial R—standing for Russell . . . Marilyn Patton celebrated her birthday last Wednesday . . . So, now, I've found to whom Barbara McNutt writes, claiming it's to her aunt—none other than George Black-more . . . Then there's the little girl who got spanked by her date when she put crumbled graham-crackers in his hair . . . We hear Margy Carter is wearing a ring—third finger, left hand. . . .

Condolences—will be accepted by those P. O. D. students at summer school who had 'til today to get in 37 units, and who sadly relinquished to the dear professor less than half—all cards of sympathy and floral offerings may be sent either to my home or to the Hilltop Record.

If Not A Letter, Write A Card

Tree Foliage Destroyed By Bagworm

All owners of trees and shrubs should be on the alert for the bagworm, a tree defoliator about three-quarters of an inch in length, dull brownish or blackish in color. Head and thoracic segments are horny and whitish and are mottled with dark brown.

These worms live in a bag which they carry with them. The male bag may be an inch long, but that of the female may be longer.

A great deal of shrubbery around Hilltop homes has been invaded by these intensely disliked insects. Those who can relate their success in destroying these worms before they destroyed their trees are Phillip Hedrick, 71 S. Westgate-av; T. C. Reynolds, 80 S. Brinker-av; and Mrs. Laura Wilkins, 89 Eldon-av, to name a few.

In 1907, the bagworm, a native of North America, attracted more attention than any other tree defoliator. Ohio was one of the eight states which had been bothered the most.

This insect is found most frequently on evergreens, but since they multiply very rapidly, they may also be found on willows, maples (especially silver maple), elms and oaks. Semi-woody plants, such as elder, hibiscus and ragweed are sometime attacked. Herbaceous plants and grasses are generally not eaten.

Birds do not care for the bagworm; probably because the case is tough. However, there are some parasites that are natural enemies to these foliage destroyers.

Most effective remedy is to gather by hand the bags, and burn the contained insects and burn them. Some people would rather drop them into kerosene to destroy them. An arsenate of lead or paris green spray should also be used.

Quick Bean Cookery

The amount of time we women have to spend on cooking, now, is less than other years. Throughout these summer months we've all been busy. Not just on sedentary social—nor even civic duties, but on war-time work in fields and orchards, in dairies and gardens.

Farm crops have never been so vital as they are today. Our cattle, our poultry, our produce never more important. And with man-power depleted as it has been lately we have had to put our shoulders to the plow again, and foreswear the pleasures of the kitchen.

Well, we've done it before and we can do it again! There's never been a war waged in this country . . . from the first potshots the Indians took, behind trees, at our homesteading ancestors—to the late great war when our menfolk left us behind to fight on foreign shores . . . that we women have not played an active part in winning. We have never been sit-at-homers while our menfolk did the fighting. We could always shoot a rifle, swing an ax, plow a field, ride a horse, with the best of them.

It is a different role that most of us must play today. This is a different kind of war. But we are doing our part just as valiantly as ever in fields and factories—forts and arsenals—in hospitals and clinics and [illegible].

Busy as we are these days most of us don't have time for any lengthy cooking. We need quick meals—quick recipes — quick-trick dishes that will save us kitchen time and still feed our families well.

Ready-to-serve foods are the answer to this need. Fully prepared dishes like oven-baked beans. The real old-fashioned down-on-the-farm kind of beans that come today in jars and tins. These beans are already baked to a tempting mealy tenderness in a tartly spiced tomato sauce. You need only open and heat to have the main-course makings of a meal.

For variation, oven-baked beans may be combined quickly with other foods: With cooked leftover carrots and hefty meat balls . . . With rice and onions, Southern style . . . Or with old-time country garden herbs for an extra touch of savor. Here are some suggestions you might like to try next time you need to serve a hurried supper:

Hopping John

Cook—
1 tablespoon chopped onion
Until tender in—
2 tablespoons butter or drippings.
Add, mixing lightly—
2 cups cooked rice
1 medium (18 ounce) can oven-baked beans with tomato sauce and pork
¾ teaspoon salt
Dash pepper.
Heat and serve. Serves 6.

Baked Bean Supper Platter

Season—
½ lb. ground beef
With—
Dash pepper
½ teaspoon salt.
Form into small balls and brown, cooking thoroughly in—
1 tablespoon fat.
Add—
1 medium (18 ounce) can oven-baked beans with tomato sauce and pork
2 cups cooked sliced carrots (may be left over).
Heat and serve on warm platter. Garnish with sweet mixed pickles. Serves 4.

Baked Beans with Herb Flavor

Combine—
1 medium (18 ounce) can oven-baked beans with tomato sauce and pork
With—
½ teaspoon basil
Or—
¼ teaspoon thyme
Or—
¼ teaspoon sweet marjoram
Or—
2 tablespoons finely chopped chives.
Heat thoroughly before serving in vegetable dish. Serves 4.

Or maybe your family prefers stews and meat pies. Just add sliced or diced vegetables to meat that is almost tender. For a festive flair, top ship with dumplings, biscuits, mashed potatoes, or rice.

Eggs do their duty of extending the meat in souffles and timbales.

Veal or Lamb Souffle

6 tablespoons fat
½ cup flour
3 cups milk
½ cup bread crumbs
3 cups ground cooked veal or lamb
2 tablespoons chopped parsley
Salt
Pepper
4 eggs

Make a sauce wit hthe fat, flour, and milk. Add the bread crumbs, meat, parsley, salt, and pepper to taste, and the beaten yolks of the eggs. Fold in the egg whites, beaten stiff. Place the mixture in a greased baking dish or in individual baking dish or in individual baking dishes or custard cups. Set in a pan of warm water and bake in a very moderate oven for 1½ to 2 hours or until the mixture is firm. Thin tomato sauce or gravy may be served with the souffle.

There's no excuse for monotony in meat dishes, even if you have the same kind of meat more than once. Very few seasonings. Try a little onion, tomato, green pepper, or a dash of herbs or spices. Sauces and gravies aid in stretching the meat and also add flavor. For a peppy barbecue sauce, simmer soup bones, tomatoes, and spices — such as garlic, green peppers, bay leaf—in water to cover. Cook several hours, let set overnight, skim off the fat, strain. Serve hot.

Stretching Family Meat Allowances

Thrifty homemakers now have a double purpose for planning their meat purchases. Each pound of meat costs both money and ration coupons. Before the emergency, intelligent shoppers were principally interested in getting the best values for their money to keep the bank book balanced. Now there's an additional reason—to get the most meat from the ration coupons.

One of the principal ways of spreading the meat flavor in more meals is by mixing meat with bulky, mild flavored foods like macaroni, noodles, eggs, beans, rice, or any number of vegetables. For Southern Hash cut the cooked meat in small pieces, brown in fat. Then add diced potatoes, sliced onion and other seasonings, gravy or meat broth, and cook on top of the stove or in the oven.

HOW DO YOU PLAY THE GAME

Can you keep on your feet when you meet defeat
Never complain of a little dirt
Keep on going whether reaping or sowing
Never complain if you get hurt?
Does a broken arm cause you alarm
Must you stop to place the blame?
Many go straight ahead till they drop dead,
"How are you playing the game."

Maybe The Future Will Bring More Vegetarians

There have been numerous synthetic products, most of them which have proven better than the original, but when it comes to food . . . well, synthetic steak is quite a long way from the farm product.

Yet, in the near future, when ordering steak, you may receive the 'meat" made from yeast, water, and molasses. The "meat" has already been consumed by the army and navy.

Comments heard regarding this synthetic product, are "If it comes down to that, I'll become a vegetarian," or "I've already eaten more lunch meat in recent months then is good for my health, due to the fact that choice meat could not be purchased, but it seems I'll go on eating it more and more."

Personally, I think I shall too.

And He Really Didn't Have So Much To Do

A young country newspaper man, upon receiving his occupational questionaire, filled it in thus:

'I write news, editorials, advertisements, keep books, pay bills, read proof, clean type, set headlines, set advertisements, set news and editorials, pay bills, set jobs, feed press, cut papers, wrap bundles, make up newspaper, order supplies, tell people where the local draft board is, tell others where the town's lawyer might be, tell still others that silly rumor they are worried about was only a silly rumor, pay bills, wash forms, distribute type, pacify irate subscribers whose paper failed to arrive, edit bungled copy, collect bills, pay bills, sort mail, scan the exchanges and maybe clip an item. Then in my spare time, I hunt and fish and play checkers.

It was not stated whether he had enough to do to keep him from being inducted.

First Letter In Four Reaches Lt. Grubbs' Parents

Remember the old saying 'if at first you don't succeed, try, try, again'? On his fourth try, Lt. Eugene (Dude) Grubbs, was successful in having a letter reach his parents, Mr. and Mrs. Forest Grubbs, 111 N. Hague-av.

A prisoner of the Italians since Mar. 31, the letter which arrived last Saturday was dated May 25. In it he stated his need for various necessities, toothpowder, shaving cream, etc. Also, he asked for four photographs, to be mailed separately, of his wife and his baby daughter who was born on the date of his capture.

Lt. Grubbs was shot down by a German Messerschmitt over Italian territory. His plane caught fire and he 'bailed out.' He was slightly injured and was in a hospital for some time.

"Pay no attention if all these letters sound alike and if I keep repeating the same thing. I'm just hoping that one will get through and you will know I am safe and well," state Lt. Grubbs.

The camp in which he is interned is composed of all officers. There is something doing all the time so the time passes unnoticed. "Please don't worry about me, I'm fine and get quite enough to eat. Tell everybody I said 'hello' and to write often. All letters are welcome."

Those who desire to write him must address letters, First Lt. Eugene F. Grubbs, American P. O. W., Interned by Italy at Campo 21, Military Post No. 3300, Via New York, N. Y., writing in the upper left hand corner 'Prisoner of War Mail' and in the upper right hand corner, 'Postage Free'. Return addresses should be placed on the back of the envelope.

In the same mail along with the letter was a birthday card to his dad.

Even before this article could be completed, word was again received from Lt. Grubbs.

This letter was dated June 29, and started out by saying "All is well." To keep in shape the prisoners in this camp play volleyball and baseball every day. His team, named the Little Bears, 'sort of went to pieces but finished up with more wins than

Volunteers Needed For Canteen Service At Blood Center

There is an appeal being made to all Hilltop women to take an active interest in the nutrition course given by the Red Cross, so that they would then be eligible to the Canteen Corps Emergency Kitchen, which operates for the benefit of flood or epidemic victims, or during any other emergency.

Mrs. Lewis Fait, chairman of all the city units, and Mrs. George Bornheim, 571 S. Burgess-av, both ask there be more volunteers. Red Cross Blood Donor center served 7000 meals during the month of July and had 187 women spending a total of over 4000 hours during that month. Hilltop women are especially appealed to, since the Hilltop unit has the fewest serving than in any other unit in the city and has openings for 25 more volunteers.

Persons interested may contact Mrs. Bornheim, chairman of the Hilltop unit, or the Red Cross center.

Near Tragedy Almost Cancelled Future Vacations For The Clark Family

By Shalmir Springer

"We had planned a much longer vacation one year, but when Mr. Clark was almost drowned in Kentucky, we decided to come right back home," smilingly admitted Mrs. Earl Clark, 137 N. Roys-av.

This excitement occurred when the family went down to Louisville to spend part of their vacation. Mr. Clark was swimming at the mouth of Herrods Creek, which branches off into the Ohio River this side of Louisville, and had swam across to the other shore.

Starting back, he was in the middle of the stream when he took the cramps. Had it not been for Delores, his oldest child, he would not be spending vacations now—even at home! Delores, seeing the peril her father was in, swam rapidly out to him, holding him up until some men could reach him to pull him ashore.

"That was all the vacation we had that year," grinned Mr. Clark.

But though that was their only vacation to come so close to tragedy, the Clarks' have had many just as thrilling.

There was the time Mr. and Mrs. Clark, with their three children, Delores, Bob, and Cloetta, traveled over Route 60 down through Charleston, W. Va., and Gauley Bridge. They saw Hawke's Nest, a steep cliff, measuring 500 feet from the bottom. Near there was a zoo, with many different kinds of birds, animals, and various reptiles.

They passed through White Sulphur Springs City, and overnight stopped at a rustic pine log cabin, which was situated in a pine forest, where the breezes made soft, swishing sounds in the cool, black, night air. Going further into Virginia, the family viewed Natural Bridge, which is an arch of limestone, spanning a small giver. The bridge stands among flowing cascades, dark caverns, and deep pine woods. The mighty arch, of a single stone, is 215½ feet in heighth and 100 feet wide, with a span of 80 feet.

Riding along through the Shenandoah Valley, the group could not resist stopping at the Endless Caverns. These caves have an interesting history which story goes that they were discovered by several boys who were rabbit hunting. The boys' dog chased one of the furry animals into a hole and then followed. The boys started digging to get their pet out, and so made the discovery of a large cave, which has turned out to be so immense that no one yet has reached the end, there-by receiving its name. One is taken by a guide for only the three miles which has been explored. Further into the interior it is quite dangerous.

But, for those exploring and courageous souls who wish to wander back further into the cave, a system has been devised for them, at their own risk, to go as far as they wish, back into the unexplored part. Each person who does so, is given a bottle with his or her name on paper which is placed inside the bottle.

Searching carefully for the safest way back, if one comes upon a similar bottle, lying beside the path, he has the thrill of satisfaction coming with the thought that, by going a little further, he will have been the one who has gone farthest in this underground wonderland. The explorer picks up the bottle he finds and places his in the spot where he turned around and then returns with the bottle, as proof that he has gone still further than the previous person.

Certainly a thrill would come with it, for the vibrations of the sound of ones voice insome remote places, would be enough to loosen a deluge of rocks, and soil upon the victim.

When the Clarks, stopped into the cavern, wearing heavy

In-Laws Meet In North Africa

It's a small world, agrees Milton Sebring after having met his brother-in-law, Gordon Woodcox, in North Africa.

He enlisted 10 months ago in the air corps and received his training at Keesler Field, Miss., after which he went to California. Last three months he has been stationed in Texas. He is the son of Mrs. Anise B. Price, 268 S. Eureka-av.

Jack R. Embrey, son of Florence Embrey, 833 S. Eureka-av, left July 7, for Great Lakes Naval Training Station.

He graduated from West High in June.

Formerly was employed at A. & P. Super Market on W. Broad-st.

Pvt. James T. Neal was home for a few days in July from Benicia, Calif. He is now taking the A. S. T. P. in engineering at Monroe College, La. Lt. Harold E. Neal is an instructor in R. O. T. C. at the University of Kansas, Lawrence, Kan. They are the sons of Mr. and Mrs. W. E. Neal, 2539 Ridge-av.

Recent inductees were Robert W. Whitmore, 3732 Sullivant-av and Frederick W. Andrus, 1101 Thomas-av, into the Navy; into the Army were Benjamin L. Cunningham, 2860 Valleyview-dr; Charles H. Karns, 507 S. Eureka-av; William C. Hineman, 87 N. Westmoor-av; Leo J. Walker, 3510 Sullivant-av, and Howard A. Monroe, Hilltop Station.

Green HI-Lites Campaign For Re-election

In opening his campaign for reelection, Mayor Floyd F. Green, Hilltop resident at 3046 Crescent-dr, wishes to state that he is the first to recognize that some of his official actions and recommendations have not been popular and as such do not enhance his opportunities for reelection. However, he also takes the time to point out facts concerning his administration:

"I think that everyone will agree that the past four years have been the most difficult from financial and other standpoints than in any other similar period in the history of our city. No longer are we able to resort to the expedient of refunding debt bonds for operating purposes. Without any reflections upon past administrations you should recall that my administration inherited an operating deficit of three-quarters of a million dollars, a bonded indebtedness of 29 million dollars and a much less income. During my administration all deficits have been eliminated — seven million dollars of bondebt have been paid, reducing our bonded indebtedness from 29 to 22 million dollars of bonded debt have been being operated on a pay-as-you-go basis. City council only appropriates such funds as are approved by the city auditor and if the estimates of the auditor as to anticipated income are correct, the end of my first term will find this city, as it is today, "out of the red and in the black." We shall continue to so operate."

Mayor Green also calls to the attention of the public that only a few years ago Columbus was branded "the traffic slaughter house of the nation," as scores of our citizens were being killed and hundreds injured in unnecessary motor accidents on our streets. After many months of research, he was instrumental in adopting and placing into optration a plan of hard work, steady, sensible, fair and impartial traffic law enforcement which has brought Columbus first place award in National Traffic Safety.

"Government, whether it be national, state or local, must function in the interest of the majority of its citizens. Firmly believing that industrial expansion not only would aid in the war effort, but was good for this community, the city administration put all of its facilities behind the effort to secure the location here of the Curtiss Wright plant. Early in my administration, I personally, devoted the major portion of many weeks to the exclusive job of selling Curtiss Wright management on the desirability of Columbus as the proper location for one of its major operations. While my effort to have this community selected by Curtiss Wright was virtually single-handed, and not without opposition, it is gratifying to know that all groups and classes are now cooperating in aiding this great institution a part of our civic and industrial life.

"This new plan provides employment of some twenty-thousand workers, with an annual payroll of approximately fifty million dollars and is a permanent addition to this community."

Mrs. Wisker Has Donated 739 Hours To Dressing Unit

Ted Webb, Local Board Chairman Thanks Helpers

Theo. F. Webb, chairman of Ration Board 25-10, located in the Franklinton School, Sandusky and Broad-sts. expresses his thanks and the thanks of the community for the generous service given by volunteers, in the letter which follows:

"In the midst of all our activities in the war effort, it is only fitting that time be taken out to express the thanks of the government and the community for the voluntary service so generously given by you.

"Your recent assistance in the processing of Basic A gasoline ration books was a notable contribution to the war effort, in that it saved the time of busy war workers. Members of your ration board are very grateful for a job well done. Without your help it would have been impossible to have completed the task on time."

Foreign Missionary In China At Its Overthrow In 1911

By Shalmir Sprenger

Few probably can even imagine China as it was before the overthrow in 1911, of the Manchu conquerors.

One of those who knew and saw China as an un-modernized country, is Miss Irene Dornblaser, a missionary who lived there in 1910. She was connected with the American Board of Commissioners for Foreign Missions, and was first assigned to the city of Foo Chow in southern China, where she taught at the Foo Chow girls' college.

At the time of her arrival the country was at a critical point in their history. The Opium War had preceded by several years, and finally England had agreed to withdraw her opium importation into China, if China would also agree that by the end of five years, she would no longer be raising poppies, from which she could extract the drug. Japan, also exporting opium to China, had made an agreement to relinquish their opium trade.

When, after the five year period had elapsed, and the English messenger could not find even one poppy growing on the Chinese country-side, England honorably withdrew. Japan pretended to do so, but continued sending it into China, smuggling the opium to dens, which were operated by ignorant Chinese, bribed by the Japanese. Japanese government paid officials guarded these dens, giving warning of impending raids so that it was difficult to catch the smugglers in the act or prove them guilty. Thus, was Japan able to easily invade China, after having made its inhabitants dope fiends.

"I arrived there at a critical time, just before the transition," repeated Miss Dornblaser, musingly. "The Chinese were fighting desperately to rid themselves of this opium evil, and to effect other reforms. The old aristocracy of scholars was still prominent. Many times, I have seen an old scholar, with one hand on his chest, his long nails curving over his shoulder—the ancient symbol of a scholar."

The scholar is held in the greatest esteem for the Chinese are proud that they are the second oldest civilization, Egypt being the most aged. Education and culture is the supreme good there, then next are considered the merchants or the business men. Militarists are held in the lowest esteem, for it is characteristic of these peace-loving oriental people to feel the finest quality existing in a person, is that maintenance of calm, and ability to remain undisturbed no matter what occurs. War is beneath their dignity, and the enjoyment of life and pleasures given to the members of the clan were all they wished.

Driven into fighting against their intrinsic ideals, the farmer class at first could not realize that this war could affect them. They expressed their admiration for the beauty of the Japanese planes and thought of them as nothing more than beautiful bird-like constructions, much less did they imagine them as being destructive. "Its a trait of the Chinese people," remarked Miss Dornblaser, "to find pleasure in the simple things of life."

This woman who has spent many years with the Chinese people, stated that she had had several American friends in Nanking, who recorded in pictures, and in their letters, the atrocities the Japanese had committed there. The papers and films were smuggled out of Nanking, and Miss Dornblaser knows them to be a reliable portrait of what is happening all over Japanese conquered cities.

"But," and the missionary leaned forward eagerly," I have also visited among the Japanese and found them socially lovely and charming. There are many Christian Japanese who can only imagine what their leaders are doing, but all they can do, is regret, silently, what has happened and what is happening."

"The Japanese people have no knowledge of the spectaculady horrible acts the armies are committing—and if told would find it hard to believe, as it would be for us, if someone told us our own boys in the Philippines, Africa, and Sicily were doing such things, for neither Japan nor the United States feels such behavior charcateristic of our nation. The Japanese people do not realize that their leaders are at fault in this war. They have been convinced by the army officials that the Chinese attacked them, and that they must fight to protect themselves, or nothing will save Japan from extermination. So that no truth will reach them of the actual situation, no western newspapers or magazines are allowed, and it is a criminal offense to have a short wave radio set.

"It is not any one nation, nor any one race, at fault in this conflict. It is the system of war, and the militaristic ideas which call forth the worst that is in any people."

Miss Dornblaser continued. "I believe that Mme. Chiang Kai Shek is right when she insists, after having experienced herself the extreme horror of war, that there must be no bitterness in the post-war world."

Then she told of the plan that Kagawa, the great Japanese Christian and E. Stanley Jones, had worked out together, the summer before Pearl Harbor. In it was a proposal by which Japan could withdraw from China and yet could save face. Japanese ambassador to the United States had agreed to this plan as had President Roosevelt, Prime Minister Churchill, and the Dutch government. But the plan was presented too late to the emperor of Japan. It arrived in Japan December 6, the day before Pearl Harbor, and everything was already prepared for that blow at the United States. The militarists discovered the design for international peace and delayed its appearance before the Emperor, until after the event, which was to take place the next day, occurred. So, too late, the emperor knew of it, and it was too late for him to agree, as he would have done, undoubtedly, had the militaristic element not withheld it.

Such plans have worked out Christian ways, of meeting the needs, even of our enemies, and could prevent war if just acted upon in time, and after we have won our victory we're going to have to take those ways to make a peace that will last. For if we make our peace on the basis of militarism, we are inevitably sowing the seeds of another war."

Miss Dornblazer became the principal of the American school of Foo Chow in 1926. When the youth of China began to rebel in '26-'27, and the fighting came close to where she and the American students were staying, she was asked by the government to leave for Manilla. There she was principal of Union High School for one semester after which she returned to the Shanghai, American school. This school is the largest American School for American students outside the United States. Her furlough being due, she left two weeks before the Marco Polo Bridge incident which started the war in China proper in the summer of '37.

Choose Simplicity For Home and Office

It's crisp as celery, cool as a salad, this practical hairdo . . . especially for the victory gardener! You girls who are serving your country with rake and hoe, know from experience that a simple, short bob is a "must" when working out of doors or at the office.
A few flicks of the comb when the chores are done, and these brief waves and curls are as fresh as freshly picked victory vegetables. Simplicity is the keynote of the wide, easy waves flaring back from the face. Practicality is the scheme of the ringlets skirting across the back below a soft swirl. And it's all so cool!

woolen coats for the temperature doesnt vary 10 degrees, winter and summer, it was like stepping from another world into a dream. The unreality of the damp, lighted atmosphere, gave an eerie beauty to the stygmites, which it has taken thousands of years to form. The formation of these stark pinnacles come by drops of water falling where a previous drop had fallen, evaporating and leaving a deposit of mineral there. Gradually, either from the ceiling of the cave, or from the floor up, these dagger like mineral deposits grow.

The series of caves are electrically lighted and in one large 'room' the floor is level and smooth. In one corner, there is a natural, perfectly-cut stone chair in which an old fiddler used to sit, and play for those who would come there to have some old-fashioned square dancing.

The Endless Caverns were certainly fascinating for the Clarks to investigate.

In 1940, the year of the Worlds Fair in New York, they journeyed to the Catskills and spent a large part of their vacation in the mountains. Cloetta loved to stay at a distance, so as not to frighten the animals, and watch the fawns, and deer. Bears, and other animals habited this rocky, mountainous abode.

Finally they tore themselves away from the leisure they were having under cool, mountain breezes and came down Riverside Drive along the Hudson River where at several piers they saw the ships, Normandie and Queen Elizabeth. Then they all attended the fair.

The biggest attraction to Mr. Clark, was the Display of Nations. At the Italian project, there was a beautiful waterfall that cascaded down from the side of one door. Mrs. Clark marveled at the enchanting 'electrical city'. Even the windows and window shades were operated by pushing an electrical button. Then, as the hands of the clock began to move towards twelve, the lights in the residential district gradually faded out. But downtown business lights glowed and 'owl' buses ran—all by electricity.

On the way home, Valley Forge was another stop-off. They still have the peculiar shaped hut, eaves going straight up, and the church still stands. In it are the original glass cut windows, beautifully stained. In the early days, the immigrants and particularly the Dutch were expert glass cutters. Some rusted, yet efficient-appearing cannons that Washington had used in battle are other relics of bygone-days.

In contrast and reminder of the fight for independence, are the old relics to the new structure, newly-built, which will be a reminder of the war to maintain independence. It is a hospital that will care for the veterans of this world war.

Their vacation this year? Just staying at home.

To remove a stain left by adhesive tape, apply kerosene, then wash the spot with warm suds.

When washing a coat sweater or cardigan, sew up the buttonholes to prevent stretching.

A paper plate glued to the bottom of a paint can will catch all drippings from the can and serves as a rest for the paint brush besides.

THE SANE AND INSANE

The Sane are striving for happiness
That alone is their goal
And not one of them you will confess
That has a contented soul.
Why pity the ones they acclaim insane
They relate no tale of woe
They don't complain in sunshine or rain
Have a peace we do not know.

If we guage our success by happiness
We have nothing to boast about,
The insane spurn our flaunted luxuries
And call us crazy no doubt
When we scoot and root flutter and scurry
Then die in poverty and despair
The insane don't worry and never hurry
And they die a millionaire.

Lt. Grubbs requests that if any parcels are sent they include pajamas, regular shoes, and tennis shoes (the other shoes were so heavy in the warm climate he couldn't wear them.)

He remarked that as yet he hadn't received any letters from the family of Marie, his wife.

Lt. Grubbs was in the hospital for a while, suffering from a slight wound in the foot. This bit of information they received from a boy who has since left the camp, and who was given Lt. Grubbs goggles by the pilot himself. This boy will be heard on Calling America at 8 p. m. E.S.T. over C.B.S. this Sunday.

The boys in the camp are all receiving American cigarets, which are surely welcome, and also food parcels from Red Cross. His attitude towards things in general and freedom in particular is stated in the words from his letter: 'Maybe if things go well we'll be out of here soon." Also, "Cheer up, Mom. I'll be seeing you soon."

Dudes' brother, Charles, is with the Army Air Corps studying to be a pilot. His complete address is A/S Charles Grubbs, 35001418, 349 C.T.D., Room 35, Wayne, Neb.

"SCHOOLS OUT! Schools out!"—sounds queer doesn't it, as we sit fanning ourselves in this hot, stinky weather. And did you hear, that school might be delayed until the middle of October? Another one of those darn rumors, I bet.

Sleeping Beauties — Esther Garner admits she's always sleepy (as who isn't?) Katherine Fleischer, after taking a nap at noon, returned to Seiler's to work, and said, "Good morning." Commissioned

Daniel A. Davis

Graduating Aug. 4 from the Naval Air Training Center, Corpus Christi, Tex., Daniel August Davis, was commissioned a second lieutenant in the U. S. Marine Corps Reserve.

After his enlistment, July 6, 1942, he was sent to Iowa City, Ia., after which he went to Glenview, Ill. He was then transferred to the Naval Air Training Center. At present he is stationed at Daytona Beach, Fla.

A graduate of West High School in February, 1942, he is the son of Mr. and Mrs. S. E. Davis, 170 N. Wayne-av.

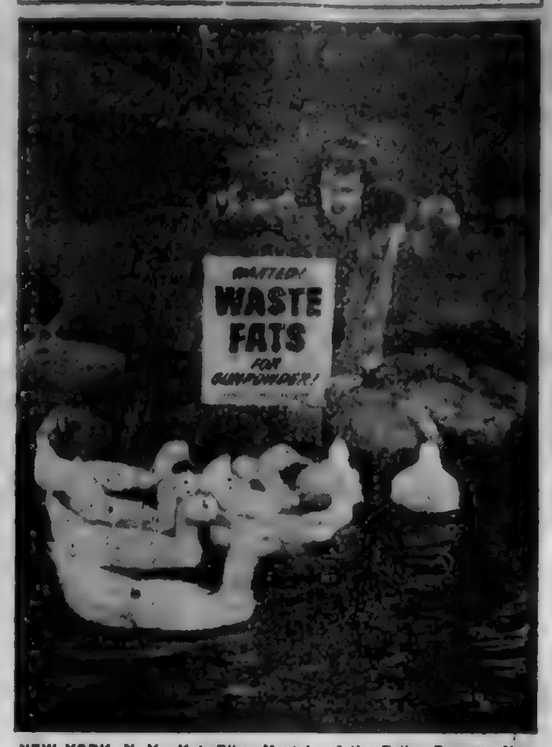
Slack-Clad Nurses Amaze Sicilians

A member of the Army Nurses Corps, First Lt. Catherine Grogan, who arrived in Sicily with the invasion forces, and is "looking forward to seeing Italy soon" has a great deal on which to look back.

At the time of her enlistment, in July, 1941, Lt. Grogan was first sent to Randolph Field, Tex. In rapid succession she was then sent to Bowman Field, Ky., transferred to Miami, Fla., for several days, and then returned through New Jersey to an embarkment point to be sent overseas.

She arrived in Africa about the first of March, at which time she and the rest of the group of nurses, initated their new quarters, making canteen jugs do for vases, using sheets as table cloths, and otherwise "making a good time out of nothing."

Lt. Grogan broadcast over the Army Hour in May, and was presented to the King of England on his tour through Africa, which, she acknowledged, was one of the most thrilling events of her life. During the lull after the successful African campaign and before the Sicilian invasion occurred, there was swimming in the Mediterranean and quite a few parties were held.



But all was not fun, nor play. Lt. Grogan is chief of a squadron of 24 nurses whose duties are to assist in the air evacuation of both Allied and enemy casualties near the front, to base hospitals. Her outfit helped evacuate 18,000 casualties by air from the Tunisian front to rear hospitals.

Lt. Grogan and her aides made their first appearance in Sicily, slack-clad, since this apparel is much more efficient in combating dirt, mosquitoes and fleas. The Sicilians expressed their amazement at women wearing 'trousers'.

Having formerly made her home with her sister, Mrs. William Spires, 274 N. Warren-av, Lt. Grogan is a graduate of St. Joseph's Academy and Mt. Carmel Hospital. Four of her brothers are in the army.

Doctor Major Frank Grogan was also in Africa, but so far as is known, brother and sister did not see each other personally, although they communicated. Sgt. Martin Grogan is in the Marines, somewhere in the Pacific, and Mark, his twin, is Staff Sgt. at Randolph Field, Tex. Lt. Bill Grogan is stationed in Macon, Ga.

Goose Grease for Guns

NEW YORK, N. Y.—Kate-Ellen Murtah, of the Folies Bergere, New York, is shown enticing the geese at the Bronx Farm. If they could read they'd probably swim in the other direction. Save all waste fat and turn it in to your meat dealer. In 21 days it is converted into urgently needed glycerine for munitions. One pound of waste fat will produce the glycerine required to fire four 37mm anti-aircraft shells.

Marine Pilot Finds Florida, Work Grand

Richard M. McGhee, second lieutenant in the Marine Air Corps is now stationed at Hollywood, Fla.

Like many other boys in service, he has been stationed at several different places since his enlistment last Sept. 16. He was first sent to Iowa City, Iowa, for his pre-flight training; St. Louis and Lambert Field followed for instruction in primary flight. On March 20, he was moved to Pensacola, Fla., after which he was transferred to Bronson Field, Fla., a very lonesome port.

After being at Bronson Field, upon his transfer to Hollywood, he enjoyed immensely the wide boulevards, lined with Spanish style stucco houses, cocoanut trees and needled hedges.

Lt. McGhee makes his home in the famous Hollywood Hotel, of Spanish design.

Miami is only twenty miles away. He found it to be a charming city in which he visited the Latin Quarter, the Beach Comber, and dined at Flagley Gardens to the melodies of Shep Field's orchestra.

Although the most important job in the world, Lt. McGhee finds his experiences quite exciting. He has flown several types of planes, with a horsepower of 1250.

In a recent letter to his parents, Mr. and Mrs. H. R. McGhee, 64 N. Roys-av, he gave a resume of his night when he and his buddies would "catch a bus at 11, or in Naval terms it would be 2300, for the airport. Then we will spend some time in the briefing room planning the flight. Take off would be about 0100 and return at six o'clock. By 0700 all will be in bed to sleep until noon when we'll arise and take a five-hour exam."

Sullivant Avenue Airport

(Editor's Note: Shirley Springer local airport reporter, will make the following a feature of the Record each week.)

* * *

Navy students of Ohio State University are moving from Sullivant Avenue Airport, 3560 Sullivant-av, to the new University field on Case-rd. Eddie Ara, manager of the Sullivant Avenue field, states that some of his instructors — Harold (Bud) Fryer, C. G. (Red) Fosnaught, Harry Grooms and R. M. (Dick) Barnhart—will "follow the fleet."

Foster Lane, president of the Lane Aviation Corporation which had been operating at the Sullivant Avenue Airport since Port Columbus discontinued lessons to flight students, has moved all of his planes to the new University field.

According to Calvin Beard, clearance officer, the transfer of the Navy planes will result in the Hilltop's airport being open for private pilots and pilots to be.

Curtiss Wright Flying Club, composed of Curtiss Wright workers, has its headquarters at Sullivant field. Since its establishment in August of 1941, the club has grown from 25 members to 125.

Elbert Drum, 3732 Sullivant-av, at present accumulating hours for his private license, is the Aircraft and Engine Mechanic for the Curtiss Wright Flying Club.

Preparing to be "pilots of the future" Curtiss Wright flyers are all active in the Civilian Air Patrol. Although the few honorary members are not permitted to fly Club planes, all of the regular initiates have varying amounts of time in the air; most of them have soloed. The club employes its own instructors, Ray Semple and John Kok, who they are hoping will not be inducted.

Curtiss Wright Flying Club started with four planes; their story is very similar to the nursery rhyme "Five little ... [illegible] ... ably damaged. The next two were sold to the government, leaving only one. Then a new plane came to the field; followed by another. Now there are three. By the end of next week the club will own five planes. They also have been buying other equipment and now possess two parachutes and all o fthe equipment necessary for a cross country flight.

Cook With Peanut Butter

Recent nutritional research has unearthed all sorts of food values where we housewives least suspected them. Take peanut butter, for instance. To most of us, peanut butter has been something to spread on children's bread and butter after school—serve for noontime luncheon snacks—and pack in picnic baskets.

But now, scientists and the Government say that peanut butter is a most important food, and it is listed prominently in the recently prepared nutritional program — U. S. NEEDS US STRONG—along with butter and other vitamin rich fats and spreads as a potent source of the energy we remember daily living.

I made a mental note which it was thereby helping himself to t them apart.

As long as they can remembe ... merely a tasty spread to put on bread, but has become an important ingredient in all manner of "made dishes", too.

The fine, pungent flavor of peanut butter imbues a dish with a delicate nutty quality that is pleasing to everyone. And the extra fat in peanut butter assures a double portion of shortening which makes a smooth, velvety texture unique to every peanut butter dish. Even without its dietary value, this is enough to justify the success of peanut butter in cakes and cookies, pies, pastries, meat loaves, salad dressings, puddings, and fruit desserts. Here are three recipes to start you off on this popular new kind of cookery:

Peanut Butter Meat Loaf

Have ground together twice—
1 pound raw cured ham
½ pound fresh lean pork.
Mix together thoroughly—
Ground meat
2 cups rice flakes
1 teaspoon Worcestershire sauce
1 [illegible]
¾ cup milk
3 tablespoons peanut butter
Dash of pepper.

Form into oblong loaf in a dripping pan, patting together well. Bake in a moderate oven (350° F.) until loaf is done, about 1 hour.

Note: May be baked in loaf pan if desired. Peanut butter gives meat loaf a rich nutty flavor similar to that of baked Virginia ham.

Peanut Butter Custard Pie

Combine, mixing well—
⅓ cup peanut butter
1 cup dark corn syrup.
Add, beating with rotary egg beater until well blended—
3 eggs, well beaten
1¼ cups milk
½ teaspoon vanilla
Pinch salt.
Pour in—
Unbaked 9 inch pie shell.

Bake in a moderate oven (350° F.) for 1 hour or until done. Cool and serve. May be topped with whipped cream if desired.

Peanut Butter French Dressing

Mix in bowl, beating thoroughly until well blended—
¼ cup peanut butter
½ cup salad oil
¼ cup pure cider vinegar
½ teaspoon salt
1 teaspoon sugar or light corn syrup.
Serve with mixed vegetable salads.

In a meeting Aug. 5, the Curtiss Wright Flying Club had their election of officers: reelected president was Bill Marsh; vice president, Ray Owens, replacing Gail Griswold; Glenn Graves, secretary, taking Vic Kosbab's place; reelected treasurer was Vern Acheson.

Dolly Herberding, 380 Wrexham-av, a graduate in bacteriology from O. S. U., has had among her list of varying experiences ten months active duty on CAP in Florida and is the first woman in Columbus to teach flying, she has taught some secondary CAP classes at O. S. U.

Possessing 508 flying huors, she has received several trophies, one of which was gained in November, 1941, when she won the Ohio State Flying Club meet at the Sullivant Avenue Airport. Windsock, APO 960

Received in the office recently was a paper from Sgt. Wm. L. Epperson, APO 960, out of San Francisco. It is titled, Windsock, APO 960, published on the 8th and 22nd of each month.

The issue received was dated July 8, the first anniversary of publication. It contained eight pages crammed with the latest news, several cartoons, interesting articles and editorials. A page was given over to sports only, as the various camps have their own baseball teams, golfers; even horseshoes, for which they are preparing a tournament. Probably when winter comes they may even form a football team.

Pictured were scenes from what was termed a Carnival and Luau, (pronounced loo-ou') which is Hawaiian meaning "a native feast." The midway was complete with the usual barkers, calling the attention of the crowds.

It is a wonderful feeling to know that our soldiers overseas can enjoy the same movies as their friends at home. The movie schedule printed revealed the feature changed daily, with "Omaha Trail," "Immortal Sergeant," "Who Done It," "Panama Hattie," among those listed.

The paper is complete with a comic strip—"Terry and the Pirates," and even a classified ad.

All in all, the paper is quite newsy and interesting, front page to back.

Your Worst Enemy

What is more powerful than the combined armies of the world? What has destroyed more men than all the wars of the nations? What is more deadly than bullets and has wrecked more homes than the mightiest siege guns? What steals over $300,000,000 in the United States alone each year? What spares no one and finds its victims among the rich and poor alike, the young and old, the strong and weak, widows and orphans? What massacres thousands upon thousands of wage-earners a year? What lurks in unseen places and does its work silently? People are warned against it, yet heed it not.

It is relentless.

It is everywhere—in the house, on the streets, in the factory, at railroad crossings and on the sea.

It brings sickness, degradation and death, yet few seek to avoid it.

It destroys, crushes, maims—gives nothing, but takes all.

It is your worst enemy.

What? Carelessness!

Before leaving the belligerent area, Sgt. Daugherty was told not to discuss military matters while at home, but he had been told it was permissible to tell about any experiences which he might have had in the Fiji Islands.

"There isn't a great deal to say about the Islands," the sergeant said, "except that the natives there are black and very courteous to the American soldiers." He said he had no trouble trading with the natives. Most of this was handled by Chinese and Hindu Indians.

"I saw many boys from the Hilltop and have called a lot of their mothers since I have been home. The boys are well and their morale is high."

"I was not a Munda," he said. "And I can't say what territory we saw besides the Fiji Islands."

After a short furlough at his home Sgt. Daugherty will report to Officer's Candidate School at Camp Barkeley, Tex., where he will study to become a medical administrative officer.

Thompson Twins Stick Together Through Thick and Thin

Walter and Wilbur Thompson.

—Courtesy Columbus Citizen.

By Jean Young

It's not just an ambiguous adage when the Sgts. Wilbur and Walter Thompson, twin sons of Mr. and Mrs. Clifford Thompson, 68 S. Harris-av, say, "We'll stick together through thick and thin."

The boys have proved as much. They graduated together from West High School and enjoyed the same hobbies—bowling and dancing.

On Jan. 23, 1942, in a team, the boys enlisted in the U. S. Air Corps and were sent to Keesler Field, Miss., where they were stationed 26 days before leaving together for the Panama Canal Zone. Less than two years ago the boys entered the army with the ranks of privates now they are both sergeants.

"I feel sure one wouldn't accept a promotion unless the other was to get one too," said Mrs. Thompson.

Since they entered the service the boys have been separated several times but they always turn up in the same spot finally. So far it has taken two special orders and three transfers to keep the boys together.

The boys have just returned to the Canal Zone from 16 months service on Galapagos Island where they report there are no natives or people of any "species."

While on the island one boy handled the post radio messages and the other was in charge of vouchers. To keep from having a merry mix-up the commanding officer called one "Voucher" Thompson and the other "Radio" Thompson. An officer in the Canal Zone ordered one of the boys to grow a mustache and made a mental note which it was thereby helping himself to tell them apart.

As long as they can remember the boys have dressed alike and now they wear the same sized shoes, share their uniforms, pool their pay, carry the same amount of War Bonds and insurance and share their correspondence.

When they were passing out typhoid shots Walter got two—one for himself and one for Wilbur. Walter got even for this though by sassing a sergeant and Wilbur received the repremanding for the misconduct.

The twins are now applying for appointment as aviation cadets. Should they be accepted it spells double trouble for the Axis.

Before entering the service Wilbur was employed by the Timken Roller Bearing Co. and Walter worked for the Pennsylvania railroad. The boys will be 23 in October.

Flies From New Guinea To Australia To Greet Brother

When Pfc. Herbert Harrison was given a furlough from his station in New Guinea, he flew down to "somewhere in Australia" where he met his brother, Sgt. Lloyd Harrison. It was the first time in two years the boys had seen one another. After spending a day with his brother, Pvt. Harrison journeyed on to Sidney, Australia.

They are the sons of Mr. and Mrs. H. S. Harrison, 130 S. Hague-av. Sgt. Harrison's wife, the former Delores Clark, resides at 137 N. Roys-av.

A True Fish Story Comes From Vacation Spent In Canada

By Shalmir Springer

When asked how many fish he caught while on his Canadian trip, 14-year-old Jack Trimmer replied, "I lost track of the number."

At five o'clock one morning in July, '41, four very excited boys—by name—Jack, Bob, Don, and Jim, with their mother and father

Jack Trimmer (with 10 lb. proof)

to do so. He fished from an island in Lake Pemichagan.

He acknowledged that "Dad had been getting some bites, but it takes a real fisherman to get the fish." This was no empty boast on his part, for the first thing

13 Guests Help 13 Yr. and 2 Yr. Old Celebrate Aug. 13

Last Friday was Aug. 13. It was also the thirteenth birthday for Margie Schoppelrei, daughter of Mr. and Mrs. F. J. Schoppelrei, 70 S. Westmoor-av.

Margie celebrated the occasion with a hoodoo birthday party at which thirteen people were jinxed as the result of having to walk under a ladder to enter the house in which open umbrellas were hung from the chandeliers. Black cats, just ready to cross one's path, peered from corners. A fortune teller predicted all of the bad luck which would come as a result of all actions done contrary to the approved manner regarding voodoo.

A play in keeping with the theme of the decorations was given. Games, dancing and croquet followed.

Composing the unlucky number of thirteen were Margie and her sister Betty Jo, Helen Clifford, Deloris Raymond, Tressa Mae Levy, Sally Rapstock, Bevelery Ann Hayes, Deloris Randles, Lavone Beard, Barbara Marie McEvoy, and Dorothy Frye.

Two-Year Old

Miss Catherine Swain, daughter of Mr. and Mrs. Morgan R. Swain, 152 Lechner-av, defied superstition by celebrating her second birthday, Aug. 13, with a party including 13 guests.

Among those present were Arlene Snyder, Mary Jo Snyder, David Snyder, Sondra Witt, Jimmy Schoby, Sara Morris, Edith Morris and Sharon Aronholt.

The couple is now residing at 1206 Augusta-st, Greenville, S. C., where Lt. Maughan is stationed.

VISITS FRIENDS

Mrs. J. B. Young, 74 N. Harris-av, left Wednesday for New Holland, O., where she will spend a week, visiting with Mr. and Mrs. Ed. Gerhardt.

Sullivant Avenue Airport

Three members of the Curtiss-Wright Flying Club, Bill Marsh, Gail Griswold and Vern Acheson, are lieutenants in the Civilian Air Patrol.

On Army Air Force recruiting duty at Hilliard Franklin County Fair Tuesday, Wednesday and Thursday, was Second Lt. Edward H. Miller, one of Sullivant Avenue's CAP officers. His job was to interview applicants for the Army Air Corps enlisted reserve and the Army Cadet Corps.

Since the departure of several instructors to the Navy School at Ohio State University, Bob Johns and Eddie Arn are finding that they lead a full daily schedule teaching all of the fledging flyers.

It has been disclosed that Harry Grooms, 477 Eldon-av, one of the instructors who recently left the airport for the new University Field, is from Paris, Tex.

A premonition of the Flyer's Club became an actuality this week, when one of their instructors, Ray Semple, was inducted into the Army.

Harriet Kenyon, who formerly filled her log book with hours gained at the Sullivant Avenue Airport, 3369 Sullivant-av, writes that the work in the Woman's Ferrying Command is not easy. She arises at 5 a. m. and spends the day attending ground classes and flying. She states that there has been some discussion of the changing the name of the Command to the WASPS.

About a week ago the airport had a little excitement when a plane which had "swallowed a valve" was brought to the hangers. The process of such a phenomena is that a valve stem breaks, the valve drops through the top of a cylinder and punches a hole through a piston which falls into the crankcase. The disconcerted pilot, who landed in a corn field near Grove City, is now searching for a 165 h. p. or 210 h. p. airplane motor since his damaged one cannot be repaired.

Pilots need two things when flying . . . an essential one is his license without which he is not permitted to fly . . . the other, to him essential, is his lucky piece. It is traditional that all pilots possess a lucky charm, whether it is a live kitten, a rabbit's foot, or a lucky penny such as valued by Virginia Williams. (Virginia is leaving soon for Sweetwater, Tex., where she will be in the Woman's Ferrying Command.) Charles Vorhees staunchly declares that he cannot fly his best without his wings pinned to his shirt.

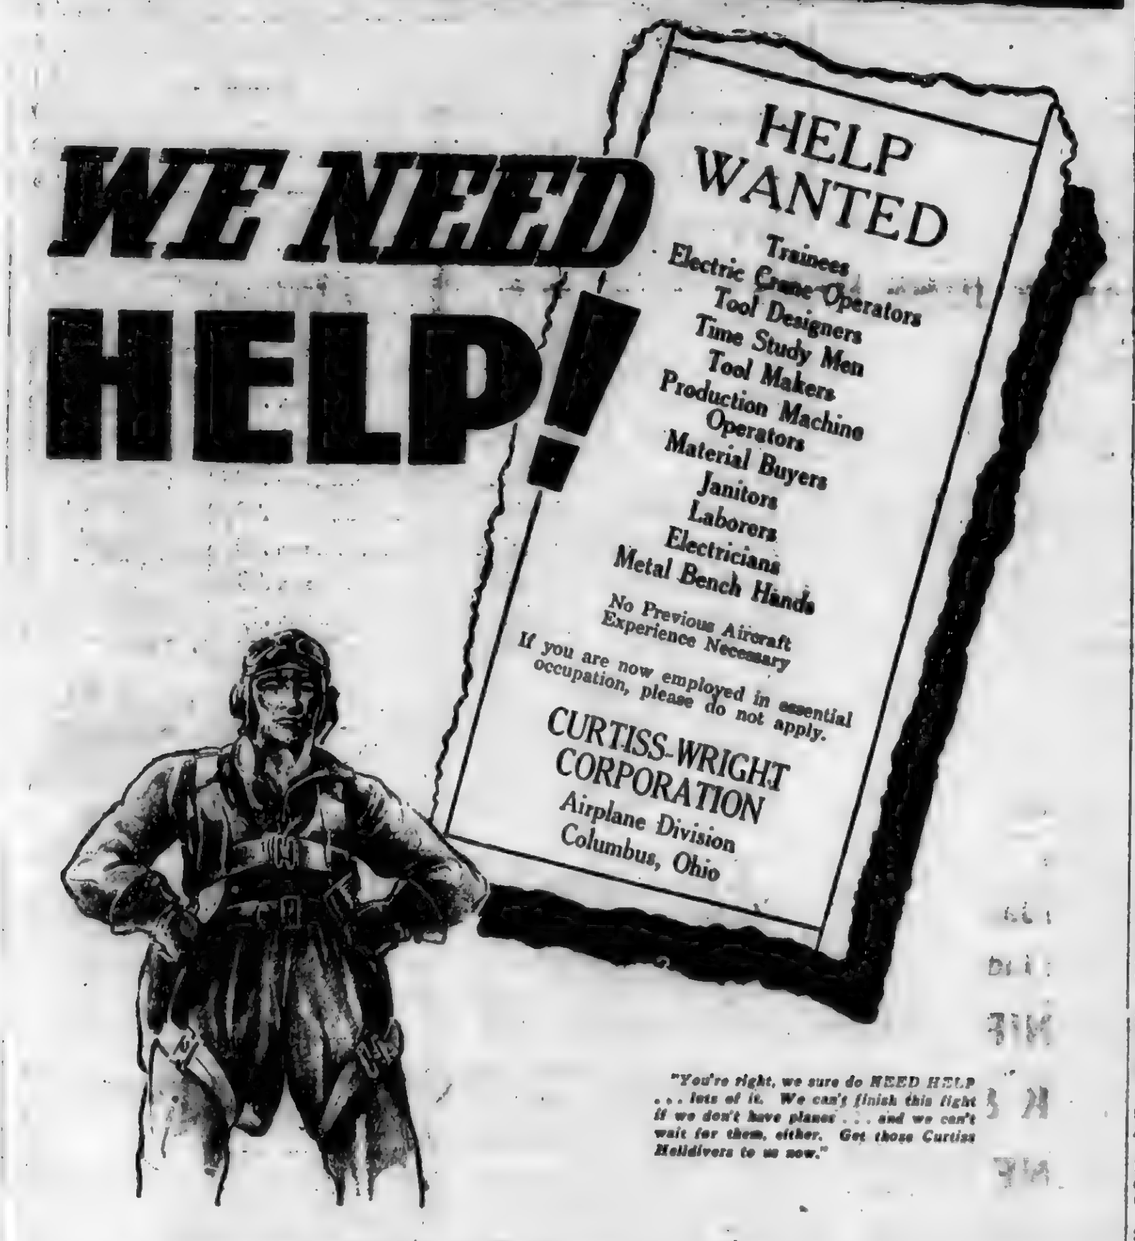
Mother of Boy In Service, Writes Poems

Esther Weakley, poetry editor, submitted the following poem which was written by Mrs. Minnie C. Mason, 192 S. Harris-av, who has a son in the service.

Memories

I stroll down our quiet street
As twilight shadows fall.
I think with sadness of days gone by
And memories I recall.



When cars some old, some new
Would all go whizzing by
Filled with carefree boys and girls
Some loud, some quiet and shy.

All out for an evening of pleasure
These young folks of yesterday
Not a thought of the tomorrow
But to go on in the same old way.

To reality, my wondering thoughts return
I see one, two and sometimes four
Service stats in most every home,
Which means our sons have gone to war.

The carefree youth of yesterday
Have answered their country's call
Not afraid to fight or even die.
To make our country safe for all.

Soldier Seasick On Journey Overseas

Following are excerpts from letters that Cpl. Harold Steele has sent his family from an American Transport and North Africa. He is the son of Mr. and Mrs. O. D. Steele, 23 S. Terrace-av. and before sailing was stationed at Camp Crowder, Mo.

While on board the transport, Cpl. Steele wrote the following letter to his family describing the ocean voyage.

Somewhere on the Atlantic Ocean.

"I am now on the deck of our ship, so I will attempt to write you a few interesting facts about my ocean voyage and experiences. Of course I won't be able to disclose any military information and so a few of the details will have to be skipped.

"I'm feeling fine at present, wish I could say the same about the whole trip, but I can't. I was pretty doggone sea sick there for a couple of days. I was afraid I might die—then I was afraid I might not.

"The food on board has been swell, the baking especially. We've had steaks, chicken and everything good. We've had lemon pie twice.

"I had guard duty my first three days on board. I was stationed on the bridge of the ship and it was interesting, because the captain gives all his orders from there. I was on duty when we pulled out of port; I was one of the last ones to see the U.S.A. I hope it won't be so long until we can see it again."

Cpl. Steele wrote a post script at the end of this letter—"Land has been sighted—hurrah!"

The following is from the first letter in which he stated his location.

"I expect that you're quite worried as to my whereabouts. Well, I'm somewhere in North Africa. I'm feeling fine and dandy, ready for any action that I might be called upon to do.

"The weather is fine; it's pretty hot in the daytime, but quite cool in the evening. We sleep under three blankets.

"The surroundings are beautiful. The houses in the nearby towns are all painted in tints, very light colors usually. The town is very pretty and neat, and quite modernistic. They would shame some of our modernistic houses. The inhabitants have beautiful gardens and flowers roam all over the grounds.

"The inhabitants here are very peculiar, but interesting. There are quite a few Europeans here too but they're so much like Americans that I don't notice them so much.

"The money system is quite a problem but I have it all doped out now. The money itself is very funny looking; they have no coins at all."

REPORTER: Good day, all West kids and alumni, here and elsewhere. We go to press!

FLASH!

THE FLEETS IN — Fred Mills and Jim McElwee blew into home port last Sunday, as did James Eldon Clark . . . Red Smith arrived in town Tuesday eve—much to Kathryn Wisdoms' delight . . . And Tom Webb was shipped out Wednesday, back to Great Lakes where he will be assigned to another camp.

• • •

FLASH!

DEBUNKING THE BUNK—Francis Sapp is eligible to the Liar's Club, having told me he had enlisted in the Merchant Marines. And I am eligible to the Sucker's Society, for having fallen for the yarn.

• • •

It has been asked of this reporter if—Don Runyon and Phyliss Webber are going together . . . same about Jerry Davis and 'Corky' Mock . . . Suzy Johnson is going to move to California.

It has been requested of—yours truly, by Paul Zeisler, Bob Howard, and Noble Allen if I will aid in securing purple socks. Any information regarding stores where such articles may be bought, will be appreciatively received by these three—such colorful items are needed to complete their flashy fall wardrobes.

I predict that (How did Pearson and Allen get on this broadcast?) before the end of the next year, we all will be hearing a lot about Pat Wilson, a ninth grader, who is very popular with the boys.

AND NOW—

This is your reporter signing off, leaving you with the reminder that getting the baby to sleep is hardest when she is about 17 years old.

A Joke Of The Minstrel Show

Primrose and West the minstrel show
Toured all the states for years
Every season from Frisco to Buffalo
Provoking laughter and tears.

I'll relate a joke that'll live forever
As told in the minstrel show
By blackface comedians talented and clever
About twenty five years ago.

If a darkey was carrying a turkey dinner
Said one comedian to the other
And he'd fall down like a drunken sinner
What would you call that brother?
The fall of Africa the overturn of Greece
The other sadly replied
The breaking of China disturbing the peace
The ruin of Turkey unsanctified.

Jackson Fuel Co. Offers Dust-Treated Coal

J. M. Jackson, president of the J. M. Jackson Fuel Co., Dana and Thomas-av, announces that complete facilities for dust-treating every order of their coal before being delivered, has been installed and put in operation.

One of the main objections to early storage of coal has been the fine black dust which filters from the bin despite all efforts to make the bin dust-tight. Housekeepers will not be bothered with such annoyance when storing Jackson Bonded coal, he declared and added that this extra feature is given without additional cost.

He also states that too many people are running a great risk of being unable to obtain their usual kind of coal by not storing it as soon before fall as they possibly can.

Mothers Remark On Son's Fighting With 37th Division

Last week the whereabouts of the 37th Division was revealed for the first time since it has been overseas. This division sailed in May of 1942 and with it went many Hilltop youths. Upon news of their position and participation in capturing a Jap held air field at Munda we contacted the families of a few of these fighting men to learn their reaction to the long delayed information of their location.

Mrs. Frank J. Currier, 81 N. Burgess-av, mother of Sgt. John D. Currier who is serving with the 37th Q. M. Co. over there, made the following statement

"I knew they were into something. You could feel it although it wasn't in the letters."

During the conversation Mrs. Currier told of a package she received from her son a few days ago containing coral and shells from the Fiji Islands and stamps from New Zealand which were packed in a copy of The Hilltop Record, dated April 23.

"I didn't know what to think, but it was expected," stated Mrs. Ruth Funk, 2545 Sullivant-av. Her son, Pvt. Beverly J. Funk, is serving with Co. K of the 147th Infantry.

"You might know how I felt when I heard the news. I wasn't surprised. Those boys are more than glad themselves, I know. They are anxious to get in there and get through so they can come home someday," commented Mrs. Carl Pharis, 239 N. Oakley-av, mother of Sgt. Paul L. Pharis who is serving with Hq. Co., 637 Tank Destroyer Bn.

"I think the boys of the 37th Division are doing real well," was all Mrs. A. Mulholland, 80 Eldon-av, had to say. She is the mother of Cpl. Charles Mulholland.

after casting, a fish hit! When Jack reeled the line in, he found a two and one-half pound bass on the end.

There is a French settlement on the shore of Lake Pemichagan, and the next morning they had a French guide, and went out again at seven o'clock. They returned to the cottage about 11:30 with a haul of about 40 lbs., mostly bass.

That afternoon they portaged over to Lake Pike. There, at the edge of the Lake and hidden under the brush, were three cans. The guide filled them each two-thirds full of water, tied one can to a line, and placed a small, live perch on each hook. Then the lines were thrown out into the lake. The group, after that procedure had been completed, trolled the lake. ("which", Jack explained, 'is having the motor at low speed with the lines dragging in back.")

They returned soon after Mr. Trimmer lost a 20 lb. pike. But to make up for this loss, they found two 'whoppers'; they were pikes, weighing ten pounds apiece. The gathering, satisfied with their success, portaged their way back while the sun was still shining over Lake Pike. When they reached Lake Pemichagan, it was pouring rain.

But lady luck sometimes played adverse to them. Once, the fish were hardly biting at all, but the pay-off came when their motor stalled four or five miles from the cottage, although the fish were biting well. Then they had to start back early—having to row that distance and reach home before nightfall.

Most of the time however, the Trimmers were quite fortunate and indeed all had such a wonderful time that, 'had it not been for gas rationing, that's where we would be right now.'

It is seldom more than once in a lifetime that a boy is called upon to fight for his country. Since he is out there doing his part, why can't you do yours? Soldier Sends Greetings In A Poem to Dad

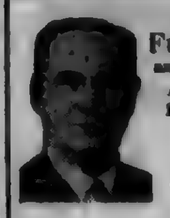
The following poem was written by Pfc. Edward R. Graham Jr., son of Mr. and Mrs. Edward R. Graham Sr., 346 Belvidere-av, and sent to his father for his 75th birthday and Father's Day last June. Pvt. Graham is stationed at Sioux Falls, S. D., with the Air Corps.

A FATHER'S DAY GREETING.

I looked and looked for a card today—
A simple verse that I hoped would say
The love I have for the world's best Dad
To cheer him on, and to make him glad.



No card could be found, as you can see,
But a happy thought just came to me—
So I took my pen from the barracks shelf
The happy thought—"I'll write it myself."

So here's my greeting Dad, to you
The words are mine, and I mean them, too
I'll send it on, when it's said and done
"To The World's Best Dad"—for there's only one!

By Eileen Grigsby

Headlines Five Years Ago This Week...

Perry Davis was having the opening of his new, enlarged service station at Whitethorne-av and Broad-st.

The C. and L. E. electric cars would cease their run on Hilltop territory in November, it was announced.

People were preparing to attend the Ohio State Fair which would open on Aug. 28.

Around About the Hilltop, One Hears

That Mrs. Edgar House, wife of former West Jr. High principal, now a Lt. (j. g.) in the Navy, has taken up residence on Sheffield-rd. . . . on furlough this week was Yeoman Jim Goudy, former teller at Ohio National Bank . . . Frank Harper on Terrace-av vies for the honor of the tallest sunflower, he has one 14 feet. . . largest tomatoe (so far reported) from a victory garden belongs to C. H. Campbell who had one which weighed 2¼ lbs. was 18 inches around, 9 inches across and 4 inches thru (can anyone beat that?) . . . Jack Shank has returned from his vacation and this is just a friendly warning not to bite on the story of the banana fish he's supposed to have caught . . .

Former West Senior High coach Harold Wise, together with his wife and daughter, Martha Jo, are visitors on the Hilltop this week at the home of the Charles Hall's on Algonquin-av. . . . Mrs. Young returned Monday after a short visit out of town and I understand she didn't have use for the smelling salts she carried with her on the bus . . . Millie Steele recently returned from a week-end trip to the Great Northwest . . . . our postman Mr. Vogel really lends a ray of good cheer with his pleasant "hello" each morning and afternoon . . . Shirley Springer, former Record employee, will take up clerical duties at the American Education Press come Sept. 7 . . . Howard Bruckelmeyer will return to camp soon, after a short furlough . . . honor for the most friendly person hereabouts can be given to Bill Edwards, who doesn't seem to know a stranger . . . that's what makes the world go 'round, though.

Across the Desk . . .

The SPARs received their name from "Semper Paratis-Always Ready."

Senator Homer T. Bone is credited with the following statistics on what it costs to war: "It cost 75c to kill a man in Caesar's time. The price rose to about $3000 during the Napoleonic wars; to $8000 in the American Civil War; and then to $21,000 per man in the World War. Estimates for the present war indicate that it may cost the warring countries not less than $60,000 for each man killed."

Release Non-Leather Shoes From Ration

Released from rationing have been all non-leather shoes with soles containing a small per cent of reclaimed rubber or made from low-grade friction scrap. This release became effective Aug. 16 and covers only footwear shipped from the factory after Aug. 15, 1943. It does not affect shoes which were in dealers' stocks before that time.

Shoe dealers on the Hilltop are asking that persons desiring school shoes and other fall footwear, to please shop early and avoid the end of October rush.

Stove Rationing

Nationwide rationing of domestic heating and cooking stoves went into effect Aug. 24.

Now, all consumer purchases of rationed stoves must be made with a certificate obtained at the local rationing board.

The total national quota, based on the number of stoves to be manufactured and made available as reported to OPA by the War Production Board, will be divided among OPA regions, districts and boards according to such factors as past use of stoves, population shifts and fuel supplies.

Gasoline Ration Books

Anyone holding old B and C gasoline ration books are requested to return them to the local rationing board and exchange them for the new type book, by Sept. 1. These old books can be designated by the fact that they have printed on them "permits delivery of one B or C unit of gasoline" while the new books are marked "mileage ration B or C."

Old books may be returned by mail. In doing so, holders must turn in coupons together with the tire inspection record.

Rhodes Promises Refuse Collection

James A. Rhodes, Republican candidate for Mayor, states:

"I not only pledge and promise a regular and systematic collection of garbage and refuse, but I will absolutely guarantee it.

"Overflowing garbage cans, especially in the hot summer months, are a danger to the public health and are a menace I will not tolerate. Refuse piles in the streets and alleys offer breeding places for rats, vermin, flies and mosquitoes, these will be cleaned up regularly and often enough.

"I will see to it that sufficient money is budgeted for the garbage and refuse collection department to make and keep our city clean and sanitary."

Share Your Vacation . . . Washington, New York, Philadelphia, Among Vacation Spots Visited

By Shalmir Springer

Robert "Bob" Harvey, 48 S. Ogden-av, is quite gypsy-like, having been in most of the states east of the Mississippi River. Going by train, he has visited several of the larger cities and seen many of the prominent places of interest located in or near each.

Bob saw the glittering white layout of Washington, D. C., under last summer's sun. He went up into Washington's Monument and looked out over Mirror Lake to Lincoln's Memorial. He passed through the Post Office Building, and then paid a visit to the Federal Bureau of Investigation where he mused through records and biographys of well-known criminals, notorious smugglers, and other men famous for their crimes. Illustrations and momentoes, such as weapons, were displayed. He watched the finger printing process and found out the follow-through of finding, then tracing, the prints.

He also went to New York, and enjoyed a tour through the RCA Building. He was inside the Empire State Building, which is 102 stories high. In a normal gale it will sway 13 feet, and during a thunderstorm it is struck a hundred odd times by lightning. He walked up the stairway in the Statue of Liberty, where the steps are about a foot wide and there is a regulation that persons walking should be in single file. This well-known monument extends her torch 305 feet into the air.

Also to be seen, was the Hall of Fame, which overlooks Harlem. Every five years a committee chooses names of five illustrious Americans who have been dead ten or more years. The names are then inscribed on memorial tablets in the walls of the Colonnade.

Young Harvey admitted having been to Chicago but the only thing there that interested him was the Lake where he spent most of his time. In Philadelphia, the third city in population in the United States, he viewed the historical Independence Hall or old State House, in which was held the Continental Congress of 1776. Situated there is the United States mint and custom-house. In this city, founded by William Penn, the Federal Union had its capitol from 17[illegible] to 1800.

He saw the ancient Liberty Bell and the home of one of the signers of the Declaration of Independence. There were monuments, dedicated to famous men of the Colonial period. His trip through Philadelphia was an all sight-seeing trip and "everything else was a blur."

Before moving to Columbus less than a year ago, he had lived in Indianapolis. This city, of which he is very proud, has a population of nearly 400,000. Many national conventions are held there, because of its central location, and its regular planned city proper.

As many other young men are doing these days, Bob will probably be in the service shortly whereby he will see much more of the world.

Green, Thatcher In Lead In Record's Straw Vote Poll

That it will be a close race between Hilltoppers Mayor Floyd Green and Newton Thatcher for the Hilltop vote in the coming mayoralty primaries is indicated in results of the Hilltop Record straw vote as tabulated this week.

Leading the race by a slight margin is Mayor Green followed by Thatcher.

In a cross sectional poll which was taken over the entire Hilltop and nearly every street represented, a total of 870 homes were contacted with the results as follows:

Green, 210; Thatcher, 200; Hayden Edwards, 140; Arthur Lamneck, 130; James Rhodes, 110; Jacob Sandusky, 40. A few scattered votes were given Herbert Dailey and Robert Beatty.

Results of the poll as tabulated above would indicate that the race will center about the vote getting ability of Green, Thatcher, Edwards, Lamneck and Rhodes.

An at random straw vote was taken simultaneously downtown in business houses and banks and out of 300 votes cast the results are as follows: Lamneck, 51; Rhodes, 39; Sandusky, 31; Edwards, 30; Green 28; Thatcher, 20.

Again it must be pointed out that it was to be expected that Hilltop people will in all probability support their local candidates and this is verified in the results of the cross sectional poll given above.

How BIG Is a LITLE Headache?

Practically every one may experience a slight headache following over-indulgence or over-fatigue, but little headaches that recur frequently or that are persistent in duration are big enough to require the attention of a physician. He alone is qualified to diagnose the cause of the headache and prescribe the proper treatment. We are qualified to fill his prescriptions exactly as he has written them.

West High Round-Up

By Shalmie Springer

"Those Tell, Some Hear"—So Dryden began. As for me, I tell what I hear. The rest of the quotation is "SOME JUDGE OF NEWS," that's my editor. "AND SOME MAKE IT," that's You! HEARD—that when Red Smith arrived at Union Station, home from boot training, there were several persons there to greet him, including members of his family and Kathy Wisdom. Not noticing his family, he greeted Kathy very affectionately, and was Red's face red, as his father razzed him!

Doris Waddell, having spent her vacation below Chillicothe, must have decided she liked it there. Reports are that she won't be going to West this fall, instead, she's going to school down there. We'll miss you, Doris.

Mona Spangler, from Lancaster, will be new at West this year. She is a gay lass, and well-liked by the 11th grade gang, who all agree she is a "swell kid."

TOLD ABOUT . . . . Gladys Sehre and Bunny Watkins, have made up, but not the point of going steady again. Jim Cotner, now living in Dayton, was here visiting recently. Did he see Mollie Mills we wonder? Tom Webb, home on furlough had several dates with June Henery, if what I heard was authentic. Margie Barnes says, "Boys out east-high are mellow." Boys from Grove City are all right, too, acknowledges Pat Donahue.

Ruth Black had a long distance call come in at the rink for her, one night last week, but she was elsewhere having a date with Bob Oliver. We pity these boys who pay for "long-distance," only to find that the girl is out with another man.

Jim McClintock suggests that all West kids support the Westgate Cowboys, who are playing against St. Charles today. It is for the senior knothole championship. Come on out, and support your school chums. The game will be held in Red Bird Stadium.

Rose Strasburger had a party last eve. Her own special guest was Phil Worthen, whereas the other two "special" guests were Jim Allison and Connie Galle. Dick Cummings is an uncle now. Hope his niece won't get colic when Uncle Dick fixes her first "feedin" at Hamiltons'.

Betty Nichols, Bob Edwards, and Marilyn Sapp with Curt Chase were at Hilliards Fair. Don Davis has broken a life long habit of avoiding girls by taking Jean Ray to the fair. Miriam Rader was standing near the weight-guessing man. She is probably checking to see if those extra pounds she gained by eating after summer school classes, show. Bucky Buchanan and Jack Moore were wandering from booth to booth—stag, too, I heard. Roy Rimes was on the Tilt-a-Whirl.

The Koons sisters seem to be in the news. Charlotte is going with Bob Jones. Ione Koons is looking for a man—specifications: tall, dark and handsome. And Barbara Koons, with Esther Ongaro, left for Chillicothe Wednesday morn.

And didn't Phyliss Ward have a date with Fred Skatzes one night last week? Beverly Nafzger and Alice Buzzard are now working at the Grand Theatre. Bob Byerly isn't a "stage-door johnnie," but instead is waiting for Helen McHenry to get off work, as an usherette at the Palace.

Fred Rucker posing as model in Seillers window. I'd like to see him in a formal. Asked — if 'Squirt' Perdew and Betty Arnold are still going together—or did they ever? Don Baker is still pursuing Pat Goodwin. Wonder if he will ever catch her?

THE FLEET'S OUT — again. Come back soon, fellows! You showed us all a swell time.

Amusements

Loew's Ohio

Loew's Ohio is currently showing as a single feature, "So Proudly We Hail," stirring tribute to the women who served as nurses on Bataan and Corregidor. Claudette Colbert, Veronica Lake and Paulette Goddard are featured, with newcomer Sonny Tufts as a tough Marine and George Reeves as Miss Colbert's sweetheart. A Pete Smith specialty and a color cartoon are added.

Loew's Broad

Loew's Broad this week is showing "Hitler's Madman," powerful story of the assassination of Reinhard Heydrich and the total destruction of the immortal Bohemian village of Lidice. John Carradine is cast as Heydrich and sweethearts are played by Alan Curtis and Patricia Morison. Added feature is "The Kansan" with Richard Dix and Jane Wyatt.

— Letters — To the Editor

Editor:

Mr. and Mrs. Ralph Hart, 700 Racine-av, writes that their son, Cadet Sam Hart, in his letters back home, states, "I really enjoy reading the Hilltop Record. It makes me feel like I am home again. I don't imagine that very many of the boys in my class are left there, but I recognized a few of the names in it. I also found out where a few of them were stationed, that I had been wondering about, a few of them right here in St. Louis."

ACHIEVEMENT

Satisfaction comes not in having gained one's desires or accomplished one's purposes, but in the act of getting it.

You are today just where your thoughts have brought yous you will be tomorrow where your thoughts take you.

RENEWED VIGOR

Once in a summer garden,
Upon a startled hour,
He saw love's frail bud harden
Before it came to flower.

But with the season's turning,
Where loneliness had lain,
He saw the blossom burning
And felt its searing pain.

Strange, from a burning pyre
A perfect bud could blow
Across pain's darkest hour
To blossom in the snow.

—Faye Chilcote Walker in American Weave.

It is a great gift to be able to sit still and meditate when all around is noise, bustle and confusion.

Sundown has been occuring about 8:20 p. m. and is approaching one minute earlier each evening. When sunset arrives a day's flying time ends. Frequently at this time, a parade of planes may be seen circling the field and landing. After the pilots check their arrival with the clearance officer, their day with the airplanes is completed.

However, the ground crew, who claim they do most of their work after 8 p. m., start putting the field to sleep. Planes are pushed into hangars where some are placed with their noses to the ground and their tails balanced by a rope which hangs over a beam; others, to be used early the next morning, are parked close to the sliding doors. Gas and oil pumps are then checked for the amounts used during the day. The fuel hoses are wrapped on wheels, and the cases locked until sunrise when the fliers again come on the field.

With this the airport's night life is completed. The discussions which follow in the office are considered loafing. It is at this time that the newcomers to the field become acquainted with everyone and individuals cease to be names or "the man in the gray suit," and become personalities.

Charlie Reaver, 1804 Reaver-lane, is the airport's commercial flyer who takes civilian passengers for rides; although he takes the joyriders toward the clouds at any time during the week, Sunday is his busiest day. Charlie is the only one of five brothers who is at present flying at the Sullivant Avenue Airport, 3869 Sullivant-av, where they had all logged a number of hours.

However, the other four are still flying. Adam is a lieutenant in the Army Air Corps and is stationed at Cochran Field, Macon, Ga. Stanley, John and Billy are in Panama City, Fla., in the civilian submarine patrol, which like all other civilian air patrol divisions is an auxiliary to the Army Air Corps. John and Billy have not as yet received their commercial licenses. John, however, has just passed all examinations required for the position of aircraft and engine mechanic, and 18-year-old Billy has made an application for a commercial license such as his three other brothers hold.

Civilian Aeronautic Authorities at Port Columbus have lifted the restrictions on private flyers. Anyone may now fly without gaining government permission.

Consequently the Sullivant Avenue Airport is preparing to make an increased number of flight reservations for civilian flying students.

A few Hilltoppers who fly at the Sullivant field are Bill Chittum of the Chittum Garage and Forest Campbell who operates the Radio Hospital on Sullivant-av. Both men own Aeronica K planes which they keep in the field's hangars.

Another Hilltop man, Howard Fox, owner of Fox's Restaurant, has scheduled a flight to Athens this week. Guy M. Dowler of the Columbus police force, has also planned a cross country flight to Zanesville. Carl Kauffman, a new Hilltop resident who recently came from Lancaster, is still touring the state. Last week on one of his flights he went to Athens and Newark.

When the Urbana Airport was dedicated all of the CAP members in Ohio were invited. An even dozen represented the Sullivant Avenue Airport.

OUR SOLDIERS DEAD

Inadequate indeed are any words spoken
For those who suffered and bled,
And we can't display an adequate token
In honor of our soldiers dead.
They are abiding with their Father above
Gave up their life for a brother
Gave all they had so we can live and love
And dwell in peace with each other.

They answered the call the great and small
Loyal to the red, white and blue
And they have answered their last roll call
That a peaceful course we may persue.
The only way to honor the young bright and fair
Those who have gone before
We the common people must arise and declare
Nevermore shall there be war.

The WASPS are now in active duty in the Army Air Forces. The Womens Airforce Service Pilot, for which the term is an abbreviation, includes the Women's Auxiliary Flying Squadron (WAFS), the Woman's Auxiliary Flying Training Detachment (WFTD) and other flying services within the air forces.

Guy Hulet also stepped out of the fledgling rank when he soloed last week. He said that he had the same feeling of lonesomeness that one of the OSU Navy students reported having.

The Navy boy who had soloed at the Sullivant port before he was transferred to the new University field came back on a visit to his old flying grounds. While talking about his first solo flight, he said, "I was scared and that seat next to mine looked awful empty. So, I kept calling myself all kinds of names and telling myself how stupid I was, and every once in awhile, complimenting myself—just like my instructor always did. Then I didn't feel so lonesome."

Two Navy pilots from Port Columbus landed a SNJ4, the Navy version of a AT6, on the Sullivant Avenue Airport. They had been sent to request the use of the Sullivant field because Uncle Sam's boys need experience in landing on fields smaller than the one on Poth-rd. Since such permission was granted, the West Side will see more large planes overhead.

Another plane which will be seen in the Western section of the skies is the Waco which Eddie Arn, manager of the airport, obtained this week. (He also bought two small planes).

Reports are that the Waco will make frequent trips with passengers to Chicago and other cities. This plane will aid the business man who has been knocked out of his reservation by a priority permit at another airport.

Recently piloting a plane to Niagra Falls on a belated honeymoon, was Ed Smotkin. He was married several years ago but never seemed to get around to take time off for a honeymoon. He is connected with the American Homes Association.

In the opinion of some who claim the hangars and offices as their second home, the airport is rapidly becoming a girl's school. If such is the case, they feel that Flo Jones, whose husband owns the airport, should be choosen dean of women.

It has been noticed while flying, that fields of corn and other garden produce, give the ground around Sullivant Avenue Airport, the appearance of designs found in engineering and geometry books. Some fields look oblong, others square. A few have triangular lines and occasionally some are laid out in the shape of a cross.

Will You Be Too Late?

That Christmas package, to your son who may be in England, Iceland, India, Africa, China, Italy, the South Seas, Alaska or any of the far away places must be mailed by Oct. 15.

Please don't delay too long. There may seem to be plenty of time to purchase and mail that son's package, but—have you given a thought to the fact that the sailing time of the boat which would carry that present on its way, could be advanced by even just a day. If the package is not on board, that son, husband, sweetheart or brother will not receive your Christmas remembrance this year.

Will you be too late?

Closed for the Duration

Lack of help has eventually forced a shut-down of a well-known and long established restaurant here on the Hilltop.

Congenial Tom Davis, owner and operator of Davis Restaurant at 2339 W. Broad-st, has finally been compelled to place a "Closed for the Duration" sign on his door.

Well-known for home-cooked meals (and the atmosphere really made you feel it was home) the restaurant served numerous meals to all and sundry, Hilltoppers and transients. Meat loaf dinners and vegetable dinners at reasonable prices were Davis' specialty. Home-made pie such as grandmother used to bake, was another.

Many persons will be looking forward to the end of the "duration" not only for the return of sons and daughter but also that many former businesses can again open their doors and serve them.

Across the Desk . . .

Inscription on the pin given blood donors is "pro patria" which means "for our country."

This week has brought several anniversaries of war declarations. Four years ago, Sept. 1, the schilderkraut madman ruthlessly invaded Poland; while today celebrates England's declaration against Germany, also four years ago.

Gathered From Around About . . . Monday morning is always a chewing good time to Edith Sallee, Catherine Fleischer and Ethel Rinehart when Helen Lambert passes gum around quite freely (is there a black market somewhere nearby?) . . . Mrs. Gene Todd is this week vacationing in Michigan and reports it's very cool thereabouts . . . met an old friend Monday, Chuck Page, who has recently returned from Norfolk, Va., where he was employed as a welder to enlist in the Seabees. The irony of his enlistment is that he will be returned for boot training to Norfolk which he was only too glad to leave in the first place . . .

Hilltoppers seem to have taken over the maternity floor at White Cross last week and this with new mothers there being Mrs. Lew Rausch, Dorothy Hauntz Hague, Mary Lou DeVannish Schwartz, Mrs. Don Keeley, Mrs. Karol Whitlach, and the former Jeannette Reuschling . . . Mrs. Edith Gibbon and daughter Marcella left Wednesday for a week's vacation in Hattiesburg, Miss. (hope that mouse you found in a drawer Tuesday didn't rush you off Edith) . . . while Mrs. Lee Koontz returned home Tuesday from her sojourn to Atlanta, Ga. . . . what's this about Shirley Springer who drove her car to Norton Field and flew back across town in an airplane. What were you going to do Shirley, let the car come back by itself? . . . imagine Merchant Marine Bob Clark's delight in escorting sister Delores about Huntington, Long Island when she visited him there recently . . .

Tomato plants have a way of shooting up and up, so reports Bert Young of 5 Clarendon-av, who has one seven feet tall . . . Jack Shank expressed his appreciation of our front office lot being cleared of the hay as so do others, no doubt . . . the fairgrounds have a very capable night-guard in the person of Harriet Womeldorff . . . Dr. and Mrs. Henry Lose are enjoying their vacation this week . . . "Tink" Grubbs arrived home Tuesday on a 15-day furlough, he'll return about the 12th . . . First Lt. Bob Ferguson, now on manouvers, has his own plane, a P-39 which he has named "The Robin Royal" as his pilot-mates all call him "Robin."

Receives Ribbons For Services In Theatres of War

Sgt. Arthur Dale, recently transferred from Long Beach, Calif., to the Seventh Ferrying Group at Great Falls, Mont., has been awarded the wings of an aerial crew member and the campagin ribbons for services in the Asiatic-Pacific, the European-African, and the American theaters of operations.

He enlisted in the air force in November 1941, and received his basic training at Keesler Field, Miss., after which he was enrolled at the Rising Sun School of Aeronautics in Philadelphia. Upon graduation he was sent to Presque Isle, Maine, and later transferred to Combat Crew School in Smyrna, Tenn. From this school he was assigned to the Ferrying Division of the Air Transport Command in California as an aerial engineer and has since made foreign ferrying trips that have taken him across the Atlantic and Pacific and into numerous countries, including Australia and India.

Sgt. Dale graduated from West High School in January, 1937 and prior to his enlistment, was employed by the Saum Ignition Service. His wife, Agnes Joan Dale, is now residing in Philadelphia but expects to join her husband at his present base soon.

Hilltop Dance Instructor's Scrap Books Reveals Amazinng Careeer

By Jean Young

Keith Lovewell was on the stage for the first time at the tender age of six months but she didn't dance at this performance. She was coddled in the arms of "Madam Butterfly." Miss Lovewell played this part for several months until she got too heavy for the leading lady to hold any longer.

That was her stage debut and she was to get to know the theater much better in the ensuing years. Her father was a stage manager and her great uncle was B. F. Keith, owner of the Keith Theater chain which extends across the country.

Twelve months following her debut Miss Lovewell began her dancing career.

"I still can't remember what I did at this age but it must have been something, because mother kept pictures of it." With this remark she showed us a scrap book, browned with age and use, which her mother had kept since the first time "Baby" Keith appeared on the stage.

Her first solo appearance was made at the age of two but that too has been hazy to Miss Lovewell.

Among earlier appearances was a productionn of "Cinderella" at the Statler Hotel in Cleveland. "My teacher, Miss Flinn, had the props clear down to the horse pulling the coach," she remarked.

One of the costumes which she wore in a production that made the greatest impression on the dancing instructor is a black one with spangles on the legs that always fell off when she put the costume on. It also had feelers on the head piece which were connected to a battery hooked on the back of the dancing dress. As she danced the battery would cause the feelers to blink.

Her "long" dancing career was interrupted at the age of four during which period she modeled clothes for the Cleveland Plain Dealer.

After her experience as a model ended, Miss Lovewell returned to dancing. This time her dancing teacher had a movie made of "Snow White and the Seven Dwarfs" in which she portrayed a dwarf. The movie was made in Cleveland and the "fairy ground" gardens of wealthier residents in Cleveland Heights were used for scenes.

At 11 years, the dancer signed her first contract. It was for a week's engagement dancing in Luna Park at Cleveland. During one of the afternoons of her engagement, mothers were invited to bring their dancing daughters to the park for a contest. Miss Lovewell did several dance routines and the child who best copied her style was awarded $5 in gold. "I hated this but had to do it. Just imagine having all those kids copying your style. It is an art to be individual and they were doing their best to show me how easily I could be copied."

"I received the scare of my life when I was dancing in the Greek Festival at Providence, R. I., when I was very young," she laughed.

It seems there was a scene with the full cast on the stage and at the rear of the company was a statue of a Greek god standing bolt upright with a gleaming spear in her hand. After a few speeches were made the cast left the stage, except Miss Lovewell. She stood near the front and the statue stood staring from the rear. Suddenly, unbeknown

Arabs Know "Give Me" Spiel Better Than Best American Panhandlers

Sgt. Max McCarty, formerly of the Hilltop, sent the following letter to Lee Koontz, Record employee, this week, in which he speaks of some interesting experiences he has had since being stationed in North Africa.

"Home was never like this. Knocking about from country to country over here makes a fellow realize a few things he never knew before. For instance, when we say train at home we mean a modern coach or pullman but over here it means to me one of those 40 et 8 cars—40 horses or 8 men. Eight horses can stand in them fairly well but 40 men make a full house and I don't mean perhaps. Worse than a crowded subway in New York We rode five days and inghts in one of them. Averaged a little less than seven miles an hour and remarkable as it is, I came out alive. Speaks well for my endurance.

"The Arabs in this part of Africa know the 'give me' spiel better than our best pan handlers and they find the Americans gullible customers, too. Wherever the soldiers go prices start to soar and the "rich" Americans pay through the nose. For my money the whole blamed place is the wrong side of the tracks and whoever wants it can have it.

"It is all very interesting though to all of us, the old-fashioned customs and ways of doing things. I would like to go into more detail about it but as you know the hawk-eyed censor is ever on the job. Besides I know you have received descriptions of Africa from time to time such as the interesting letters of Lt. Currier that were printed in The Record. I certainly do enjoy my copy of the paper out here."

Mail Overseas Xmas Parcels By Oct. 15

Emphasis is being made this "Christmas Parcel" clearly, n week by U. S. postal officials, on getting Christmas mail to service men overseas on its way between Sept. 15 and Oct. 15.

The following rules have been set which senders are to follow in making up their gift packages:

1. Parcel must not weigh over five pounds and must not be over 15 inches long or 36 inches in length and girth combined.

2. It should be marked "Christmas Parcel" clearly, in order that it can be given special attention to guarantee its delivery overseas by Dec. 25.

3. Each package should be well and strongly packed in a container of wood, metal, strong fiber board or similar material, then wrapped in strong paper.

4. Cover should be such that it can be opened readily for censorship.

5. Contents should be packed tightly.

Among items which cannot be sent overseas are perishable foods, such as fruits; intoxicants; inflammable materials, such as matches or lighter fluids; poisons nor anything that can damage the mails. To avert breakage, gifts of glass should be thoroughly packed. Sharp instruments like razors and knives should have edges and points covered to prevent their cutting through wrappings and therefore injure postal personnel or damage other parcels.

Complete and clear addresses are required. They should include return address of the sender, and in the case of an army man must bear his name, rank, army serial number, branch of service, organization, army post office number and name of post office through which the package is routed.

A package to a navy man should include the name and rank of the man, the naval unit to which he is assigned, and the navy number of the unit, or the name of his ship and the fleet post office through which the package will be sent.

Working Students Urged To Return To School Sept. 7

G. E. Roudebush, superintendent of the Columbus Public Schools, urges students now at work to return to school. The summer working season for those students is ending. A new school season begins Sept. 7.

"Young women and young men must play the most effective part they can in this war. For the many students at work this summer there can be no question that the best place now is in school. America needs trained leaders now and later. Schools help to build leaders and to train technicians. Armed Forces need boys who have had courses in mathematics and sciences. A boy will make a better soldier if he goes to school now, he will make a better worker if he gets his training now.

"Adults, too, have an interest in this matter. Fighting in this war is for our children. However much we would like to have their help, their health and their future must come first. These can be protected best if boys and girls keep on with their schooling.

"Active cooperation of all community groups—labor and employer groups, schools, placement agencies, chambers of commerce, church groups, service clubs, is enlisted to encourage maximum attendance of children at school this fall.

"Schools will cooperate by arranging special schedules for pupils who must work, if such schedules do not handicap the pupil's school work and has the approval of his parents."

BOOKS

I've told you where to travel
In case you want to roam,
And many things to write about
While resting in your home.
Now I'd wake your burdens lighter
If books you are in quest
My opinion I'll give you freely
Of the very best.

The books that I would recommend
If you want peace and rest
Are the beautiful lines of poetry
Written by Edgar Guest.
The worst I think that's written
By authors great and small
Are those crazy books of spelling
No logic or sense at all.

Hayden Edwards Pledges 6-Point Police Program

Hayden Edwards, real estate executive, makes the following statement regarding his candidacy for the office of Mayor:

"In discussing the city police department recently at a neighborhood meeting I said 'the trouble was in the highly regimented system of bureaucrate operation and not with the policemen themselves.'

"As Mayor I pledge the following six point program for the police department:

1. "Remove every vestige of politics from the police department.

2. "Policemen will again become 'minions of the law free to maintain order without fear, favor, or political interference.

3. "There will be set up five or six police districts (probably one central district and four or five outlying districts).

4. "Maintenance of law and order in each district will be charged to the policemen permanently detailed to them so that the prevention of law violations will be given equal emphasis with apprehension of violators. Further a great many misdemeanors can probably be settled out in the districts.

5. "Dignity and authority of policemen, if properly exercised, will be unqualifiedly backed up and no officer will be asked to countenance any take or pay-off whatsoever anywhere.

6. "Motorized district set-up with modern equipment will get the policemen much closer to crime prevention as well as apprehension and will be a potential as well as actual deterrent to law violation throughout the city. The district will abolish useless bureaucratic regimentation which wastes the time of useful officers."

LOVEWELL

(Continued from Page 1)

to her, a man came from the wings and snatched little Keith from her feet and carried her in his arms to the statue as an offering. This wasn't done however without great difficulty for she was so startled that she kicked and screamed during the entire speech the man was trying so desperately to make.

Another play in which she had an important role was "Incumberance." She played the part of a child in this production. Most vivid recollection of this show is the swat she received from her "father."

"I only remember that there was a large round table in the set and I was madly riding a tricycle around it, making a lot of noise, when my "father" gave me a good swat with the paper."

Again her dancing and dramatic career was interrupted when she studied the harp. This was short-lived but she did play for a while with a harp orchestra that performed for churches and clubs.

Back again to her dancing and dramatics, Miss Lovewell was a page to the famous opera singer, Lotte Lehman in "Der Rosenkavatier."

"I had the honor of opening and closing the show. It opened when I emerged from that door (she pointed to a huge double door in the picture she was showus) and in the end I found the evidence of the story, a white handkerchief which was left on the stage. I had to pick up the article and leave by the other door with it," she recalled. "Der Rosenkavatier" means the "rose bearer," she explained, 'and in the middle of the opera when Miss Lehman hit a high note, I opened a case and she lifted the rose from it."

Among he many accomplishments is the time in 1936 when she directed the ballet for "La Traviata." The opera was staged in Cleveland.

"I danced at a Ku Klux Klan wedding," Miss Lovewell bluntly stated in the middle of the interview. There was an elderly couple in the Klan who had been married many years before, without the marriage symbol. After joining the organization they decided to be remarried, using the ring. "When I went into the small hall where the wedding was to be held, I was introduced to everyone present by just their first names."

In 1928 Miss Lovewell started teaching her art and has been at it ever since.

A pupil she had in 'Marietta has landed in Hollywood and has danced in three pictures. His name is Jerry Rush and the pictures he appeared in are "A Yank at Eaton," "The Howards of Virginia," and "Rosie O'Grady." The latter has not as yet been released for showing.

We never knew until after talking to Miss Lovewell that dance instructors get their creative ideas from such things as funny papers and blotters, but she convinced us it is so.

"When looking over the funnies I'll see a character in an odd pose and it starts me thinking of a dance rountine that could be worked from that position."

She also showed us a blotter with the three well known monkeys, See No Evil, Hear No Evil and Speak No Evil, perched on it. "Now that's a good beginning. I just need to select the music that would fit such an act and it would be complete," she smiled.

Miss Lovewell said she is much too busy these days for hobbies but she takes great pride in her huge black Great Dane which follows her nearly every place. They are constant companions.

Miss Lovewell conducts the Keith School of Dancing, 3505 W. Broad-st, and is busy having her place remodeled and readied for fall classes which begin next month.

U. S. S. P. C. 557

Dear Sir:

I would like to have the Hilltop Record sent to me. My mother sent me one the other day and I enjoyed it very much.

I lived on the Hilltop for six years, so the Record would be very welcome.

I have found quite a few things which surprised me. For instance—Floyd Green is still with the Hilltop Minstrels, H. H. Reighly is still principal of West High School.

My name is Keonard S. McConigal, and I used to live on Westgate-av. My present address is U. S. S. P. C. 557, c/o Postmaster, New York City, New York. My brother, A. Robert McConigal, whose marriage was announced in your paper, is still happily married and is now out to sea. If you remember he sang "Ten Pretty Girls" in the Hilltop Minstrels about 5 or 6 years ago.

I enclose the $2 subscription fee for the remainder, and if possible the back issues of this year's Records.

Thanking you in advance, I remain,

Sincerely yours,
Keonard S. McConigal.

Dailey Supports A. P. Lamneck In Mayoralty Race

W. Herbert Dailey, president of city council, who withdrew from the mayoralty race a few weeks ago, today declared his intentions of actively supporting Arthur P. Lamneck for Mayor.

In a formal statement, Mr. Dailey said:

"At the time I withdrew my name as a candidate for Mayor, I said that I would support the man who in my judgment would make the best mayor for the people of Columbus. Arthur P. Lamneck is that man.

"I am convinced that the best interests of the city as a whole cannot be served until Columbus has a new mayor.

"Mr. Lamneck, in my opinion, is honest, sincere and dependable. In his long public career, I have never known him to make any rash statements or promises unless he was reasonably sure of fulfilling them. I conscientiously believe that he is the only candidate for Mayor who is qualified to put Columbus on a business-like basis. His long and successful experience in private business, as well as his sixteen years of diversified public service, in my judgment, makes him the ideal man for the job of leading Columbus out of the financial wilderness it is in today."

THEY ARE ON THEIR WAY

Soon windows will be boarded again
In every vacant store in town
Soldiers'll sing this glad refrain
"We stuck 'till the Japs went down."
Signs'll appear, we solicit your trade
Come in and see our store
We can fix your roof and not be afraid
We've been in the air before.

Competition'll stalk the streets again
By strong men
Who are not afraid of the heat or rain
They have seen the open grave.
The good old times we can vision again
The song in the passing throng
When soldiers board the home bound train
At Tokyo and Hong Kong.

SCRAP BRIDGES

Four steel Central Vermont Railway bridges, torn from their foundation and hurtled into the water during the great Vermont flood of 1927 and the New England hurricane of 1938, and which were replaced by new structures, have been contributed to the national scrap salvage pile. Their estimated weight is 600 tons.

Mixed with salt, vinegar will clean discolored copper, brass and silver, and remove ink stains from the fingers. Diluted with water, it will clean gilt picture frames.

Greased Lightning

This Navy gunpointer operating the anti-aircraft guns of a speedy MTB boat is backed up by kitchen grease salvaged drop by drop by patriotic American housewives. A pound of waste fat (31 tablespoonfuls) turned in to a meat dealer today will be processed into glycerine urgently needed for gunpowder and medicines within three weeks.

Four Fryer Boys Serve Uncle Sam

Apparently the four Fryer boys, sons of Earl A. Fryer, 418 Townsend-av, believe in taking care of the job at hand. Pvt. Raymond A. Fryer and Pfc. Richard L. Fryer are in the Army while Edward (Hank) Fryer and Harold J. Fryer are Navy supporters.

Pvt. Raymond A. Fryer, a Hilltop resident for five years and an employee of the White Rose Laundry, entered the service in February, 1942. He was first sent to Camp Blanding, Fla., later transferred to North Carolina for field man. Subsequently he was sent to Camp Edward, Mass., and later to North Africa.

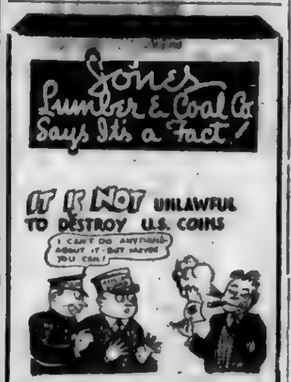
In June, 1942, Edward (Hank) Fryer graduated from West High School and immediately enlistsed in the Navy V-5 program. He received his elementary flight training at Miami University, Oxford, O. His actual flying experience came when he was transferred to Middletown, O., and his primary training was gained at Ottumwa, Iowa. At the present time he is stationed in pre-flight school at Iowa City, Ia., where he has just completed the third stage of the four stages of training.

Harold J. Fryer's interest in aeronautics prior to '39, the year he soloed and brought his own airplane, was a boon to both him and his government when the Navy needed flight instructors. Shortly after receiving his commercial license in the spring of 1942, he was sent to the Lima, O., as an enlistee in the Navy Reserves. He attended school there and received his instructor's rating. September, 1942, he came to the Sullivant Avenue Airport to teach the Ohio State University Navy Air Corp students. Recently he was transferred to the new University Airport where he continues to teach the Navy.

Enlisting in the signal corps in November, 1942, Pfc. Richard L. Fryer, was placed at Vint Hill Farm Station, Warraton, Va. He is on military police duty which assignment he and five other boys were given when their camp buddies were sent overseas. Entertaining groups in Columbus know him well for his outstanding antics with the bass fiddle which he played in his Hill Billy Band.

Lima Bean and Egg Casserole

1¼ C. dried lima beans
½ small onion
Salt and pepper
1½ Tbsp. butter
3 Tbsp. flour
1¼ C. milk
1 C. grated American cheese
3 or 3 hard cooked eggs
Buttered soft bread crumbs



Soak beans overnight in water. Add sliced onion, cover and cook over low heat until tender. Use just enough water so that there will be very little liquid remaining when beans are tender. Do not drain. Add 1¼ tsp. of salt and a few grains of pepper near the end of cooking time. Melt butter in a double boiler, add flour and mix well. Add milk gradually and cook, stirring constantly until thickened. Add ½ C. of cheese, stir until melted and season with salt and pepper. Add beans and sliced eggs and pour into a buttered baking dish. Cover with crumbs mixed with remaining ½ C. of cheese. Bake in a moderate oven, 350 degrees, for about 25 minutes or until cheese is melted and mixture is hot. Serves six.

Another Tale From Tennessee

A hunter was arrested in Tennessee
And securly chained to a log,
A man wanted to hang him to a tree
Coz he was bit by his dog.
They had a trial in mountain style
Each man his own attorney
And they had walked for many a mile
But didn't complain of the journey.

In the first place, my dog hasn't any teeth
The defendant in tears testified,
Not one tooth above nor underneath
And a woman on the jury cried.
My dog wouldn't bite any leg nor hand
I've seen him play, a smile upon his face
In the second place, as you all understand
I never had a dog in the first place.

37th Division Needs Cameras, Equipment

A plea was received this week from Maj. Gen. Robert S. Beightler, commanding officer of Ohio's 37th Division by Governor John W. Bricker, in which he asks for much needed photographic equipment. The fact that equipment used to date has been "worn out and battered to pieces by hard usage" in the present campaign in which the Ohio Division is participating, gives cause for the request. Camera equipment in class 1 includes:

Sandusky For Adoption of Finance Director

Sheriff Jacob E. Sandusky, Democratic candidate for Mayor is conducting his campaign for nomination in the same energetic and colorful manner that he has employed in his previous political campaigns and in the conduct of his business before he ran for public office. He has a pleasing personality, and likes to mix with people, and he has the knack of making friends easily. His manner is informal and his handshake and smile are genuine.

Sheriff Sandusky, or "Jake" as he is known to his thousands of friends and acquaintances, was born in Gahanna, Nov. 8, 1895. His father, William Sandusky, operated a blacksmith shop in Gahanna and for 20 years served as constable of Mifflin township.

Around 1916 Sheriff Sandusky entered the automobile business and for the next 20 years pursued that line of work.

He is strongly in favor of establishing a position of finance director to the city government, believing that such an officer would be able to effect many economies in the management of city affairs and keep the chief executive closely in touch with the expenditures and available revenue.

"Columbus has a large budget and a great amount of discussion concerning city finances which we have heard in recent years and the utter confusion as to the real financial condition of the city indicates the need for a finance director. If nominated and elected I shall advocate the adoption of the necessary changes in our city laws to provide for such an office."

First elected Sheriff of Franklin county in 1936 by a majority of 15,000 votes, his business-like methods and friendly manner increased the number of his voters so that in 1940 he was elected by a majority of 30,000 votes. He has held the office of sheriff for nearly 7 years.

He is a member of University Lodge, F. & A. M., Moose, Eagles, Elks and Central Lodge of I. O. O. F., Columbus Athletic Club, Linden Kiwanis Club, Co-Operative Club, Agonis Club, Linden Business Men's Association, Variety Club, Columbus Gun Club, Columbus Beagle Club, Franklin County Coon Hunter's Association, Fraternal Order of Police, the National Sheriff's Association and the Buckeye Sheriff's Association.

Landlubber Pvt. Metzger, Initiated From 'Pollywog' to 'Shellback'

By Jean Young

Watch straps have been made from everything from gold to platinum and diamonds but Mrs. Marie Graver, 629 Woodbury-av, received a very exclusive model recently from her son, Pvt. Jack Metzger, who is serving in the South Pacific war theater.

The strap is made from parts of a downed Jap plane. Materials in the article are aluminum, copper colored wire, black, orange and red wire and braided wire. "I don't know whether to use it or not," Mrs. Graver mused.

It was on display last week in Lazarus' War Trophy window.

On the voyage over Pvt. Metzger wrote his mother that he went through the ritual of King Neptune's court, which is a type of initation for "landjubbers" posing as seamen. Before reaching the equator the soldiers were called "Pollywogs" and served as slaves to the graduated "Shellbacks." At sundown of the ceremony Davy Jones, usually a chief petty officer garbed in pirate costume with red bandana and cutlass, came into the group accompanied by pages and bearing individual summonses for each of the Pollywogs to appear before King Neptune, ruler of the seas.

When the ship passed over the equator the Pollywogs were victims of more insults from the Court Jester and Royal Princess.

This ending the ceremonies the Pollywogs were genuine Shellbacks and to prove their claims they were each given certificates.

Pvt. Metzger is now serving with the 43rd Division which the news releases reported was with parts of the 37th at Munda. "We felt sure before the article appeared in the paper that Jack was at Munda, though," Mrs. Graver said.

One evening she and her husband were reading a column in a daily paper and in the article was mentioned a captain from Connecticut whom they knew to be in the 43rd Division. To satisfy themselves they got out the 43rd's year book published while it was stationed at Camp Shelby, Miss., and found the young captain's picture.

"Then too I can always read between the lines of Jack's letters."

The following is an extraction from a letter written July 26:

"I have been trying to think up a good excuse for not writing but thought if I told the truth I would be better off. So here you are—I have been up to the front and we are now taking a rest. I am all right and am feeling just fine. Of course I am a little bit jumpy but that is to be expected.

"This was one Fourth of July I will never forget. I can't tell you about it now for I haven't the time."

Pvt. Metzger made his own Mother's Day card this year as did many of the boys now serving overseas. He used stationery for the base of the card and cut pictures off other cards that were sent to him. On the front is a little dog holding back a patched tent flap. Inside is a "rookie" peeling potatoes and beside the soldier and heap of potatoes is this verse printed by Pvt. Metzger:

"I am very, very busy
As you can see
But I thought you would appreciate
This card from me."

Pvt. Metzger was inducted into service in January 1941. He was first stationed at Camp Wolters, Tex. and later moved to Camp Shelby, Miss. From there he went to the west coast and sailed for foreign duty.

Wartime Meals With Rationed Foods

BY VIANNA D. BRAMBLETT,
Nutrition Consultant, Station WLW

The only way to be sure that we will have plenty of nutritious food next winter is for every homemaker to do all the home canning possible this summer. By now everyone has some idea as to how short commercially canned fruits and vegetables will be next winter.

It is the height of the canning season now. There are apples, apricots, peaches and plums; tomatoes, green beans, limas, corn and beets. Every bit of food is precious, and it is well worth while to put up even three or four jars at a time. However, successful canning can be accomplished only when good equipment is used and correct canning methods and technique are followed, so as to reduce spoilage to a minimum, and to preserve as much as possible of the original color, texture and nutritive value of the original food.

Mrs. Brambletty

Any home canned foods are point free and leave precious ration coupons for other foods that cannot be put up in the home kitchen. Whether you are an old hand or a new one at canning, best results are obtained when only small quantities are canned at a time, and when foods are at their freshest and best. Two hours from garden to can is the best rule of all, using tender, immature vegetables, and firm, fully-ripe fruit.

Tomato juice is one item that should be included on every homemaker's canning list. Prepare only a few tomatoes at a time as there is danger of flat sour spoilage. Wash, trim, quarter, crush lightly and simmer tomatoes until soft. Force through a fine sieve, then reheat juice to simmering. Pour into hot sterilized jars immediately, leaving one-quarter inch head space. Add no seasoning, unless salt. (Add other seasonings, if desired, when juice is opened for use.) Process for 30 minutes in a hot water bath at a simmering temperature (185-190°F.). By this method called pasteurization, the tomato flavor is better than if the juice is boiled.

JIM WISHES HE HAD PURCHASED INSURANCE BEFORE THE ACCIDENT

Jim had an accident causing bodily injury to a pedestrian, and damage to another motorist's automobile. He was unable to satisfy a judgment rendered by the court . . . and had no automobile insurance covering his liability. The Registrar of Motor Vehicles is required, by Ohio's new, revised financial responsibility law, to
. . . REVOKE JIM'S LICENSE FOR FIVE YEARS!

AFTER SEPTEMBER 20, THIS COULD HAPPEN TO YOU! The easy, low-cost way to protect your right to drive is to buy automobile liability insurance BEFORE an accident occurs.

Fillin' In

By Eileen Griggs

Our Apologies

The following note appeared in the mail this a. m., appropriately folded to represent an infant's necessary item, in which he stated, "Am I 'regusted.' The only time I ever expect to make the newspaper gossip column and you leave my name out. Now, how on earth are all my friends, who have been looking for my arrival, going to know that I've 'arrived,' if The Record continues to omit my name each week. I made my debut in the maternity ward at White Cross Hospital on Aug. 18. Won't you please let people know that I'm receiving visitors at the home of my parents, Mr. and Mrs. Russell S. Anderson, 3014 Olive-st?"

Sincerely,
Steven August Anderson.

Our apologies, Steven, and you can peacefully go back to your little pink thumb as the public has now been informed that you have "arrived."

Lack Of Civilian Aid Necessitates Recuperating Soldiers To Help

Due to the lack of civilian aid and the increased demands by the Army and Navy for surgical dressings, soldiers recovering from illness have been folding pads and dressings during their recuperation period.

Because their sons have been among those to do such tasks, several Hilltop mothers have volunteered their efforts to aid this unit in doing its share towards the Franklin County quota of 100,000 dressings per month for the remainder of the year.

Last August 26 marked the first anniversary since the unit opened here on the Hilltop. During that length of time 284,981 flat dressings have been folded. 4,734 stitched dressings been completed and more than 5000 cotton pads, whereas the total number of dressings produced by all the Franklin County Red Cross Surgical dressing units, of which there are 15, produce 75,000 dressings monthly.

Marking their one year of service Mrs. Wisker presented red service stripes to five supervisors and 16 inspectors last August 26. Supervisors receiving service bars and hours of service were: Mrs. Dorothy Saunders, 400; Mrs. Dorothy Smith, 327; Mrs. R. H. Lorimer, 293; Mrs. John Herron, 265; and Mrs. Wm. Guitner, 322.

Runners-up in the number of hours given to the unit are these 16 inspectors: Mesdames Harold Horch, Jack Mitchell, Margaret Fawley, Edgar Planck, Clayton Bull, A. B. Stables, Cleo Boord, D. G. Leer, Mac Klimek, W. J. Abernethey, H. H. Frey, Wilson Hall, Harry Judy, Laurence Bush, Ben Barnhart, and W. J. Wentz.

Thirty-seven workers have given almost 400 or more hours. Mrs. J. C. Lincoln, 1455 Sullivant-av, with an accumulation of 443 hours, and Mrs. H. A. Lear, 368 hours, are the two with the greatest number.

Dionne Allemang, 79 N. Hague-av, received a pin for her eighty hours of service during the summer. She is 10 years old and enrolled in the 6B at West Broad-st. School.

Another appeal is being made to mothers to attend more regularly since their children have returned to school from the summer vacation. Unit is open Tuesday, Wednesday, and Thursday from 9:30 a. m. to 3:30 p. m. and Wednesday evening, 6:30 p. m. to 9:30 p. m. Each worker is required to wear a clean cotton dress, and no rings nor nail polish.

Second day of the new semester at West High School showed a marked decrease in attendance over last year's figure for that date. This year there are 1060 enrolled while last year there were 1204. Much of this decrease is accredited to the fact that many of the senior high school students are remaining on war jobs.

Figures showed an attendance of 1106 for West Junior High School this year, compared to last year's total of 1166.

One-B grades of the elementary schools showed a slight increase over last year with the enrollment of five and one-half year-old children.

"TAKE OVER FOR ME while I go after another Jap!"

One reason it is so urgent that more men and women go to work at Curtiss-Wright is that thousands of Curtiss-Columbus employes—3745 at the present moment, to be exact—are now on active duty with the armed forces. Filling their places, alone, is a giant task, while additional thousands of workers are needed to produce the Curtiss Helldiver dive bombers the Navy needs.

Yes, these Helldivers are designed to burn and blast their way along the paths that lead to Tokyo and Berlin. Enemy targets on land and sea will feel the destructive might of these dive bombers. Knowing that our forces are poised for offensive action on many battle fronts, ask yourself this question: "COULD ANYTHING BE MORE ESSENTIAL THAN BUILDING HELLDIVERS FOR THE NAVY?"

The best way to answer that question in the affirmative is not to delay, but to start at Curtiss-Wright today.

3745
Columbus Curtiss-Wright employees have joined the service—you're needed to fill their places.
NOW!

MEN AND WOMEN NEEDED TO BUILD HELLDIVERS

For many jobs, no experience whatsoever is needed. We teach you in a few short weeks at our Training Center, 309 South Fourth St. You are paid while learning and your pay starts the very first day you enter the training school.

At Curtiss-Wright you will find the cleanest, safest, most healthful working conditions imaginable. You will also enjoy good cafeterias, an extensive recreational program, personal counsel service, advice and assistance in health, housing, transportation and rationing.

YOU CAN APPLY AT:

THESE ARE AMERICAN SOLDIERS GOING INTO ACTION. You need not worry about their flinching or failing—no matter what tough going they may meet. You can count on them to do what we're asking of them—to pay, with their lives if need be, the price of victory. But victory cannot be bought by these men alone. We've got to pay our share of the cost too. This month, that share is *at least* $100 EXTRA—over and above all other buying—in U. S. War Bonds, for every man and woman in this country. Invest your share—*today!*

Keep Columbus Safe

RE-ELECT

GREEN
for
MAYOR

With Mayor Green's Aggressive Leadership

1. COLUMBUS IS SOUND FINANCIALLY

During three years and eight months of good government under the administration of Mayor Floyd F. Green an operating deficit of $750,000 existing when he became Mayor, January 1, 1940, has been paid. The city's bonded debt has been reduced $7,000,000. Waste and inefficiency have been eliminated through Honest and Intelligent business practices—and today the city is operating on a Pay-as-you-go basis.

2. COLUMBUS LEADS STATE AND NATION IN TRAFFIC SAFETY

A long range Traffic Safety Program was formed and placed in operation in 1940. This program was and still is, STEADY, SENSIBLE, FAIR and IMPARTIAL Traffic Law Enforcement. The success of this program is represented by: First Place Award, National Traffic Safety contest; First Place Award, Ohio State Traffic Safety contest, and Second Place Award, National Pedestrian Safety, in 1942.

3. COLUMBUS ENTERS NEW INDUSTRIAL ERA

Firmly believing that Industrial Progress and Expansion is the source of all good living, Mayor Green succeeded in bringing to Columbus the great Curtiss-Wright factory, thereby providing jobs for over 20,000 workers, with the annual payroll exceeding $50,000,000.

4. COLUMBUS HAS DEFINITE POST - WAR PLANS

A program estimated to cost approximately $20,000,000 of desirable and worthwhile public works projects which will provide employment for our workers immediately after the war is now ready.

"IT IS EASY TO CRITICIZE"—"IT IS DIFFICULT TO PERFORM"

In performance it is a recorded fact that no past City Administration has given the citizens of Columbus as much service, PER DOLLAR AVAILABLE FOR THE PURPOSE, as the Green Administration.

West High Round-Up

By Shalmir Springer

Back Again—and this first week of school has been fun! But I still feel that I didn't have much of a vacation, as do most of the other summer school students.

Bits — George Holbrook is home on a furlough. He visited Helen McHenry his first night in town, which was Monday . . . Chuck Watts has been at camp for the past seven weeks before school began. Jean Meservey, we hear, certainly welcomed him back . . . Billie Cale came down with the flu last Saturday. We hope by now she is feeling better . . . Esther Ongaro also had the flu, but now she has recovered . . . Word got around about those three boys who walked down N. Hague-av barefooted. To be more specific, their names were Bud Dean, Fred Hysell and Bob Harvey . . . Ted Scharenberg comes home each weekend, and Gloria Calentine thinks that's "awfully nice." . . . Charlene Lauer was in Cincinnati; Betty Williamson and Kathy Wisdom returned from Greenfield just before school started, after having spent almost a week there . . . Former West High graduate, Midshipman Carten Hart is home on a 30-day leave from Annapolis . . . Lucille Goldberg is new at West High this year. She is 11A and formerly attended South Hi . . . It was told to this reporter that Miss Jones won't be teaching at West this year, since her sister is ill . . . Carol Gamso, on a recent visit to see Bob Clark who is at Huntington, Long Island, N. Y. acquired a ring, third finger, left hand . . . Vi Forbes is awaiting the month of October and the arrival of that handsome lieutenant in the Marine Air Corps.

Reports — From the church conference at Damascus, which was held in August—Winona Harper got out of one date by saying she had a headache, then accepted one with that boy's best friend . . . Joanne Wester promised three boys a date for the same evening. One of those three went out with Joan Rowley that night, though . . . Virginia Harper gave her "steady" of three years standing the brush-off for a boy who has just graduated from college . . . Esther Garner dated one boy from Cleveland all week. When she left on Sunday afternoon the boy found solace in the company of Mary Ellen Mitchell that eve . . . Dick LeRoy went with a girl from Cleveland whose father is president of the Cleveland Bible College. There was an 11 o'clock curfew on all these activities, supposedly, but no one paid any attention to it.

Glenwood Leagus—members attended a house-party held down at Lancaster recently. The boys dropped ice down the girls backs—Betty Laird had more than her share. Another fiendish idea of theirs was to take the girls shoes and make them walk about the camp barefooted. Janelle Walker was dumped in a trough and water pumped on her. The boys placed a bucket of water where the girls, coming in late, would fall in. The girls who partook of all this punishment were, besides the above-mentioned, Alice Remington, and Jane Hawthorne. The boys who dealt out all the cruelty were Neil Mowrey, Noble Allen, Paul Zeisler, Fred Rucker, Don and Ted Manson, Danny Denny, Roy Kimes and Jim McClintock. Those mischief-makers evidently have not grown out of the stage of taking jam, jelly and bread, it seems.

Loew's Ohio

Loew's Ohio this week is showing the endearing story of a young wife, "Claudia" with Dorothy McGuire re-creating the role she played on the stage. Robert Young is her husband and Ina Claire plays her mother. There's also a companion feature at the Ohio this week.

HAVE WE FOUGHT IN VAIN

Every woman is helping the nation
Who takes care of children small,
Rich or poor whatever their station
They are the greatest of all.
Young folks tomorrow will run the nation
Neglect them and we shall fall
We've fought in vain nothing will we gain
If we do not heed their call.

We're helping our soldiers and marines
Who are fighting over the foam
But here we need first class machines
To train the children at home.
Though we bomb Berlin and burn Tokyo
And all our enemies subdue
We've fought in vain nothing will we gain
If we don't help children too.
—C. S. Parks.

Urges Voters To Back Jim Rhodes

Henry A. Koontz, Republican Tenth Ward Committeeman made the following statement Tuesday night: "We must nominate a Republican in September who can win in November. James A. Rhodes is the only Republican candidate running for the office of mayor who can be elected in November. If we re-nominate the present mayor and a Democrat, thousands of sincere Republicans will stay away from the polls and we will not only lose the mayor's office but our entire council slate, in addition to jeopardizing the Republican chances in Franklin County for success in 1944. I cannot urge you too strongly to get the vote out and swing it behind James A. Rhodes for mayor."

Mr Koontz has been a committeeman for sixteen years and is owner of Koontz' drug store, Eureka and Sullivant-avs.

The Fay Shop
NOTICE

RECEIVER ASKED—Mary Fay Whipple, 107 Brighton Road filed suit in Common Pleas Court today asking that her partnership with William and Edna White Fay in operation of three branches of the Fay Shop be dissolved. She asked appointment of a receiver, sale of the business and distribution of the proceeds.—(From the Columbus Citizen of July 9, 1943.)

In reply to many inquiries in regard to the above newspaper article, we wish to announce that the suit by Mrs. Whipple has been withdrawn for the following consideration: Furniture and equipment of our shop at 2134 Arlington Ave., Upper Arlington, fifteen hundred dollars ($1500) in cash and a sublease of the premises at that address.

We regret that it was impractical for us to have presented our defense to this suit, and to have brought out the facts pertinent to it in court. It was impractical because Mrs. Whipple refused to waive her demand for receivership prior to trial of her suit. It is our opinion that receivership of our business would not have served the best interests of our customers, our associates or ourselves.

We consider that this settlement, though expensive to us, improves our business and places us and our associates in a better position for future business development and service to the community.

Our shops at 2392 West Broad St. and at 3339 North High St. will continue to operate as in the past and under the same management. Our shop in the village of Upper Arlington has been moved to the next block at 2070 Arlington Ave. and continues under the management of Mrs. Dorothy Skeele, who has been in charge of our Arlington shop during the past two years.

Mrs. Whipple will have no connection with our business in the future.

The Spectator
By C. C. Hartley

Playing A One Week Stand

This week finds me back at The Hilltop Record for a one week stand after having spent the past eight weeks in training with the Navy at the Recognition School at Ohio State University.

Comes apother Thursday and I'll be on my way to my next station some 1200 miles from these parts and it may be some time before I sit down at a typewriter in the Record office again to jot down a column.

It's good to be back for a few days but it's been good to know that in my absence things have been moving along in ship shape.

It has been lots of fun to read the Hilltop Record each week for the past eight weeks and especially so in view of the fact that I had nothing to do with writing it or getting it together. You can bet I'll be looking forward to my weekly letter from home in all the weeks to come.

* * *

Navy food is quite good we find. But even so I can sometimes agree with the Navy poet who writ these lines:

All we eat is steaks and chicken,
Chocolate ice cream, well baked ham,
But give me the days of nice canned corned beef,
Cold "C" rations and thick sliced spam.

A Law With Teeth In It

Ohio has had a so called motor vehicle financial responsibility law for some time but it lacked teeth. If a man didn't have insurance and had little in personal property it was a hard job to collect damages from him.

Beginning Sept. 20, a new law goes into effect in Ohio that provides that any motorist who fails within 30 days to satisfy any final judgement rendered by a Court of Record in Ohio which is based upon personal injury, death or property damage caused by the motorists operation of an automobile will have his operator's or chauffeur's license revoked.

It appears that the sensible thing for all drivers to do is to insure.

Girls Need Gym Suits

Due to the war the supply of gym suits is not equal to the demand. Blue gym suits are unavailable at the down town stores and West High School girl students need such an item to conform to school board regulations.

A plea has been made by Miss Helen McCormick, physical education teacher at West Senior High School, that all persons who have gym suits or tennis shoes not in use, to send them to the West High School gym office.

Three From Hilltop Seek Primary Vote

Newton Thatcher

Floyd F. Green

Ray G. Hauntz

Comes next Tuesday Hilltoppers will participate in the city wide primary election which will feature the race between six candidates for the two nominations for mayor.

Pre-campaign appearances are that localities will cast a majority of their votes for Hilltoppers Floyd Green and Newton Thatcher in the race for mayor.

In the campaign for city council nominations Roy G. Hauntz, popular Hilltop grocer, and present member of council, is expected to lead the ticket in favor among Hilltoppers who visit the polls.

As the campaign draws to a close it can be summarized as being a mere small time side show in view of the little interest being shown in politics in the midst of the thick flying war news. A light vote is expected on Tuesday.

Floyd Green needs no introduction to the Hilltop. He was a former city councilman and for the past four years has served as mayor and states his present campaign is being run on the merits of his administration. While there has been much in the way of criticism of this administration, he points out that there have been no worthwhile suggestions for a better administration. Outstanding in his accomplishments, he claims, was the bringing to Columbus of the Curtiss-Wright plant and establishment of Columbus as the nation's safest city.

Mayor Green, his wife and daughter, Irene, live at 3046 Crescent-dr.

Newton Thatcher, 2966 Crescent-dr, former county auditor for several years, seeks the mayoralty nomination and is basing his campaign on the fact that he has had wide experience in public administration and finances and claims he would be a most valuable asset to the city at present in view of the ever increasing financial problems that continue to haunt the city.

Thatcher has made a wide study of city management. He also claims to be the only candidate having a college degree in business administration and the only one having legal training and being an accountant.

Councilman Ray Hauntz lives at 44 Binns-blvd, and has been active in civic affairs of the community and city for a great number of years. He is a past president of the Hilltop Business Men's Association, served several years as a member of the Columbus Board of Education and was a president of the board for three years.

Mr. Hauntz has been ill at his home recently but his condition is reported as being much improved.

Stove Applications Exceed Quota At Local War Price and Ration Board

Enough rationed stoves will be made available to care for all essential needs, residents of the Hilltop and West Side were assured today by Ted Webb, chairman of the local War Price and Rationing Board, who said that applications received since the start of general stove rationing Aug. 24 already exceed the local board's quota for the first period.

Rationing of most types of domestic heating and cooking stoves which burn coal, wood, gas or oil was made necessary, Mr. Webb pointed out, because nearly all large stove manufacturers have converted their factories to the manufacture of implements of war.

A quota of rationed stoves has been worked out and assigned to each local Board, Mr. Webb said. These quotas were arrived at by the Office of Price Administration after a study of census data, number of dwellings heated by stoves, number using cooking stoves, and past use of fuel, adjusted to take care of population shifts. This study was broken down by states and counties. Reserves also were set up at OPA district, regional and national levels to take care of emergency [illegible].

After the first quota period, Aug. 24 to Sept. 30, when reports on the number of eligible applicants are available from local boards, quotas will be adjusted on the basis of demonstrated need.

MARGARET MILLER BECOMES BRIDE OF TECHNICAL SERGEANT ECKARD

At a lovely ceremony performed last Friday evening at 8:30 o'clock at the Hilltop Lutheran Church, Miss Margaret Helen Miller, daughter of Mr. and Mrs. Howard G. Miller, 229 Binns-blvd, and Technical Sgt. John W. Eckard, Jr., son of Mr. and Mrs. John W. Eckard, 527 Hilltonia-av, were united in marriage. The service was read by the Rev. Carveth P. Mitchell before an altar decorated with ferns and white gladioli.

The bride wore a princess-styled gown which had a sweetheart neckline trimmed with tiny bows of seed pearls and a flowing train. Her fingertip veil of bridal illusion was held in place by a pearlized tiara of orange blossoms. She held a shower bouquet of white rosebuds and stephanotis centered by an orchid.

Maid of honor was a sister of the bride, Miss Mary Catherine Miller, who wore a maize taffeta and net gown and a pearlized Juliet cap to hold her matching shoulder veil in place. She had a single strand of pearls, a gift of the bride, which she wore at the sweetheart neckline of her gown. She carried a bouquet of delphinium and gladioli.

Identical gowns of old rose and aqua tafetta were the bridesmaids, Miss Norma Goodman and Miss Ruth Erwine. They had matching shoulder-length veils held in place by coronets of flowers to match their bouquets of gladioli and delphinium. Each wore a pearl brooch, gifts of the bride. Serving Sgt. Eckard as best man was Paul Wichterman and seating the wedding guests were Miss Dorothy Kappel, Mrs. Jack Smith, Mrs. Peter Gariner and Miss Ruth Carson.

Following the ceremony a reception for 60 guests was held at the home of the bride's parents.

The bride is a graduate of West High School and Office Training School and a member of Beta Sigma Phi Sorority. Sgt. Eckard is a graduate of West High School and Franklin University. The couple is now residing in Petersburg, Va., while the bridegroom is stationed at Camp Lee, Va.

Mrs. C. A. Wassmuth, Mr. and Mrs. Herman Planck, Mrs. Walter Burlingame and Mrs. Laura Morgan accompanied Miss Wassmuth south.

Can you afford to be without automobile driving privileges for five years?

YOUR RIGHT to operate any motor vehicle can be suspended for five years under the penalty provided by the amended Ohio Financial Responsibility Law for motorists which becomes effective on September 20, 1943. This penalty can be imposed for your failure to satisfy within thirty days any judgement for damages resulting from an automobile accident.

You can meet the requirements of this law (and at the same time protect yourself from financial loss as provided by the policy) by purchasing Automobile Bodily Injury and Property Damage Liability Insurance in sufficient amounts to comply. Your possession of such an insurance policy at the time of an accident will establish your financial responsibility.

You cannot afford to risk the loss of your right to drive any motor vehicle. Therefore, arrange at once for the proper insurance coverage.

We will act promptly to protect you, and the policy which we will write for you with our company will be written at low war-time money-saving rates. Call us today for full information.

West High Round-Up

By Shalmir Springer

West High football season started off with a bang, for at the practice game held last Friday between West Jefferson and us, we took the game by 12-0.

This week—I found out that Bud Dean owes Betty Cook and Sarah Russell a total of $1.20 . . . that Betsy Ann Sparks likes Jerry Beemer . . . that Jack Moore likes five girls, two of whom have the initials M. J. M. (Mary Jane Martin and Mollie Jane Mills) . . . that Jeanne Grady is somewhat dizzy over "Dizzy" . . . Margie Stimmel and Bob Howard have had another date—and most everyone thought thought that such an episode would never occur again . . . that Dorothy Dehl had a farewell party Monday night for Jack Higgins, who left for the Navy last Wednesday . . . that the girls in ninth period gym class on Wednesday's and Friday's get to wear snappy blue shorts and white blouses. We present seniors recall vividly those "bloomers" . . . that Joan Allen is going to South this year—Bob Parks, we presume, will be a frequent visitor down in the south end. . . . that Jim Ellison, Dan Morasko and Jim Murnane all left for the Navy a week ago Wednesday . . . that Joan Sullivan is going with a Marine—by name, Johnny Jester . . . Ginny Carles has a certain sailor chasing her. He is stationed at Port Columbus for nine months so that gives Ginny plenty of time to let him catch her . . .

• • •

Have you seen?—those girls that register in 211? This columnist has heard rumors to the effect they're sharp. Boys will verify this, too. . . . those new 10B's from Starling, not to mention those from our own West Jr. They make nice additions to West Sr. roll call. . . . Betty Dickendasher's clever skull necklace?

I was told—that Betty Noel received a card recently from San Antonio saying "Having marvelous time. Wish you were here, but will see you sometime Saturday. Jack." The The only thing is that Betty doesn't know a Jack—at least in San Antonio. But as one brilliant person remarked, "I wouldn't care—I'd stay home all day Saturday."

I saw—Bob Redding in the halls last Tuesday morning. He was home on a seven-day leave but returned to Philadelphia that evening.

Bob Bullick who has been in the hospital is now at home, 171 S. Richardson-av. We would like for all his pals to visit him.

A lot of the kids are going to the football game which is being held tonight at Springfield. If you want to go too, you can get a bus at the terminal at 4:10 or 5:20. It will take two hours to get there, so figure on that and possible delays if you take the 5:20 as everyone will want to be there for the kick-off! A bus will be starting back from Springfield at 11:10 and 1:20. Round trip ticket is under $2. SEE YOU AT SPRINGFIELD GAME, KIDS!

ENROLL AT MIAMI U.

Misses Anne McKee, Patty Read, and Nellie Brobeck left Sept. 12 for Oxford, O., where they are enrolled as freshmen at Miami University. They are graduates of West High School 1943.

HAYDEN EDWARDS
The Taxpayers' Choice
FOR MAYOR

MR. EWDARDS stands for efficiency, honesty and thrift in city government. He is the only candidate who fought against the vicious extra tax amendments proposed three times by our present spendthrift administration.

HE MAKES NO PROMISES EXCEPT THOSE HE MEANS TO KEEP—HE PLEDGES CITY EMPLOYEES A SQUARE DEAL—WILL SEE THAT THEY ARE NOT MADE THE FOOTBALL OF POLITICS—HE WILL STOP GRAFT AND WASTE OF OUR TAXES THROUGH BETTER CITY MANAGEMENT.

When elected he will reorganize city departments, eliminate unnecessary expenses, take care of important city services such as fire and police departments, garbage and refuse disposal, play grounds etc., FIRST, instead of last out of city revenues. He pledges NO NEW TAXES. Whether you own property or pay rent YOU ARE A TAX PAYER—and as such you should work and vote for the man who will see that your tax money is wisely spent.

Keep Columbus Safe

RE-ELECT

GREEN for MAYOR

With Mayor Green's Aggressive Leadership

1. COLUMBUS IS SOUND FINANCIALLY

During three years and eight months of good government under the administration of Mayor Floyd F. Green an operating deficit of $750,000 existing when he became Mayor, January 1, 1940, has been paid. The city's bonded debt has been reduced $7,000,000. Waste and inefficiency have been eliminated through Honest and Intelligent business practices—and today the city is operating on a Pay-as-you-go basis.

2. COLUMBUS LEADS STATE AND NATION IN TRAFFIC SAFETY

A long range Traffic Safety Program was formed and placed in operation in 1940. This program was and still is, STEADY, SENSIBLE, FAIR and IMPARTIAL Traffic Law Enforcement. The success of this program is represented by: First Place Award, National Traffic Safety contest; First Place Award, Ohio State Traffic Safety contest, and Second Place Award, National Pedestrian Safety, in 1942.

3. COLUMBUS ENTERS NEW INDUSTRIAL ERA

Firmly believing that Industrial Progress and Expansion is the source of all good living, Mayor Green succeeded in bringing to Columbus the great Curtiss-Wright factory, thereby providing jobs for over 20,000 workers, with the annual payroll exceeding $50,000,000.

4. COLUMBUS HAS DEFINITE POST-WAR PLANS

A program estimated to cost approximately $20,000,000 of desirable and worthwhile public works projects which will provide employment for our workers immediately after the war is now ready.

"IT IS EASY TO CRITICIZE"—"IT IS DIFFICULT TO PERFORM"

In performance it is a recorded fact that no past City Administration has given the citizens of Columbus as much service, PER DOLLAR AVAILABLE FOR THE PURPOSE, as the Green Administration.

—Political Adv.

Sponsored by Metropolitan for Green Committee, George Sinclair, Sec.

It'll cost you an extra $100 Bond

To look him in the eye!

He's An AMERICAN SOLDIER!

Some day, if God is with him, he'll come home.

And when he does, you'll get the biggest thrill of your life if you can look him squarely in the eye and say, "I couldn't help you fight—but I did everything in my power to help you win."

There's only one way you can say that . . . honestly say it. And that is to help him win now . . . when he needs all the help you can give him.

Today's particular job for you is to scrape together every dollar you can—and buy an extra $100 worth of War Bonds! That's your job in the 3rd War Loan!

It's not enough to buy your regular amount of Bonds. It has to be **more**. It has to be an extra buy—a little **more** pressure for the shoulder that's against the wheel.

REMEMBER THIS—you aren't giving your money. You're lending it to the government for a while. And you're making the best investment in the world.

LUCILLE WALL GETTING REPUTATION AS RADIO'S WELL-DRESSED WOMAN

Lucille Wall, auburn-haired leading lady of "Portia Faces Life," (WLW, Mondays through Fridays, 5:15 p. m., EWT), is rapidly acquiring the reputation of being one of radio's best dressed ladies.

Havana's Tropical Garden Brings Forth Almost Every Plant Known

Covering a distance of approximately 4000 miles while on their trip which began when they left the Hilltop, Feb. 3, 1940, for Miami, Fla., Mrs. Joseph Beh, her son, Edwin, 320 S. Powell-av, Miss Ruth Perry, 90 S. Terrace-av, and Erdine Perry of Casco, Wis., made reservations in advance for the Mitchell Tour which was to take them to Havana, Cuba.

While on their way to Havana, they journeyed through the Florida Keys, stopping at one point, at Key West. The Florida Keys are a group or chain of thousands of small islands stretching south from the southern coast of the Florida peninsula. Most of these islands are submurged by the high tides. Closer to the town Homestead, fisheries have been built on these small coral formations, but there are no homes. Out further, the Keys are uninhabited.

The group, with the other tourists, stopped off at Key Largo, the largest island of the Keys, to see the parrott farm, where various kinds of multiple colored birds are raised. Mrs. Beh recalls the network of cement bridges, spanning the distance from one island to the other. One bridge was 12 miles long, and from one end, the other could not be seen. Approaching Key West, the expanse of graceful cement constructions changed to lowly-swung wooden bridges which Mrs. Beh admitted as being "scarey."

At 4 in the afternoon the party of tourists, numbering 25, landed at Key West, the most important island of the Keys. Mrs. Beh described it as being an old-fashioned town, with a surplus of sailors, fisheries and packing houses. They watched the unloading of the boats for awhile and after giving the town a brief "once-over" returned to the hotel, awaiting the time when sail would be set for Havana, the next day.

They left at 9 in the morning, after all the tourists had checked all but one piece of luggage, and had their machines put in a garage. Traveling by boat, the passengers reached Havana at 6 in the evening. Being a passenger boat as well as a touring vessel, all the tourists had to wait for the passengers to be checked off before being allowed to alight.

The cluster of tourists was taken to the hotel, where they were assigned rooms. There was little time for unpacking just then, for the guide conducted a tour about 8. They visited two night clubs; one was within the city, and the other was located beyond the edge of the city limits.

The throng of interested persons went through the young working men's rooms. Boys can be made members of this club at time of birth upon the parent's application. They were afterwards taken to the Casino where they saw the different gambling devices. After that the assembly swarmed back to their hotel rooms, having a full, interesting day.

A verbal sketch given by Mrs. Beh showed the hotel as being quaint and characteristically Spanish. There were no windows in the rooms, as we understand windows. Instead there were door-length openings with wrought iron bars. Outside these openings were verandas stretched the length of the room. The difference between Spanish and American hotels was more marked by the latticed doors.

They had the same guide each time they went on a tour of the city or its surroundings. In the schedule for the next morning was an old Spanish cathedral. Majority of Havana is Catholic, therefore many similar cathedrals spread over the island of Cuba. This particular cathedral had a shrine in front, adorned with figurines of saints. Each tourists' picture is taken standing at the foot of the shrine.

Next to be seen was a mammoth cemetery. In this, the graves are unlike those in American burial grounds. The wealthy are buried as a family in a vault. Most accurate idea of its appearance will be to state its similarity to the Unknown Soldier's monumen at Washington, D. C. Lid of the vault may be lifted as additional burials are necessary. The poor are buried on the same grounds, but further to the rear. After a certain time, the bones are taken from the ground and then burned. This is to make place for others to be buried. Tourists were at one time allowed to view the burning of the pile of bones but such a practice had to be discontinued since the tourists attempted to retrieve bones as souvenirs.

While the guide was explaining all this, a funeral procession filed into the grounds. The guide went on the explain the burial ceremony—no woman is ever allowed to attend a funeral although she may bring flowers to the graves of those already buried. At such occasions she must be dressed in black. In the actual procession a hearse, covered with flowers, leads the way. Men, without hats, follow the pyre to the cemetery where the funeral is to be conducted. The guide then remarked that all the florists in the city were situated about the cemetery.

After the visit to the cemetery, the group was then taken on a tour of the residential sections of the city. Wealthier habitants have beautiful estates and their homes are of pastel stucco. Spreading verandas, colorful gardens and cool fountains complete this scene of beauty.

In contrast to such a fascinating wonderlands are the sordid surroundings in which the poor exist. They live in long houses similar to flats. These are unpainted and openings have been cut to let the air through to the musty interior. Children roam the streets, begging, as do older men and women.

Later, on their way to the Tropical Gardens, several things of interest were seen, such as the many farmers still employing oxen and wooden plows. Farm houses had grass roofs, carrying the sight-seers back to medieval days.

At the Tropical Gardens almost every growing plant can be seen. Pineapples, bananas, tropical fruits and trees, survive out in the open under the shining sun and equable climate. Also planted are lettuce and cabbages. Flowers bloom luxuriously and with blazing colors. Rapt with the beauty of the gardens, the tourists praised the gorgeous plants.

Havana cigar factories, noted for quality throughout the world, were not missed. The group watched the process of stripping tobacco and rolling the cigars. Natives use a "b" rather than a "v" in the name of their cigars and city, making it Habana.

They also visited a distillery and saw Cuban rum in the making, how it is kept and stored. The tourists then went to the "park." Here large picnics are held, but for these, reservations must be made in advance. This park is divided into different sections and separated by high hedges. Each reservation entitles one to a specific space large enough to accomodate quite a few people, and picnickers are not permitted to roam in any other part of the park.

After seeing all this, all the tourists were given a day to themselves to view whatever they wished. The party of four from the Hilltop went to the children's school, but after that returned to the hotel. They sat in their rooms, watching the natives pass. Their hotel was across from a government building, so as they rested from the rushing of the past several days, they noticed different customs of the Cubans.

On either side of the street were narrow sidewalks on which people would walk single file. To pass, one would have to step off the curb to let the other go on. One native would saunter down the street carrying an earthen jug filled with wine on his shoulder. All his customers would drink out of the same cup.

Looking back over the journey, Mrs. Beh could not realize they had crowded so much in within three days.

Colonial Fat Salvage

Kitchen grease was as important in Colonial days as it is now. The Continental Army needed fat for munitions in 1776 as our troops need it today. Housewives can take a tip in household thrift and patriotism from this picture taken in the kitchen of the Governor's mansion in Williamsburg, Virginia, where everything has been restored exactly as it was when our country was young.

Age limit to enter the WASPS has been lowered from 21 to 18 years and six months. The WASPS means Women Auxiliary Service Pilots.

Hilltopper Ed Miller has charge of the unique air cadet recruiting display in Lazarus' Front-st window. On display are two manikins, one in full-flying suit and the other in a Civilian Air Patrol officers' uniform.

Cross-country flights were recently made by Floyd Stauffer and Dona Eyler when each made trips to Terra Haute, Ind., and back; while Charles Vorhees flew to Portsmouth.

Jane Farrow and Wanda Nafzger, who are receiving flying lessons at the Sullivant-av Airport, made a weekly 18-mile trip via motorcycle.

Although it has been quite some time since Eddie Arn returned from Canada where he professed to have caught some large fish, proof of this was given this week when he removed said fish from their frozen storage and provided Sullivant-av Airport devotees a jubilant gathering at Buckeye Lake.

Not even a victim of air sickness was Shalmir Springer when she recently rode aloft with Ernie Miller who is practicing for his instructor's rating.

Bill Hughes made his first commercial haul, a load of fish, to University Airport.

CANNED FRUIT EXPLODES—INJURES MRS. GREGORY

When jars exploded as she was canning fruit in her home, Mrs. Anna Gregory, 37, of 52 S. Powell-av, was burned and cut late last Friday afternoon. She was given first aid treatment by an emergency squad.

Papa glared sternly at his little boy: "Another bite like that young man," he said, "and you'll leave the table!"
Sonny looked up. "Another bite like that," he agreed, "and I'll be finished."

Bob's Son: "Pa, what are ancestors?"
Bob: "Well, I am one of your ancestors and your grandfather is another."
Son: "Then why do people brag about them?"

THE HIGH WAY

He who travels the vagabond's way
Loses his heart from that very day;
Loses his heart to a winding lane,
A crescent moon or a field of grain.
The stars that silvered a snowy hill
Will never again let his thoughts be still;
They are off on a tryst with a sunset sky,
Or a long, white beach where the sea gulls fly.
Oh, he who follows will find a song,
But will lose his heart as he goes along,
And never find it the rest of his days,
For a vagabond's trail goes a thousand ways.

Cecile Bonham, in Poet Laureate

TO A LITTLE DUTCH BOY

You lean against a wall that shuts you out
From all that's gone before. The road ahead
Flows stormily, a foreign sea of doubt
And awe, of rising hope, of sinking dread.
Yet in your eyes I read the questioning calm
Of any boyhood lived where days are met
With courage for the turning world whose balm
Is for the bold and those whose stake is set.
I see adventure still in wooden shoes,
And trembling eagerness in folded hands
As you sit there alone, alert, no clues
To what a rapid changing world demands.
But, Little Boy, though wrecked the world you roam,
You'll make some beauty, and a haven of home.

NATURE POEM

What shall we do with sunsets
Or the light that trembles
On water, with regrets
That are not there.
How shall we now be still
For the simple moon
Rising behind the hill
For Newton's sake
And when shall we remember
That the night
Is not alive or tender
But only dark.

WHITE HERON AT DAWN

Against an almost purple sky
One quiet dawn, alone and free,
I saw a heron fly.
It seemed to be a moving cloud
That whitened where it passed a tree
With motion slow and proud.
Coming closer through the air,
With ruffled wings in arched design,
It stopped suspended there;
Then circling back with solemn grace
It faded to a single line,—
A feather lost in space.

Jane Sloan, in Florida Magazine of Verse

DEICIDE

Ourselves it was who slew the gods—in pride,
Ourselves who heaped the mound that they lie under;
Gone from the gracious hills the giant stride,
The feet like lightning and the voice like thunder.
And what we see between us and the sky
Is nothingness, is wide and vacant air:
The gaze falls down, the disappointed eye
Turns sick with lack of what had raised it there.
The heart, no less, whose way was to expand,
Enlarge, and open, and prepare high rooms
For such as came with shining—she will stand
At lower lintels where diminished dooms
Must stoop to enter, since the small, proud mind
That slew the gods endures but its own kind.

LOST YESTERDAYS

A long procession, tried in Satan's sieve,
Moves through the eerie light of pale moonbeams,—
Weird phantoms chanting songs with haunting themes,
Through lips grown cold, unwilling to forgive.
Their destiny leaves no alternative.
These wanton forms are long forgotten dreams,
Trailing entangled hair through darkened streams,
Breathing desirous songs that cannot live.
They have no smiles for me. My Yesterdays
Hold silent judgment in their loveless eyes;
In grief and merciless reproach, they gaze
Without one glimpse of hope that satisfies.
I turn from all their suffering portrays,
To meet the promises in beckoning skies.

Green Stated Past Record In Political Address

In a political address given over station WCOL, recently, Mayor Floyd F. Green stated:

"During this present time of national emergency with our interest completely occupied by news of events from the 27 battle stations of the world and our thoughts constantly with our fighting boys and girls, I hesitate to ask you to give your attention to the subject of politics here at home. Yet, under the system of government we are fighting to preserve, it is necessary to a reasonable degree. Your local government is very important to you and to the boy or girl in training camp or overseas. This war will be over someday and when these boys and girls return, their home and their city must be ready to receive them and they must find it still a fine, well-managed American City. You will forgive me, then, if I remind you that your local government merits enough of your time to carefully select your choice of public official who will guide its war time and post-war destinies.

"As a candidate for re-election, white it is a rather worn-out phrase, it is none the less true that whenever a public official seeks re-election, he does so on the basis of his accomplishments and finds himself running on his record. Plans for the future are weighed and measured in the light of past performances. It is my conviction that the true function of government is to protect the health, safety and general welfare of the citizens, and not to dominate their lives. There should be only such regulation of personal and business activities as are essential to protect those in less fortunate situations from the very few in more fortunate positions who resort to unscrupulous or unlawful practices. Most important official responsibility of the chief executive of any city is to select the right type of men to head the departments and divisions of government. No city in the United States can boast of finer men in their respective positions than, Roy B. Weed, as safety director and Grover F. Clements, as service director. Their administration of the affairs of their departments has been both intelligent and honorable. The same can be said for division heads.

"It is easy to criticise—it is difficult to perform. But as to performance I am convinced that no past administration has given the citizens of Columbus as much service per dollar, available for the purpose, as your present administration. It is true that some city services have been severely handicapped by the acute shortage of labor man-power, over which we have no control. This condition is not only local, but exists in every industrial city thru out the nation. Some of these services affect the health and sanitary conditions of our homes and I assure you they will be restored at the earliest possible moment.

"At the primary election Sept. 21 and the general election Nov. 2, I sincerely ask your support and I offer the record of progress and achievements as the basis of my request."

WE MUST FIGHT FOR RIGHT

'Tis silly to think we can have peace
Without occasionally a fight
We need everywhere the armed police
To guard what's proper and right.
We will always have with us the outlaw
No difference how pious we be
And we need policemen quick on the draw
If we want to live peacefully,
As the Deacon said to Saints in the Church
We must fight or be left in the lurch.

That method must be used by our Nation
Or crime is sure to increase
Heathens we must keep under observation
By an adequate armed police.
Our only safe course is fortification
Guard our possessions with a gun
And they must decide who run our Nation
Whether they wil lfight or run,
And if they run and leave open the door,
Soon we'll have another world war.

— Letters — To the Editor

Gentlemen:

Received the copy of The Hilltop Record last week. Surely seemed good to get the news from "the garden spot of the world."

Florida, I believe, means something like the "land of flowers," but it certainly can't come up to the Hilltop as I have seen it on my daily strolls totin' the mail.

Since I have completed the basic training here, I now expect to be assigned to another school to continue training on "Radar" equipment.

Respectfully,
Pvt. Stanley E. Green.

Give to the USO

To whom it may concern:

I'm just an ordinary sailor in Uncle Sam's Navy, but when I'm thousands of miles away from home, I need some fun in life. In order to do this, I must make a friend.

This friend is the USO.

Folks, here is the point—give to the USO when they ask for help. Who knows, maybe your son, sweetheart or husband may have occasion to receive some enjoyment from the things you may give.

Thanks a million for your time in reading this small plea.

I remain to all my friends,
Ralph "Ham" Hemmerly, H. A.,

'Fillin' In

By Eileen Griggs

Au Revoir

"Parting is all we know of Heaven
And all we need of Hell."

With these words from the pen of Emily Dickinson we bid au revoir to our employer and publisher, Lt. (jg) C. C. Hartley.

At home since Sept. 10, he left yesterday for the Naval Aerial Gunnery School at Purcell, Oklahoma, after bidding his many friends "goodbye." Upon completion of this final lap of Naval training, he will be assigned to duty, destination unknown. Since furloughs in the Naval branch of the service total 15 days in the 365, it shall be quite some time before any of us can personally pass the time of day with him.

"Frot not over bygones, and the forward journey take," speaks very true in all things which he undertakes and with him on this new road of life go many good wishes from his employees at the Hilltop Record, his business associates, and lifelong friends.

To Lt. Hartley—

Good luck and may God be with you.

Congratulations!

To Ray Hauntz who won nomination for reelection to city council without a single personal campaign appearance, since he has been confined to his home by illness.

A local grocer for over a quarter of a century, Councilman Hauntz has made numerous friends all over the city, which was proven in the results shown at the recent election.

May he have a speedy recovery.

Chained

Dale Rose, new West Hi coach, upon his return to the Hilltop, had this to say regarding how well people like the Hilltop:

'There was a prominent business man who died and went to Heaven. Upon entering the Pearly Gates, St. Peter assigned an angel to show the gentleman around.

While making the tour, the man recognized several well-known friends and business associates and eventually came upon a group secluded from the rest, and chained.

He inquired of the angel, 'and why do they have that group of persons chained?'

'Oh, we have to chain them as they are from the Hilltop and if we let them loose, they'll go right back there'."

Cowboys Lose Opener At Springfield

West High Cowboys lost their first game of the football season to Springfield at Springfield last Friday evening with a final score of 20 to 2.

Springfield attained its score with two passes and a block punt. West's two points were gained when they scored a safety. Each team scored six first downs.

Dale Rose, West coach, said the boys played well but made a few costly mistakes. The Cowboys outgained Springfield on running. The pass defense is what slipped up on the local team.

The score for each quarter was:

West	0	0	0	2—2
Springfield	0	7	6	7—20

"The boys were in there scrapping and if they continue to do that, that is what will count," was the statement Coach Rose made concerning his boys' future this season.

No West players were injured in the game Friday but Donn Haines, a good passer for the Cowboys sustained a knee injury in practice this fall that has set him back from the first team to the second. Rose said it is doubtful whether he will be able to return to the first team this season.

West goes to Marion this afternoon to meet the Marion Harding team on their home field. Marion Harding beat Mansfield last week.

In the starting lineup will be: Ends, Jack Bates, Jack Buckingham, Charles Hall, Noble Allen; tackles, Maurice Embleton, Carl Hosler, Dick Singer, Dick Layne; guards, Virgil Crawford, Franklin Jackson, Renick Parkey Sam Estell, Joe Moore; center, Matere Alban; quarterbacks, Neil Mowrey; Donn Haines, Paul Anderson; fullbacks, Dick Ison, Gene Shade, Harold Buchanan; halfbacks, Ira Blackwell, Dick Gilmore, Donald Jenks, Dick Ewing.

Visited Salerno In 1931, Relates Miss Margaret Koerner and Mrs. Zollinger

By Jean Young

To many people around the Hilltop, Salerno, Italy, is just a name in the news where our American boys fought a relentless battle last week. But to Miss Margaret Koerner and Mrs. Mary Zollinger, 2685 W. Broad-st, it is more than that. They visited there in 1931 while on a Mediterrancan cruise.

Miss Koerner told of the perils of the narrow beachhead at this point of the Italian coast line. According to her description the beach is extremely narrow and abruptly juts straight into a treacherous crag that runs clear along the coast line.

"Our cruise took us to Naples where we stayed a few days. One afternoon a motor trip was started to Salerno which I took. We drove along the beach and to this day I can't remember how the driver got up the mountain there, but he did," she said.

"We visited the spot where the Americans landed and when we were there we went up stone steps to a monastery towering the beach," Miss Koerner further explained.

Salerno isn't much of a town from the coastline to the mountains, according to the travellers.

While there Mrs. Zollinger told us of the dock the natives were erecting entirely by hand. "They carried the cement in buckets up to the dock. They scurried back and forth like ants working on an ant hill."

Among other places which have felt this war heavily and which were visited by the ladies are Algiers, Hamburg, Berlin, Paris, London, Norway and Alaska.

The slums in Algiers are terrific and most of the inhabitants are beggars.

In 1928 the sisters visited Alaska. This is a rocky terrain. They visited the public baths while there where the ground water is hot and steaming.

In North Cape, Norway, "daylight never disappeared" for this is the land of the midnight sun. The night their boat pulled into dock they stayed up all night but it was really day or rather it never got dark.

"The sun came straight down to the horizon at midnight and at this point it appeared to twirl around and immediately went back up to the heavens," Mrs. Zollinger explained.

Miss Koerner has made four trips to Europe and Mrs. Zollinger three, but they aren't traveling these days.

"We are living those trips over now," Miss Koerner stated.

I finally made 'Jack Lewis' surrender to me a poem of his own composition. Better known as Lewis Mansfeldorf, and written when he was fourteen, this one is entitled

SUICIDE for LOVE

The air from your lungs slowly is squeezed,
Your body seems dead from your neck to your knees,
You squirm, you twist, you fight for air,
Your hands reach out and tear at your hair,
Your eyes bulge out as if to burst,
You seem to have gone from bad to worse.

Then you seem to want to sleep,
A date above you want to keep,
Your muscles grow tense, more tense they grow,
Your life seems slowly, slowly to go.
Then you grow limp and stretch your neck,
And she no more your life can wreck.

Dick Hoover, who starred in basketball and baseball here for the last three years, has compiled an enviable record of 14 wins against one defeat in the Tenn. Appalachian league. Dick signed a contract and left immediately for Bristol, Tenn., following his graduation from West in June.

Dick's ambition to play professional baseball came when Marty Burtell, Columbus resident and New York Giant scout, gave Hoover a try-out with the Giants in April.

Among honors he gathered while at Bristol, Dick was picked on the honorary All-Appalachian league team as the top-notch southpaw hurler. The [illegible] him to start against the rugged service team made up of big league ball players in the army. Hoover completed the season with 74 strike-outs and batting an average of .261. He has been promoted to Jersey City, top farm club of the Giants.

Dick was vice pres. of the "43" June class, capt. of basketball 42-3 seasons; also 1943 capt. for baseball, and elected capt. of the All-High baseball team. Dick will be 18 in Dec. and plans to enter the service then.

BED BUGS

He looked awful when I opened the door
Of his sleeping room that day,
Everything scattered over the floor
His face haggard and gray.
He said he hadn't done any sleeping,
Bed clothes piled on a rug
And he whispered to me while weeping
I cannot sleep with a bug.

He said he looked under the pillow
Soon as he turned on the light
Then grabbed a chair of weeping willow
Took off his coat and fought all night.
Many had horns and long sharp claws
Big as a shaving mug
I opened the door when he made a pause
And left with his empty jug.

Invasion Comes High IN BLOOD AND MONEY

Part of the cost must be paid with human life. That means deep and lasting hurt for many and many an American famiy.

Part of the cost must be paid in cash . . . this September. And that's going to hurt, too!

THE 3RD WAR LOAN IS HERE!

$100 Extra, Mind You - - - for EVERYBODY!

No man or woman can hold back. No man or woman can point to his Payroll buying and say, "They don't mean me!" No man or woman can say, "I'm already lending 10% or 12% or 20%—I'm doing enough!"

Sure—it's going to hurt. It's going to take more than spare cash this time—more than just money that might have gone for fun. It's going to take money we have tucked away. It's going to take part of the money we've been living on—money that might have meant extra shoes or clothes or food! Money that might have gone for anything that we can get along without!

Sure—it'll be toug... we've got to do it—and...

We'll do it partly ... come over the faces o... fan. We'll do it partly ... out of this whole rot... chip in all he can and ... ly because there's no fi... today than a U. S. Wa...

THE DAYS OF LONG AGO

We didn't have autos streamlined
But we were happy and gay
And the people were just as refined
As any we have today.
A common occurrence in the long ago
Sleeping in the loft overhead
Our house would allow the snow to blow
All over my trundle bed.

I like to recall the old quadrille
Dancers using the heel and toe
When the music my soul would thrill
Of the fiddle and old banjo.
Grandfathers clock tolling time for all
A house that was kept in order
And it is a pleasure for me to recall
The old spinning wheel in the parlor.

Red Cross Home Nursing Course To Be Organized

A home nursing class of the Red Cross will be organized at West Broad Street School, Thursday, Sept. 30 at 1 p. m. under the supervision of Mrs. Paul Benton and Mrs. Myron T. Seifert. This class is being offered to homemakers, business women and girls, hoping that they will take advantage of an opportunity to learn more about how to maintain health on the home front. The course also teaches how to give simple nursing care to members of the family when they are ill.

During the coming year at least one person in every family is asked to take this course. Then, when confronted with illness in the home, simple nursing care can be carried out efficiently under the supervision of the family doctor.

Everyone is eligible to take the course. There is no charge for the instruction except the purchase of the textbook.

Classes meet during the day or evening, for a two-hour period, once or twice a week, for a total of 24 hours. Hour and time of meeting is decided upon by the ladies at the time of the class organization.

Plans have been made to provide a registered nurse to care for children of mothers attending the class in a nursery-room nearby.

OLD TIME MINSTRELS

Harrigan and Hart the old-time Minstrels
Were the greatest in their day,
Millions left to mourn—sad and forlorn
When their spirit soared away.
Gifted without doubt from Heaven above
A nation enthralled by their name,
Their singing and dancing a thing to love
It brought them riches and fame.

Later two minstrels appeared in theaters
Who were marvelously gifted too,
Tho humble of station they encircled the nation
With their singing and dancing crew.
And they too have gone to that great beyond
To that home of joy and rest
Their home above, where there's music and love,
I am speaking of Primrose and West.

Wartime Meals With Rationed Foods

BY VIANNA D. BRAMBLETT,
Nutrition Consultant, Station WLW

This is the fresh vegetable season. Make the most of them to keep wartime meals balanced when other foods are scarce. There's a long list of vegetables available now in local markets or gardens — green beans, limas, corn, beets, carrots, cabbage, potatoes, onions, turnips, and green peppers.

Every vegetable has its virtues. Raw green peppers are very rich in vitamin C. Turnips, especially if eaten raw, help to fill the daily vitamin C quotas. Potatoes, cooked in their skins, provide good vitamin C, as well as iron and vitamin B.

To get full value from vegetables, select properly, wash, cover, and place in the refrigerator as soon as possible. Do not let stand at room temperature nor in water as in either case much food value will be lost.

Mrs. Brambrlett

Make vegetables good to eat. Too often they're cooked the same old way, too long, in too much water, and are poorly seasoned, so they're flat and tasteless when served. So watch your vegetable cookery, remember to use just the smallest amount of boiling water, then cook only until tender-crisp. Taste before serving and add that extra dash of salt or pepper that's so often needed. a little sugar added during cooking will greatly improve their flavor, too.

Variety is the spice of life, likewise, variety in vegetables and in seasoning can often be the spice of meals. So try all that the garden or market offers. Cook two or more vegetables together; mix vegetables in soups, chowders, stews, and in casserole dishes with eggs, cheese, meat, or fish. Give them a "lift" now and then with bits of diced, crisp bacon, a little chopped onion, green pepper or parsley. Make a flavorsome sauce with milk and the vegetable water, if any remains. Use bacon or ham drippings in sauce instead of butter or margarine, or add a little lemon juice, vinegar or hot French dressing for a pleasantly tart taste for boiled carrots, beets or turnips.

Serve some raw vegetable daily, too, as relish or salad, or in a sandwich. Cook down left-over vegetable water, add to vegetables, or to soups, sauces, gravies or use as a vegetable cocktail. Then can every bit of surplus vegetables for next winter's meals.

IN MEMORIAM
In loving memory of our husband and father, Cleo D. Anderson, died Sept. 23, 1942.
One year has gone we know not where
Because it seems just yesterday you were here
Sitting in your favorite chair
We know you wandered into an unknown land
Where God, needed you, we understand
So hand in hand we stand
Waiting for the reunion land.

Cigarette Drive Starts Today

A half-million cigarettes—to one person it would take years to use that many, but when they are distributed by a pack or two packs, to a soldier—even the pack itself seems like half a million, especially if he is in a place where he cannot secure them, in a fox-hole perhaps.

Considering that the nations' output of cigarettes during August reached a total of 23,681,911,319, a half-million is a mere drop in the bucket.

Jars are on the counters of business establishments on the Hilltop and today starts the drive by the Hilltop Business Men's Association to secure those half-million cigarettes by your contribution for your loved

Hasten the Day

The words of Sherman ring truer day by day—war is hell.

In comparison to the peace of yesterday and the turmoil of today, the following poem brings out the comparison well, of someone giving their son, along with the millions of others, to this conflict.

I Have A Boy

I've a wonderful boy, and I say
to him, "Son,
Be fair and be square in the
race you must run.
Be brave if you lose and be
meek if you win,
Be better and nobler than I've
ever been.
Be honest and noble in all that
you do,
And honor the name I have
given to you."

I have a boy and I want him to
know
We reap in life just about as
we sow,
And we get what we earn, be
it little or great,
Regardless of luck and regardless of fate.
I will teach him and show the
best that I can,
That it pays to be honest and
upright, a man.

I will make him a pal and a
partner of mine,
And show him the things in
this world that are fine.
I will show him the things that
are wicked and bad,
For I figure this knowledge
should come from his dad.
I will walk with him, talk with
him, play with him, too;
And to all of my promises
strive to be true.

We will grow up together I'll
too be a boy,
And share in his trouble and
share in his joy.
We'll work out our problems
together and then
We will lay our plans when we
both will be men.
And oh, what a wonderful joy
this will be,
No pleasure in life could be
greater to me.

'Twas a beautiful dream, but
along came this war
And demanded my boy, plus
ten million more,
To wipe out aggression; give
freedom new birth,
Extend the four freedoms to
all men on earth,
And to prove alike to Jap, Fascist, and Hun,
Only right will triumph when
this war is won.

I have a boy and I want him to
know
My faith in his courage continues to grow;
My faith that the lessons he
learned at my knee,
Have made him the man that I
want him to be.
God guide and direct him and
hasten the day
He returns to my hearthstone,
and peace holds away.

The first four verses of the poem were written in 1937 before the present conflict. They were composed by Hugh M [illegible]ee. In 1942, Harvey J. Book added the last two stanzas.

Ten Thousand Miles Apart, Boyhood Pals Get Furloughs Simultaneously

By Jean Young

Amchaitka, in the Aleutian archipeligo, and Panama City, in the Canal Zone, are some 10,000 miles from one another. But that mileage was reduced this week when Lt. Forest Hatfield, from Amchaitka, and Sgt. Jean Frank, from Panama City, joined forces in Columbus.

Lt. Hatfield, who has been stationed in the northern outpost eight months as a bombardier, came home on a 20 day furlough Sept. 19. A day or so after his arrival he went over to visit Sgt. Frank's mother and asked about his buddy. When he went to the house, in a joking fashion, he asked Mrs. Frank where Jean was because he was supposed to meet him there. After he saw how excited he was making her he said he was only kidding and the matter was dropped and a conversation started on other subjects.

A day later, Lt. Hatfild received a call from Sgt. Frank who said he was home from Panama where he had been three years. This was almost more than the rugged bombardier could take and didn't believe until he actually saw Sgt. Frank. The sergeant's furlough was also for 20 days and he had arrived home Friday.

According to Lt. Hatfield the portion of the Aleutians where he was stationed was entirely God-forsaken. Nearest town was 1500 miles away. A small post exchange was the hangout when the boys were free.

"They've got cigarettes, candy and chewing gum there. One day they even had a roll of films," laughed L. Hatfield when asked how the post exchange was stocked.

After being on 18 bombing missions Lt. Hatfield exclaimed he thought the first flight made the most impression. "I was a little scared. One flight we got a hole in the tail of the ship."

Lt. Hatfield didn't go on to Kiska but he said the men up there expected four days before the expedition was made that they would find the island deserted.

"I didn't receive many papers up there, only a Hilltop Record clipping now and then," he said.

As to what the boys in the Aleutians want most for Christmas—just to come home.

"There's nothing up there, no trees, no women. The place is barren," was Lt. Hatfield's summary.

Sgt. Frank was stationed with the Corps of Engineers near the Canal.

"About the only gala event they have in Panama is once a year when they hold a carnival to celebrate their independence day. They wear native Spanish costumes and dance in the streets," Sgt. Frank explained.

While on a tour of army camps overseas, Jinx Falkenberg and the Ritz Brothers made an appearance in Fort Clayton where Sgt. Frank was stationed.

Orchids grow wild in and around Panama and you can pick a bouquet of them at any time.

The boys both seemed glad to be home but a slight bit of impatience to be on the go again was detected in the curbed conversation They agreed their furloughs would be spent in resting and doing things only when they wanted to do them.

After his furlough is over Lt. Hatfield will report to Paine Field, Wash. where he will be stationed a while. Sgt. Frank did not say where he was going but hopes its in the States.

Lt. Hatfield is the son of Mr. and Mrs. Vernon Hatfield, 121 S. Eureka-av, and Sgt. Frank is the son of Mr. and Mrs. Charles A. Frank, 193 S. Dakota-av. Both men are graduates of West High School.

Cowboys Meet Pirates At Magley Field This Afternoon

West Loses Football Game By One Point To Marion-Harding Last Friday Night

By Joe Case

West Cowboys will meet Central High Pirates on Magley Field this afternoon. The kick-off will be at 3:15. Tickets for the first home game will be on sale at the box-office at game-time.

West Marion Last Friday

After staging a brilliant second half, the West High Buckaroos fell short of a well-deserved victory to a shifty Marion Harding outfit, 7-6, last Friday, in a night encounter on the Presidents own gridiron.

Marion held the spot-light during the first half when a touchdown march, sparked by a 20 yard jaunt, set the ball on West's 7 yard line where a plunge resulted in the first score. But here, they threw a pass for the then so vital extra point and the deciding factor in the game. In the second stanzas, West began to march and after considerable exchange of points behind a stubborn Buckaroo line and brilliant line-backing of Mowrey and Alban, Blackwell took the punt on his own 45 and cut for the sidelines for 10 yards only to be swarmed under by a host of the President's team after some fine field strategy.

Having met a more hefty line West tried their aerial attack and Gilmore passed to Buckingham who got 15 yards for interference and the ball rested on the 30 yard strip. The Presidents shifted to a five-man line in order to stop this aerial attack. Ison plunged for five and then in turn a five yard penalty for off-side put the ball at the same position. Gilmore cut through on a shifty reverse after a 15 yard penalty for clipping. Line plunges put the ball on the one yard line and a first down. Gilmore plunged over through the right side of the line and Ison attempted to convert but a fast charging line blocked the kick. West kicked-off and forced them to punt.

From here on the Buckaroos tried frantically to score with passes and end runs. A dump pass and a end run put the ball deep in their territory and Ison plunged brilliantly at a so needed time, to put the ball on their five. Line plays were attempted but finally Blackwell on a single reverse knived over with two minutes to play but the play was called back on an off-side penalty. A pass was intercepted and from here on the Presidents were able to hold off the last minute attempts.

Probable starting line-up for today's game will be:

Le, Bates; lt, Lane or Slager; lg, Crawford; lh, Gilmore; c, Alban (c); qb, Mowery; fb, Ison; re, Hall; rt, Embleton; rg, Parkey; rh, Blackwell.

The Saturday morning school will start Saturday, Oct. 2.

Marching Band On Field Today

Football is in the air and West High's marching band will appear on Magley field this afternoon vs. Central Hi.

Each morning promptly at 7:45, one may see the sixty-four ambitious, although somewhat drowsy, members of this glorious organization drilling up and down the length of Magley Field, in preparation for participation in future grid contests.

Led by drum major, Bob Edwards; drum majorette, Dorothy Roederer; and twirlers, David Austin and Bill Hagans, under the supervision of Miss Mary K. Richter, newly appointed director, the band is making very satisfactory progress, it is observed.

The four baton wielding leaders were chosen by the band personnel last spring from a wide field of tryouts.

Of the sixty-four members constituting the band, seventeen are new to the ranks and are receiving their first taste of the strict discipline necessary to maintain so large a band at high standards.

Miss Richter is patterning the band after some of the leading military bands and introducing many new ideas, which are already proving to be popular with the members.

Due to restrictions on uniforms of any kind, since the start of the war, the band has been unable to buy the new uniforms planned for, but instead are increasing their financial status as much as possible so that they may be able to buy the finest full-dress military uniforms after the war.

The present uniforms will be quite trim, however, thanks to the maintenance work done on them by the Parents' Club, which may easily be referred to as the backbone of the organization.

West High Elects Student Council Pres.

West Senior High School Student Council has elected Bill Smith as president. Miss Baker is heading the council this year.

The officers who are helping out this semester are Harriet Worthington as vice-president and Suzanne Walker as secretary.

Loew's Ohio

Star attraction at Loew's Ohio now is "Johnny Come Lately", James Cagney's first film since winning an Academy Award. He plays a vagabond newspaperman who wins a girl, sets a newspaper back on its feet and defeats a gang of crooks in a little southwestern town. Marjorie Lord is the girl and the cast includes gravel-voiced Marjorie Main and stage star Grace George. Pete Smith's "Football Thrills of 1942" headlines the Ohio's bill of shorts on this single feature bill.

Loew's Broad

Loew's Broad is now showing as a single feature, the greatest cinema event since "Gone With The Wind", It is "For Whom The Bell Tolls", the spectacular Technicolor version of Ernest Hemingway's great story of the Spanish Civil War starring Gary Cooper and Ingrid Bergman. Running for two hours and a half, this amazing film runs the gamus of every excitement, every emotion. There are no reserved seats and the picture is being shown under the regular continuous policy of the Broad. It will not be shown at lower admissions until 1945.

Hillcrest Church

Parents night and promotion exercises of Junior and Intermediate departments of Hillcrest Sunday school will be held tonight in the church basement. There will be a guest speaker and refreshments will be served.

Do Not Delay In Filling Coal Bin

Homes depending upon coal for heat this winter, need not be uncomfortable if householders do not delay or fail to stock their bins as full as possible.

According to J. M. Jackson Fuel Co., Dana & Thomas-av, although the rationing situation is still static, a great deal depends upon the demands of government transportation later in the season and the number of delinquent buyers of coal for home heating.

"If civilian coal users stock up at least part of their season's requirements in advance, it will greatly ease the situation when actual freezing weather strikes."

Seaman First Class Mary Jane Sheron, daughter of Mr. and Mrs. Charles E. Sheron, 105 N. Westmoor-av, is now stationed at Long Beach, Calif., with the SPARs. A graduate of West High School and a former student at Taylor University, Upland, Ind., Miss Sheron enlisted in the SPARs May 3 and trained at Hunter College. She was recently home on a 10-day furlough. Following her completion of special training in storekeeping at Palm Beach, Fla. she was transferred to her present location. Before her enlistment she was employed at Wright Field, Dayton.

Wearing a service bar with stars each for major engagements with the Pacific Fleet, Phillip "Phil" Mills, 20 year old son of Mr. and Mrs. W. C. Mills, 35 Broadlawn-av, is spending a leave at his parent's home. Two of the operations in which he took part were the Marshall and Gilbert Islands and Midway. The two others he did not discuss. He wears a fifth service star denoting his service in the North and South Pacific.

Mills was at Pearl Harbor Dec. 7, 1941, when the Japs attacked. He was not injured. The battleship Arizona received its death blow before Mill's eyes.

Capt. L. M. Ludwig, son of Mrs. John Randles, and the late Robert S. Ludwig 151 N. Powell-av, who recently received his captaincy, told his mother in a letter this week that he is aide-de-camp to a general in the Caribbean area. He could not give the name due to military restrictions. Capt. Ludwig is also commanding a battery of anti-aircraft. He entered the service in April, 1941. Before entering the service he was associated with the Weigand Department store in Dayton.

Sgt. Carl E. Tackman Jr., 25, a gunner in the United States Air Forces, and son of Mr. and Mrs. Carl E. Tackman Sr., 66 S. Ogden Avenue, was aboard a Marauder bomber that achieved distinctive victories in a raid on railway centers near Naples recently, according to reports received here.

Sgt. Tackman was among six airmen also cited for victories in an Allied bomber attack on Axis airfields at Villa Vidro, Pantelleria, May 27.

In writing to his parents about the Naples attack, Sgt. Tackman said: "Just another Jerry for Paula." Paula is his English fiancee, whose mother and baby sister were killed in a Nazi bombing raid over England a year ago.

The sergeant was inducted May 16, 1942, and received training in the Air Forces at Keesler Field, Miss., and at Ft. Dix, N. J. He is a graduate of West High School.

'Army Life In Texas'

Pvt. Thomas James Rebholz

Now stationed somewhere in North Africa, Pvt. Thomas James Rebholz, son of Mr. and Mrs. Louis F. Rebholz, 158 Highland-av, composed the following poem while at Camp Walters, Tex. after his induction into the Army, Feb. 26:

Army Life In Texas

Way down here in Texas,
What a hell of a spot,
We've battled the terrible dust
[illegible]
In the land that God forgot!

Into the dawn with a rifle,
Down in the ditch with a stick,
Doing the work of a horse—
And to damn tired to kick.

Up with the cowboys and Ind[illegible]
Down where a man gets blue,
Out of the end of creation,
Twelve hundred miles from you.

Night and day the wind keeps blowing.
It's almost more than a man can stand.
Hell! We're not prison convicts,
We're defenders of our land!

Enlisted men of the Army
Earning our meager pay,
Defending the Wall Street mil[illegible]
On a dollar sixty a day.

We're living for tomorrow,
On to see our gals,
Hoping and praying when we return
They're not married to our 4-F pals.

Few know we are living,
Very few give a damn
Back home we are forgotten,
We are loans of Uncle Sam.

For three years we can stand it
But for four years, who can tell.
Don't let the big shots kid you—
Army life in Texas is Hell!

WRITE A LETTER!

Posters have been seen in public places lately showing a soldier sitting on a cot reading a letter from home with a satisfied smile on his war-weary face. But there was another soldier in that same picture with a much different expression on his face. He was lying on the cot to the side of the boy with the letter from home. There were tears streaming down his cheeks. He hadn't received a letter for some time.

It wasn't that he had been forgotten but rather that the folks he left behind thought their days were just a little too crowded to drop a line to this depressed soldier.

There is at least 15 minutes in every American's day that can be devoted to writing a page to that boy over there. Don't waste those precious minutes doing nothing. They dare not waste theirs.

What You Buy With WAR BONDS
Battle Wagons
When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

School Togs

Twinkle Watts, Columbia Pictures starlet, models a corduroy suit from her new school wardrobe, selected by Child Life Magazine. The versatile cotton of which it's made stands up under active punishment, retaining its tailored lines through a full day's schedule. The suspender skirt is useful with blouses or sweaters and the long-sleeved jacket, cut like mother's, is trimmed with painted wooden buttons. The suit, which comes in sizes 3 to 6x in red or copen is made by G. H. & E. Freydberg, 1350 Broadway, New York.

What You Buy With WAR BONDS

Powder Monkey

On board ship and in the artillery their buddies call them "powder monkeys." Not disrespectful, just a personal, intimate term between friends. Civilians call them gun crews. During a battle the crews of "powder monkeys" must work like trojans bringing the ammunition to the guns.

The gun may fire an anti aircraft .50 calibre shell or a broadside from the 16 inch guns of a great battleship, but in either event the "powder monkey" must pass millions of dollars' worth of ammunition to make the gun effective, and your savings in War Bonds are necessary to supply the financial ammunition that provides the shells.

U. S. Treasury Department

Govt. Agencies Need Clerks

There is an extremely urgent need for under clerks, typists and stenographers for positions in local government agencies which are engaged in work vital to the war effort.

These positions pay from $123 to $146 per month and appointments are made to these various positions from the list of those who successfully pass the civil service examination.

These examinations are held every Wednesday at Bliss Business College, 131 E. State-st, and applicants should be at the college shortly after 6 p. m. as the examination starts promptly at 6:30 p. m.

It is not necessary for applicants to furnish anything except their own pens and pencils. It will be necessary, however, for each applicant to pay a fee of 50 cents as rental for use of a typewriter. For those applicants who want to use their own typewriters, examinations can be arranged for Wednesdays, at 1 p. m., Room 402, New Post Office Bldg. or at the office of the representative, 435 Cleveland-av.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933

Of the Hilltop Record, published weekly at Columbus, Ohio for October 1, 1943.

State of Ohio, County of Franklin, ss.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared C. Carlton Hartley, who, having been duly sworn according to law, deposed and says that he is the Publisher of The Hilltop Record and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher C. Carlton Hartley, Columbus, O.; Managing Editor Eileen Griggs, Columbus, O.

2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) The Hilltop Record, Inc., Columbus, O.; C. Carlton Hartley, Columbus, O.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (None.)

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

C. Carlton Hartley

Sworn to and subscribed before me this 15th day of September, 1943.

Fillin' In

By Eileen Griggs

Discourteous, You?

You probably do not consider yourself discourteous in anything you may do or say. Maybe that is true. Maybe you have been placed in the same position as the waitress who brings you your food in a restaurant, or a sales clerk in a store,or an office worker. Maybe you think back to the time you did such work and can appreciate the discourtesies shown you at that time—because all people are discourteous at one time or another.

Of course, there is a war on—but because of the conflict, people should realize the other person has just as much on his mind as he himself has—the war has come to us all—not to just one!

It happened in numerous cases in recent weeks. Upon entering a restaurant at lunch or dinner time, it is understandable that there would not be a vacant table or booth available immediately. Do you patiently wait for one to be emptied or do you discourteously seat yourself with a diner without a by your leave?

When you do secure a table, do you blame the waitress that she cannot take your order immediately, or bring it to you at once after taking it? Let's hope not. Please remember, restaurants do not need more customers, but they do need to keep the help they have secured. Your patience will help secure additional help and more prompt service upon your return.

Discourteous, you? No—not if you consider that there is a definite help shortage and your needs cannot be taken care of immediately.

Tests To Be Given At West High

Second qualifying test for the Army Specialized Training program and the Navy College program V-12 which will be given throughout the country on Tuesday, Nov. 9, will be administered at the West Senior High School, Dr. H. H. Reighley announced Oct. 3. A pamphlet of general information which contains an admission-identification form may be obtained at West High. This form properly filled out will admit to the test students, between the ages of 17 and 21 inclusive, who are recent high school graduates or who will be graduated by March 1, 1944. Intent to take the test should be made known immediately to Dr. Reighley in order that the necessary test supplies may be ordered.

Same examination will be taken by both Army and Navy candidates. Successful completion of the prescribed courses may, following further officer training, lead to a commission in the Army or the Navy.

Those selected for the Army will, after further screening and basic military training, be sent to college. Students chosen for the Navy Program, after selection by the office of Naval Officer Procurement, will be detailed directly to college. Students who attend college under either of the programs will be under military discipline on active duty in uniform with pay. All expenses, including tutition, food, housing, books, and uniforms will be paid for by the Army or the Navy.

West 11 Trounces Central High 32-7

The air reverbrated with the West High School song as an overjoyous throng cheered a highly spirited Cowboy eleven to its initial victory in two seasons when they walloped the Central High Pirates with an overwhelming score of 32-7 on the local turf last Friday afternoon.

Starting out strong, two well staged plays put the ball deep in the Pirates' territory where it was turned over on downs. Immediately, the Cowboys held tight and forced them to punt where Balckwell returned it to the 32. Then it started—Blackwell took the ball around left-end for a beautiful 27-yd. jaunt behind fine interference for the first score. Ison's kick split the uprights.

West kicked-off and nailed them deep in their own territory and again they were forced to punt, ending the first quarter. From this point on Central tried frantically its air barrage and after completing a long pass, interference was called on West to put the ball in threatening territory. Here a short pass from Ebbinghouse to Carter gave Central its only tally of the game. The kick was good. Second quarter ended without further scoring or any considerable threat.

Gilmore intercepted a Pirate aerial soon after the half and after line plays failed, passed to Blackwell in the flat who went to Central's 30. Another pass was good for 15 and to the 2-yd. line, where Ison plunged over. Ison's kick was wide.

Again the ball passed back and forth and then Alban intercepted a pass and ran it back 25-yds. where West was penalized for clipping. Gilmore passed to Blackwell for a first down on the Pirate's 42. Here, Slager completed a long pass to Bates who raced for another tally. Ison's kick was blocked. The score stood at 19-7.

West kicked off and then its stubborn forward wall forced them to punt. After one line play, Gilmore flipped a beautiful long pass to Bates who outran the safety man for another score. This play netted a total of 70-yds. Again the Pirates blocked Ison's attempt.

Central returned the kick-off to the 30 and attempted to pass but Embleton, stalwart left tackle pounced on the ball after it was knocked from passer's hand on the 25. Replacements were brought into the game. Ewing raced for 15-yds. through tackle to the 12 and in turn Jenks plunged for 4 and a dump pass to Buckingham finished up the scoring. Jenks plunged for the extra point, Central tried an attack then but with no success and the game ended with the final score of 32-7.

WEST vs. LINDEN-McKINLEY

This afternoon at 3:15, West will play host to a under-rated Linden-McKinley outfit, on Magley field with the strong West eleven favored to win. After romping over Central, the first city league barrier, over-confidence must be prevented to stop Linden in style.

McKinley has a considerable green team as this is only their second year of sports participation. Cowboys line-up will stand somewhat the same as in previous games.

Band Formations

As during last week's game, the West High Band will perform. This afternoon they will enact the following probable formations for the Linden-McKinley game. There will be a dividing band formation, a floating HELLO, a standing L-McK, and a revolving W. Linden-McKinley's band will also be present.

At the Central High game last week, the band made formations in a HOWDY CHS, a revolving W and a revolving rectangle.

A Boy - A Girl Born To Sisters Same Day

One physician was kept quite busy for a couple of hours at St. Ann's Hospital early Sunday morning when two Hilltop sisters gave birth to babies less than an hour apart.

Mrs Ruth Joan Weir, 804 S. Eureka-av, gave birth to a son whom she named Roger Edwin. Her sister, Mrs. Charlene Seipel, 877 Heyl-av, formerly of the Hilltop, named her tiny daughter, Charlotte Ann.

Mrs. Seipel's husband, Pfc. Charles Seipel, is serving with the U. S. Army in North Africa. Immediately following the birth of her daughter, Mr. Weir, Mrs. Seipel's brother-in-law, sent a telegram to him announcing the infant's arrival. In less than 36 hours Mrs. Seipel received a bouquet of roses from her husband with a message to his wife and new daughter.

The sisters are the daughters of Frank Powers, who formerly made his home on Burgess-av, he now lives with Mrs. Seipel on Heyl-av.

Sites Of Biblical History From Nativity To Ascension Visited By Hilltop Soldier On Furlough Overseas

(Editor's Note: The following article was too complete in its description to omit any portion of it—thereby, it will be printed a portion at a time, until it is complete.)

The desire of many persons to visit the Holy Land will go unattained. Not so in the case of Cpl. Denver S. Hastings who entered the army in March of 1942 and is now stationed overseas.

On his first furlough since entering the service, he signed with the Red Cross to take a tour of the Holy Land and following is the first part of his letter to his parents, Mr. and Mrs. Perley W. Hastings, 153 N. Terrace-av, describing the visit in its' entirety.

"I was granted my first furlough for eight days, July 13 to July 22, since being in the service, which was a short time out after being a long time in, with the exception of a three day pass about a year ago.

"The Red Cross Club is sponsoring trips to Palestine, or the Holy Land, for the benefit of the men in the service, which sounded quite interesting to me, so I decided I should spend my time in seeing the various places of the Bibical times. All the soldiers going on this furlough met at the Service Club and were furnished transportation to the railroad station where we boarded a train for Palestine.

"The train we rode in was so old it would give the taxis in that city a superiority complex, and the taxis in that city are models manufactured by English, French, Italian, and American, from 1918 up to about 1931 or 1932. The train had three sections, first class, second, third and third class or no class at all, which class only soldiers and 'Wogs' are allowed the privilege to ride. In the States a freight car with a few holes cut in the sides for windows and the seats made of wood, would correspond to the third class which I mention above. We rode for 18 hours which, at home on the slowest railways would ordinarily require about 6 hours to cover the same distance. We stopped twice for nourishment on our way there and after having sampled the food at these places I did not bother to get off the train again at all on our way back to camp. When I got off the train I was wearing a soot suit with a crepe shape.

"We got off the train at Lydda which is about 10 or 15 miles from Tel-Aviv, Palestine, the town where we stayed at the Red Cross Club while on our furlough. We reached this place about 9 o'clock in the morning, cleaned up donned clean uniforms and had breakfast at the club. I had good intentions and was going to make up for the sleep which I had missed the night before on the train but I met up with a couple of the fellows from my organization who had come there the week before but were having difficulty in getting transportation back to their organization. So they gave me a brief history of how they spent their time here, and then decided we should go and see some of the town. We came back and had lunch and in the afternoon we went out to the military beach on the Mediterranean and went swimming. In the evening we returned to the club and had dinner. I signed up for a three day tour in Palestine, then retired as we had to be ready to leave on this tour by 8 o'clock the following morning and I had not yet made up for the sleep which I had lost the night before on the train. If one wants to see anything here, the day time is the only time to see it, as the towns are 'blacked out' at sunset.

"Tel-Aviv is a modern city with about all the advantages of any of our cities at home. This town now has a population of about 180,000 Jews, which is more than one third of the Jewish population of Palestine. This town is run by a council of aldermen, with a mayor at its' head. There are also many refugees here from the various European countries now in the war. Before the first world war the area over which Tel-Aviv is built was merely a waste of sand. Some Jewish people from Jaffa organized a group for the purpose of building a modern place where they could live in comparison to the European style.

"So to the north of Jaffa these people purchased an area of these sand dunes, where they started to build just a short while before the first World War. They called this new place Tel-Aviv, which means the 'Hill of Spring.' The World War intervened and checked delovements. Then the Turkish general ordered the expulsion of the Jaffa and Tel-Aviv populations. When the British ocupied these towns again in 1917, the Jews began to return and building began to increase and new streets were laid out Tel-viv was considered a suburb of Jaffa until it was separated and granted a Charter in 1921 which gave it the right to organize and establish its own government. Since then it has grown to its present population.

William Frederick Laird, son of Mr. and Mrs. Walter B. Laird, 182 S. Terrace-av, exchanged their wedding vows in the Martin Luther Church of Canton. The ceremony was performed by the Rev. O. C. Given in marriage by her father, the bride was attired in an ivory faille gown made with a long torso, sweet heart neckline and bracelet length sleeves. Her finger-tip veil of tulle fell from a circlet of brocade. Her bridal bouquet was of white chrysanthemums and pompoms.

The matron of honor, Mrs. Crayton Walker, wore a gold taffeta gown trimmed in brown velvet. Her head dress was a Juliet cap, and her flowers were bronze and gold pompoms. The bridesmaid, Miss Martha Buchman, sister of the bride, was attired in a taffeta gown of bottle green with dark velvet trimming, and her flowers were also bronze and gold pompoms. Bibical History—

(Continued from Page 1)

"On the morning of our first day of the tour about 30 soldiers boarded the bus, which was about 12 years old, and started towards Jerusalem which is 40 odd miles from Tel-Aviv. This country is very mountainous and hilly. Our first stop was the British Military Cemetery where 2500 British soldiers were buried during World War 1. On both sides of the entrance are carved the arms of every regiment represented in the cemetery. Also in this cemetery are the graves of several Jewish soldiers who fell during the same campaign. Their tombstones bear the Jewish emblem of the Shield of David.

"Continuing on we came to the Hebrew University which is the finest in the Near and Middle East and if I remember correctly, was built by donations given by America. We had our pictures taken here by a photographer with Old Jerusalem in the background.

"We proceeded twords Jerusalem and a short time after leaving Jerusalem on the road leading to Bethlehem we came to the Tomb of Rachel, the sepulchre of Jacob's wife. It is now in the possession of the Jews, who visit it regularly.

"Continuing on we came to Bethlehem which lies about seven or eight miles south of Jerusalem and has a population of about 7000 persons, mostly Christians of various denominations, and a few Moslems. The country around Bethlehem is noted for its fruits and fields of wheat and barley. The farmers living close by this town were threshing wheat, by the most primitive methods

Here's how I save

TIME, POINTS, MONEY

"I've been putting myself in the place of the grocery clerks who try to handle seven day's business on Saturday . . . and I've decided to shop early in the week. I find the produce fresher and unhandled, and I have more time to shop in a leisurely fashion. I make out a shopping list of foods with their cost and their point value before I leave the house. That way I have my points figured out for the grocer ahead of time and I don't hold up the line fumbling in my bag for my ration books. I try to choose as many unrationed foods as possible as well as dairy products and fresh foods. I've been making it a point to use the stamps of the larger denomination first, so that the smaller stamps will be available at the close of the period if necessary. I have promised myself to shop wisely, to conserve. Let's all strive to make the grocers' lot happier by doing all we can to help ourselves."

WRITE A LETTER!

Have you written to that boy in the service this week? Perhaps you think your day was dull and there is nothing to say so it seems silly to write a blank letter.

Remember this. Where they are, there are no filling stations on every corner, or neighbors close by. Do you realize that that false alarm fire up the street will be something really exciting and diverting for him to read?

There is something going on in the home town every day that he will not know unless you tell him. Why not help him keep up to date by writing a newsy letter from home. What is dull to you will be sheer excitement to him.

THE PEOPLE SHALL RULE

Our Congressmen are saying and so am I
From now on they'll make the laws
Too often they have been fooled by a lie
Giving the war as a cause.
The rich man, poor man, beggarman, thief
Doctor, lawyer and indian chief
Are of one belief there is too much grief
Too many here are on relief.

All plans and treaties they will inspect
A constitutional method of democracy
And no amendments shall go into effect
Under the guise of expediency.
Some are saying—have no more elections
Till the war clouds disappear
There is danger there as you are aware
War could be prolonged a year.
—C. S. Parks.

Cowboys Win Tilt 34-0

By Joe Case

Over-powering a light, inexperienced Linden-McKinley eleven, the West High Buckaroos romped to their second victory of the 43' season last Friday by a overwhelming score of 34-0 on the home field.

In the opening stanzas the Cowboys drove to the McKinley 3-yd. line where Ison fumbled, but taking little advantage of their break they too fumbled, and Hall recovered on the 28. Ison and Gilmore went for 11 and 12-yds respectively and then Blackwell cut over from the 7. Ison converted for the point.

In the second quarter a host of Buckaroo substitutes replaced the regulars and they too rolled on but fumbles hindered their attempt to score. McKinley began to roll and a beautiful 29-yd. jaunt and some clever pass-plays put the ball on the West 23 where the regulars returned and held tight on the 5. After two line plays the half ended 7-0.

McKinley kicked-off and Blackwell returned it to the 38 and after five consecutive plays drove over from the 3. The kick was partially blocked. "Ivan" Blackwell again sparkled by a beautiful exhibitio nof open field running by taking a punt on the 30 and raced unmolested into the end zone with his teammates blocking all the way.

The reserves again took over in the final period and drove to the 13, where "Dad" Ewing knived over for the counter. Jenks faked the placement and cut over for the point.

A superior Cowboy forward wall rushed the passer and knocked the ball into the arms of Buckingham who raced 25-yds. without being touched and Anderson plunged for the final point. The reserves held down their passing attack and the game ended 34-0 with the Buckaroos again on top.

West vs. Aquinas

The pigskin will again be placed on the home field when the as yet unbeaten Aquinas Terriers meet the local West Cowboys. It is reported that the Terriers have a good and heavy team and the West eleven can look to have some stiff opposition.

Prior to the game the marching West High Band will perform a V formation with an entry fanfare by the brass quartet and a weaving countermarch while during the half there will be a spiral formation, a script "HI A", and a scrict "W". Alma Mater will be played by the brass quartet which is composed of Bill Coyle and James Frank on the trumpet and Tom Dale and James Scott on the trombone.

HBMA Meet Nets $83.12 To Buy 33,240 Cigarettes For Servicemen

When members of the Hilltop Business Men's Association and their wives attended the dinner and meeting at Schmelzer's Restaurant Tuesday evening, they each brought a package containing a small gift.

After a talk by Dr. Frank Fowler, speaker for the evening, the packages brought were auctioned off to those present, for an amount not over fifty-cents. Entire proceeds were placed in the cigarette jars. During the auction, which was conducted by John Davis, owner of Hilltop Riding Academy, each joined in the fun and seemed to have a hilarious time.

E. O. Melvin, chairman of the cigarette committee wishes to express his thanks for the cooperation given by the committee and the members of the association. He extends his thanks to Clarence Story, Herb Deems, Dr. R. J. Miller and Jack Shank for a wonderful job of collecting the numerous bids.

Highest bidder for the evening was John Riepenhoff who, for his efforts, received a broken record.

Highlights of the auction were that M. W. Seiller doesn't seem to know the difference in the value of a nickel in comparison to a dollar. Now Charles Kent has in his possession some very feminine articles as does Ray Coffman with a ladies night dress.

A grand prize was offered which was worth five dollars anywhere in the United States. Curtis Roberts was high bidder.

Total amount collected was $83.12 from the 93 present which will purchase 33,240 cigarettes for our servicemen.

Trip to Lockbourne Air Base which was planned for members of the association only, had to be canceled due to failure to secure adequate transportation.

Entertainment was offered by Miss Mary Catherine Richter, music teacher at West High School, who presented four of her music students. Dave Austin, Tom Dale, Joan Gill and Sally Kirkpatrick.

Applicants will merely have to state their name, age, and address. They will have to present Book Three when applying for Book Four. A single application must be made for an entire family or group of persons "related by blood, marriage or adoption and living in the same household." Application may not be made for members of the armed forces.

Approximately 60,000 books for the Hilltop and the West Side have been received by the board. Distribution to the various schools will be made with the assistance of the police and county sheriff's office. Mr. Webb has been designated as Board coordinator, working with the schools and local War Price and Rationing Boards.

War Ration Book Four is expected to last for two years. It has eight pages, containing a total of 384 stamps, printed on safety paper in blue, red, green, and black inks. Green stamps will be used on an interim basis in connection with the blue processed food stamps in much the same way that the brown stamps in Ration Book 3 are now being used in the meats and fats program.

There are 96 unit stamps printed in black ink. The word "spare" appears on 72 of these stamps, to be used in the case additional ration currency is needed for any of the programs. Twelve of the stamps have the word "sugar" printed on them, and an equal number are desiignated for coffee, which is no longer rationed. Now that coffee rationing has been suspended, this strip of 12 coupons can be used as spare stamps.

Gasoline Applications Audited

Edward F Wagner, District gasoline rationing officer, in a recent audit conducted at the local War Price and Rationing Board 25-10, stated in a letter to the chairmau and members of the gasoline panel stated he had found the personnel and the board very well instructed in their duties.

Out of 200 "C" applications audited only three were found to be ineligible for preferred mileage. This approximates a one and one-half per cent error in the thousands of supplemental applications processed.

All "B" applications were processed correctly on the 50 audited.

In auditing approximately 250 "B" and "C" applications, 44 were found which did not have full car-sharing clubs or were not properly certified.

A check was made of approximately 100 non-highway applications on which only one, the ceiling was exceeded.

A similar audit has been or is being conducted in all ration boards in the country.

Sites Of Biblical History From Nativity To Ascension Visited By Hilltop Soldier On Furlough Overseas

(Editor's Note: The following article is a continuation of the story which appeared last week and it will be printed a portion at a time, until it is complete.

By Denver S. Hastings

"The first place we visited in Bethlehem was the Church of Nativity. It is quite large and built like a Citadel over the cave where Jesus was born. The entrance to the church has a narrow low opening, as the door has been walled up because of fear of assault. The hall is crossed by four rows of columns of reddish limestone, erected in the 12th century. There are eleven columns in each row, each about 19 feet high. In 1934 the roof of the church was repaired and, by chance, a part of the Mosaic which covered the floor was unearthed. We went down a few steps to the cave, which is lit up by many candles, where the exact spot, according to tradition, Jesus was born. A large silver star marks the spot, encircled with the Latin legend: 'Hic de Virgine Maria Jesus Christus natis est.' Fifteen lamps are suspended above this star. six of which belong to the Greek Orthodox Church, five to the Americans, and four to the Latins. A few feet directly opposite the star is the Chapel of the Manger where Jesus was laid. In the Chapel of the manger is the altar of the adoration of Magi, dedicated to the wise men from the east. This altar belongs to the Romans. Going further into the cave one comes to the Latin Church of St. Catharine, through which one can still go to more distant parts of the cave. Here is the Sepuichre of Jerome, the translator of Holy Writ into Latin. There is a painting here which shows St. Jerome holding a Bible.

"From here we went to the Milk Grotto and on the way one gains a wonderful view of the wilderness of Judea, which lies to the east, and in a valley close by is the field of the shepherds. Here is is said that the shepherds watched their flocks by night at the time of the birth of Jesus.

"There are several monasteries built around the Church of Nativity. Then there are many shops close by which sell 'souvenirs from Holy Land.' And close by are shops which produce these souvenirs, this having been the chief industry of Bethlehem for several centuries. From here we retraced our steps back to the Old City of Jerusalem where we visited Mt. Zion.

"Old Jerusalem is surrounded by a wall. We entered the Jaffa Gate and beside it is an ancient citadel called the Tower of Zion or the Tower of David. This citadel stands where Herod the Great built his palace. This citadel is situated at the highest point of the Old City of Jerusalem. From here we proceeded to David's Street and walked on to the Zion Gate passed through and were on the hill now known as Mt. Zion. Just opposite the Zion Gate is the Armenian Monastery of Mt. Zion on the site of the House of Caphais, where Christ was questioned and finally sentenced to death. Near the Armenian monastery is shown the spot where Peter denied Jesus and on the eastern slope of Mt. Zion there is a church named after Peter.

"Not far away is the Coenaculum, now in the hands of the Arabs From the courtyard we

Reporter's Lament

I work and stave to make a deadline.
I try to hunt news but I don't have time.

I rush from one class to the next.
I write my column when I should be using my text.

Joe won't tell me about his date.
And Mary won't say why she got in late.

I try to find out all about you guys,
But all I get is a lot of lies.

Bricker Supports Rhodes

At a GOP rally held at Central High School Tuesday night Governor John W. Bricker stated he would support James A. Rhodes as his choice for mayor of Columbus.

In regard to Rhodes the governor of Ohio said:

"Columbus ought to have good government. It is among the best cities in the nation. I have the confidence that if Jimmy Rhodes and these four candidates for council (Ray C. Hauntz, James S. Hale, Robert T. Oestreicher and Col. Alfred Ballin) are elected, Columbus is going to have a government of which it can be proud."

He further stated, referring to Rhodes participation in Knot Hole Gang activities:

"There is something mighty good in the heart of a man who will give his time to the children of the community."

Ray Hauntz who has been confined to his home some time was unable to attend the rally but Joseph R. Jones spoke for him.

Biblical History—

(Continued from Page 1)

climbed to the second story and entered a hall, which has been converted into a Moslem place of worship, and stands on the site of the Last Supper of Jesus, and where Jesus celebrated the first night of Passover. From this hall we went up a few steps and entered another room in which, acording to tradition, is the Tomb of King David. From the tomb of David we passed on to a beautiful German Church known as the Church of Dormition, containing a small museum of Palestine antiquities, with a collection of stone slabs inscribed with Hebrew characters. From here we proceeded to the Mount of Olives.

"We came to a small church, known by the Christians as the Church of Ascension, and it is their belief that from here Jesus ascended into Heaven. There is a circular chapel here, in the floor of which is a stone slab bearing the print of the heel of Jesus. From the top of the Mount of Olives one can get an excellent view of Mt. Moriah. Close by the Church of the Ascension is the Church of the Lord's Prayer (or Pater Noster). According to Christian belief Jesus taught his disciples to pray the Lord's prayer here, which is the reason for there being tablets of the prayer in 32 different languages in this church.

"From the Church of Pater Noster a road leads down to the Tombs of the Prophets, belonging to the Russians. Then from here is another road leading to the Garden of Gethsemane. To the left of the road is the Church of Gethsemane, or the Church of All Nations, which was built in 1927. It is very modern, with marble floors, stained glass windows, and with the coat of arms of all the nations in the ceiling. The Church of All Nations belongs to the Franciscans. The ceiling is covered with panels in colored and gilt mosaics. Each of these mosaics, which represent various principles in the life of Jesus, is the gift of a different country. One represents our country. Before the altar of the church is a large rock on which it is supposed that Jesus and his disciples rested and is known as the Rock of Agony.

"In the Garden of Gethsemane are several olive trees which are the remains of the large olive groves which used to cover the slopes of this mountain. Continuing on there is a road leading to a tomb cave known as the Garden Tomb, which is the property of an English society and is believed by some authorities to be the site of the Sepulchre of Christ. But tradition and archaeology oppose this theory and most people look upon the tomb as the last in a nearby cemetery. On a hill close by are some cavities in a huge rock which resemble the human face. Also further up the Mt. of Olives one can see the Russian Church of St. Mary Magdalene, surmounted by seven domes.

"From here we returned to Jerusalem and were given lodging at San Remo Hotel and were instructed to be ready to start our second days' tour by 8 o'clock the following morning.

"On the second day of our tour we were taken to the Church of the Holy Sepulchre. We came to the Via Dolorosa by which is meant the road trod by our saviour from the Praetorium to Calvary, or 'Way of the Cross'. The scenes enacted along the way are fixed in 14 stations, indicated by a number or by an inscription.

"The first station is the Praetorium or the Pilate's Judgment Hall where Jesus heard the sentence of death pronounced. Opposite this building is the Church of Flagellation, and the Chapel of Scourging, where our Divine Master was scourged and a crown of thorns placed on his head.

"The second station is where Jesus receives his cross, and is opposite the Chapel of Condemnation.

"The third station is where Jesus falls beneath the Cross as he could no longer support the weight of the instrument of his death. This station is marked by a cracked column.

"The fourth station is where Jesus met his mother. This site is marked by the Armenian Catholic Church which is called "The Church of the Spasm" or "St. Mary of the Spasm'. There is a mosaic here on which there is a representation of two feet which are supposed to indicate the spot where the Mother of Jesus stood when he passed carrying his Cross.

"The fifth station is where Simon the Cyrene was forced by the Roman soldiers to help Jesus to carry his Cross. There is a small Franciscan Chapel on the corner of the street which marks the place. There is a slab stone with a depression in it in the wall of this hapel, where it is said Jesus rested his hand.

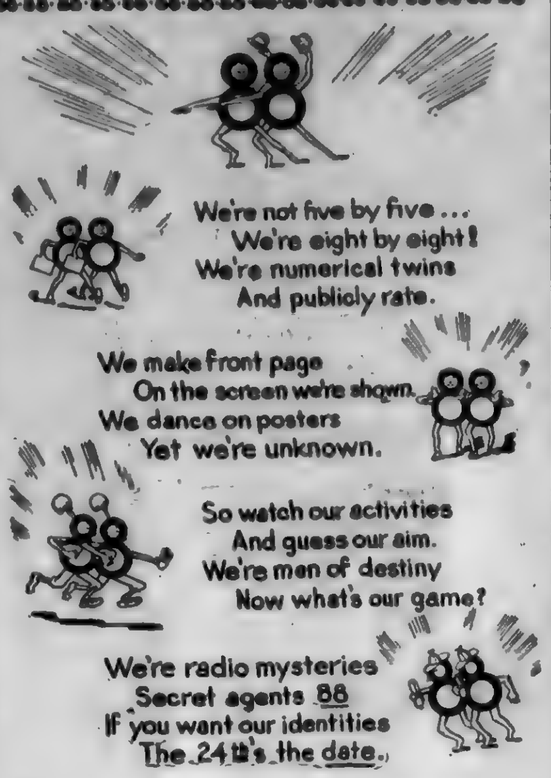
"The sixth station, marked by a Chapel of the Greek Catholics, the House of St. Veronica, is where a lady wiped the sweat and blood from the face of Jesus, and the imprint of his features remained on this cloth.

"The seventh station is where Jesus falls the second time. This is called the 'Gate of Judgment' as this is where the 'Porta Judiciaria' stood, the gate through which Christ was led out of the town to Mt. Cavalry. It is said that a copy of the sentence of death pronounced against Jesus was fastened on one of the interior columns. This site is now marked by a chapel for the Franciscans.

"The eighth station is where Jesus speaks to the daughters of Jerusalem and this site is marked by the Greek Monastery of St. Charalampos.

"The ninth station is where Jesus falls the third time, which is indicated by a column enclosed in the pillar of the door of the Coptic Church, behind the arched alcove of the Basilica of the Holy Sepulchre. This brought us to the end of the Via Dolorosa.

"Above the Basilica is a sanctuary which is divided into two chapels. The one to the right belongs to the Latins and here are the scenes in respect to the tenth and eleventh stations of the 'Way of the Cross', which are the 'Chapels of the Nailing to the Cross'. The one to the left belongs to the Greeks and stands on the same rock which held the Cross, and where Jesus expired. This is called the 12th station and the 'Chapel of the Raising of the Cross'. On each side of the altar a disc in black marble marks the place where the crosses of the two thieves crucified with the Saviour are supposed to have stood.



"The thirteenth station is where the body of Jesus was taken down from the Cross. Between the two chapels is a small altar dedicated to Our Lady Of Dolours which belongs to the Franciscans. This statue is covered with a wealth of jewels and gold donated by princes and pilgrims.

"Next we entered a circular hall with a high dome, the Rotunda. In the center of the Rotunda is the Holy Sepulchre, which is the fourteenth station. Next we entered the Angel's Chapel in the center of which is a stone set in marble said to be the one which closed the door of the sepulchre and was rolled away by the Angel. The tombstone is covered with marble slabs, the uppermost of which is cracked, and serves as an altar. From the ceiling, which rests on marble columns, hang forty-three lamps belonging to various sects.

"From the Rotunda we entered another large hall, the Catholican Greek Cathedral. In the center stands a column of stone said to mark the center of the earth, by which is meant the beginning of religion. The Church of the Holy Sepulchre is built on the hill of Calvary, of Golgbotha. It is related that Adam is buried here. Just inside the entrance of the church is the 'Stone of Unction', upon which the body of Jesus was anointed.

"The post of custodian of the Church is hereditary in a Jerusalem Moslem family, who keep the keys.

(More will follow in next week's issue of the Record).

Stops Basement Leaks

If your basement leaks, now is the time to fix it. A simple, easy way that the home owner can do himself, is now available at your neighborhood store.

Where water is running, make a pat of this guaranteed compound and hold it against the leaking spot for five minutes, it will harden even against direct water pressure.

Your local grocer, drug store or hardware store has it or you may call the factory representative, G. G. Coffin, Ra. 9989.

Stationed With Signal Corps

Pvt. Robert H. Womer

Pvt. Robert H. Womer, son of Mr. and Mrs. Homer T. Womer, 1421 Harrisburg-pk, is now on duty with the signal corps in North Africa.

Following are excerpts from a recent letter from Pvt. Womer.

"I am really black, you see I get to go swimming when we are not on duty. When you lie around in this African sun for a few hours it really shows up for a good brown tan.

"I have begun to speak a little French. At least I speak enough to carry on a conversation. You know it really helps to be able to speak it, for you can talk to the French people then. They are very nice folks and can't seem to do enough for you I have had meals in French homes and let me tell you for what little they have over here they really get along very nicely. I don't know how they do it.

"Where we are located now the Arab class of people seem to be very wealthy. They dress in fine, expensive silk robes, and have a very neat appearance."

A graduate of West High school in 1939, Pvt. Womer entered the army Nov. 27, 1942. He was formerly employed by the Ohio Bell Telephone Co.

A Good Job

Although the furor of the primary campaign in politics has somewhat died down in Columbus, we should keep in mind that the real election comes in two weeks.

While the Hilltop Record has taken no stand in the primary campaigns, some mention should be made of Robert M. Drapers' fine performance as a member of the school board. Mr. Draper is up for re-election and deserves the full support of the Hilltop electorate. He has attended to the business of the schools—minded his own business—and served the public without fanfare or dramatics.

He is a first rate public servant.

Local Grocers Purchase Car-Load Of Flour

Over the past ten years, local Hilltop independent grocers have earned the much deserved reputation of being the most aggressive, best organized group in the state. Now they have stepped out and done what many grocers organizations have been talking of but doing nothing about for the past several decades.

Hilltop grocers have pooled their buying resources and have purchased a solid carload of the new super-enriched Gold Medal "Kitchen-Tested" flour, 7600 bags. This flour has been enriched to the new high level just set up by the War Food Administration. This carlot purchase was delivered on the siding of the Jones Lumber Co., 57 N. Sylvan-av. Independent grocers took delivery of this Gold Medal Flour right at the car with their own trucks, thus eliminating all extra trucking and warehousing expense. These savings are being passed on to the Hilltop housewives who purchase their winter's supply of flour during this carlot sale.

Firms which purchased from this carload are listed in an ad which appears in the second section of this issue.

Cowboys In Lead

By Joe Case

Real football weather prevailed as an all-out crowd cheered the Buckaroos in their 3rd victory of the season and 2nd victory in city league competition which put them at the top of the league.

Last Friday afternoon on West's home field, the Buckaroos literally roped the Aquinas Terriers in an all-out important city league contest by the score of 7-0. Sparked by a superior charging line which was impregnable on defense and a more deceptive, powerful, and shifty backfield outsmarted them throughout the [illegible]

Although marching up and down the field almost at will the Buckaroos were able to hit pay dirt only in the 2nd. quarter. The same Blackwell who went wild last week, took the ball on his own 23 and raced 52-yds. down the sidelines only to be brought down from behind on the Terriers 25.

A few line plays failed, a pass was good to the 14 and Ison drove to the 9. Blackwell was through to the 2 and was credited with a first down. Gilmore and Ison both failed against the onslaught of their main line.

On a quarter-back sneak Slager drove over for the only tally and Ison made good his conversion.

After the half a long pass from Seiple to Thomas from the 32 netted a total of 51-yds, and put the ball in scoring territory on the 17. Immediately this threat was put down as Mowery intercepted a short pass on the 23. The ball exchanged with either team getting the upper hand until late in the game when an intercepted pass gave West the ball deep in their territory but the gun ended the attempt.

West vs. East

In their third city league contest, the West Cowboys will invade Easts' Harley Field at 3:15 this afternoon. A fast eleven, which tied with North 7-7 in its first city league encounter, look to give the local fighters some heavy opposition.

Soloists Named To Take Part In Anniversary

When Hilltonia United Brethren Church 522 Columbian-av, celebrates its 16th anniversary on Oct. 31, they will present three soloists during the morning and afternoon services. Mrs. Ray Steelman, soloist at Broad Street Presbyterian Church will be heard in the 9:30 a. m. service. Mrs. Steelman is the wife of Tech. Sgt. Ray Steelman now in the armed forces in North Africa. Before his entrance into the service, both Mr. and Mrs. Steelman were very active in Columbus Music circles and were members of the choir of Broad Street Presbyterian Church.

Miss Jean Dhume, daughter of Mr. and Mrs. Ross L. Dhume, 46 N. Burgess-av, will be the guest soloist in the afternoon and will sing two numbers. Miss Judy Rickenbacker, daughter of Mr. and Mrs. Roger Rickenbacker and one of the younger members of the Hilltonia congregation, will be the soloist when the children's choir sings in the afternoon service.

As previously announced, the evening service will be entirely musical with the Otterbein Glee Club presenting the entire program under the direction of Prof. A. R. Spessard.

Your Questions Answered On How To Obtain War Ration Book No. Four

Here's how to obtain the new War Ration Book Four, which will be needed starting Monday, Nov. 1, to buy rationed processed foods, and sugar. These questions and answers were released today by the Office of Price Administration.

Where should I go to get my Copy of Book Four?

War Ration Book Four will be distributed through school or public buildings next week, Oct. 24-30.

Wednesday, Oct. 27, 1:00 p. m. —6:00 p. m.—A—F—inclusive. Thursday, Oct. 28, 1:00 p. m. —9:00 p. m.—G—N—inclusive also, for all war workers. Friday, Oct. 29, 10:00 a. m.—5:00 p. m. —O—Z and for all others who failed to register during the other days.

May one person get copies of War Ration Book Four for the entire family?

Yes. One individual may obtain War Ration Book Four for all members of the family who live at the same address.

What should I take with me when I apply for Book Four?

Bring War Ration Book Three for each member of the family. Book Three will serve as a speedy and convenient method of establishing identity.

Are there any exceptions to the requirements that Book Three must be presented to obtain Book Four?

No. All persons who apply for Book Four must have on hand their copy of Book Three. If they also apply for other members of the family, they must present the Book Three issued to these individuals.

I was overseas most of the summer and did not get a copy of Book Three. How will I be able to get Book Four?

Apply at your local rationing board for a copy of Book Three. This should be done immediately, as it takes several days to handle an application of this type.

My copy of Book Three was lost several days ago. How do I go about getting another one?

Application for a replacement of Book Three should be made at your local board.

Will Book Four be issued to members of the armed forces?

Yes. Members of the armed forces who were eligible for Book Three because of their regular need for ration stamps to buy rationed foods, may obtain Book Four if their status has not changed.

Why isn't Book Four being mailed to consumers, as was the case with Book Three?

Schools are being asked to distribute the new book, as there was insufficient time between completion of mailing Book Three and the date when Book Four will be used to organize the necessary facilities to handle applications by mail.

When will War Ration Book Four be used?

It will be used beginning Monday, Nov. 1, for the buying of rationed processed foods, and sugar.

Which stamps will be used for this purpose?

Your November ration of processed foods will be bought with green stamps of series A, B and C. These will be good from Nov. 1 through Dec. 20. Stamp number 29, which is marked "Sugar", will be good for five pounds of sugar from Nov. 1 through Jan. 15, 1944.

Will I continue to use the blue stamps in War Ration Book Two for processed foods?

Yes, through Nov. 20. At that time Stamps X, Y and Z, the final series of blue stamps in War Book Two, expire. Between Nov. 1 and Nov. 20, the housewife will be able to buy processed foods with A, B and C green stamps in Book Four, and the X, Y and Z blue stamps in Book Two.

What is the difference between the green stamps in Book Four and the familiar blue stamps in Book Two?

With the exception of color and size, the green stamps are smaller, there is no difference. Each series of green stamps contains stamps with a point value of 8, 5, 2, and 1, the same arrangement as that for the blue stamps. You will buy processed foods with green stamps just as you did with blue stamps in Book Two.

Why are green stamps, instead of the blue, being used in Book Four for processed foods?

Green stamps are being used on an interim basis until ration tokens are used early next year. At that time the blue stamps will again be used.

City Farmers Reap Bumper Garden Crop

Westgate Victory Gardens yielded a "bumper" crop of fresh vegetables to the city farmers who planted there last spring. The 10 acre plot is located at Fremont-st, and Westgate-av, and 130 Hilltop families participated in the cultivation of the gardens.

Among the crop reaped from the spring planting were 400 bushels of tomatoes, 175 bushels of string beans, 100 bushels of lima beans, 50 bushels of mangoes, 1000 dozen ears of corn, 4000 heads of cabbage, 75 bushels of peas, 200 bushels of carrots, 200 bushels of beets, 300 bushels of cucumbers along with miscellaneous vegetables such as lettuce, endive, turnips and spinach.

Lots should be cleaned and cleared with the inside lot stake removed by Nov. 1 to allow the fall plowing to begin. Fees for next year are $1.50. This is to cover the cost of plowing, otherwise the project is free. Subscriptions for plots next year should be turned in by Nov. 24. Anyone who doesn't desire to use his lot next year is asked to notify the secretary so the lot can be turned over to one of the persons on the waiting list.

John Rohr, 255 Binns-blvd, is secretary of the Westgate Victory Gardens, and he is aided by Joe F. Ryan, 173 Demorest-rd.

Returns From 18 Months Service In Pacific To Train With Air Corps

By Jean Young

From a soldier's point of view who has just returned from the Pacific islands, they are not what they are pictured as in Betty Grable and Dotty Lamour movies. It's mud, bugs, and thickets.

Johnny O'Neil, former Hilltop resident and student of West High school, returned home Friday morning after 18 months service in the South Pacific with the Army. He landed in San Francisco, Oct. 7, 18 months to the day from the time he left the United States.

They stopped at Hickam Field to refuel.

From Hickam field on, the flight was calm and cloudy until they got over San Francisco. Then the clouds broke and the first part of the United States Johnny had seen in over a year lay stretched out before him.

"I can't explain the thrill I got. You just have to feel it for yourself to know," he said.

He left San Francisco aboard train Monday night and arrived in Columbus Friday.

Returning after being away that long didn't find Columbus changed much for Johnny except for the new boulevard up north and a few buildings that have been razed. A good bed and food were the most welcome items on his return.

"Mom grabbed me before I got out of the cab at home," he smiled.

The island from which Johnny came is a pin point on the map and inhabited by black people. The only regret he felt at leaving was the thought of parting with a buddy, Charles W. Ogg, who has been with Johnny since the O.N.G. went to Camp Shelby in 1940.

Johnny told us about a bay down there that was an inlet

Sites Of Biblical History From Nativity To Ascension Visited By Hilltop Soldier On Furlough Overseas

(Editor's Note: The following article is a continuation of the story which appeared last week and it will be printed a portion at a time, until it is complete.)

By Denver S. Hastings

"Next place we visited was the Dome of the Rock. Jerusalem really consists of two towns, the old town within the walls, and the new one built outside of them. This wall now has seven gates, the most important of which is the Jaffa Gate. Entering the old City through the Jaffa Gate we followed the streets through the market district until we came to the street known as the Street of the Chain. In a few minutes we came to the Gate of the Chain, which leads to the Dome of the Rock. Inside a Mosque, called the Mosque of Omar, a sacred rock is surrounded by a railing.

"Leaving this place we next followed the streets which led us to the Wailing Wall. This is one of the most holy Jewish shrines. It is a relic of the Western wall that surrounded the Temple Mount in olden times It is stated that three of these walls were destroyed during the siege of Jerusalem. For hundreds of years the Jews have been making pilgrimages to the Wailing Wall in memory of the destruction of the Temple. They assemble here at sunset to pray and to lament, especially on the eve of the Sabbath and on Feasts.

"Just opposite the north east corner of the city wall is the Palestine Archaeological Museum, situated on a spot near the Jerusalem and Jericho road. This building was built by the Government of Palestine with a fund of two million dollars granted in 1927 by John D. Rockefeller, and was planned by the architect Austin St. B. Harrison. It is one of the finest buildings in the Near East. Besides numerous galleries for the exhibition of Palestine antiquities, it houses also the offices and laboratories of the Museum and the Department of Antiquities. The library consists of about twenty thousand volumes. There is a spacious reading room for students of Archaeology.

"Next we visited the Quarries of Solomon and the Stables of Solomon. Solomon Quarries are known by the Jews as the Cave of Zedekiah. It is said that the last King of Judea fled through this cave but when he reached the plain of Jericho he was trapped and taken captive by the enemy. This cave also served as a quarry where rock for the buildings of Jerusalem was secured. Also the stone for Solomon's Temple was quarried here. This cavern extends several hundred yards into the mountain and branches off in several directions. It extends under the Old City of Jerusalem and lies far blow the houses.

"Next we proceeded on to Jericho along the road which winds eastward through the hills of the Wilderness of Judea. In this road are seven hairpin bends which are called the Seven Sisters.

"Along the way is a building by the roadside which the Christians call "The Inn of the Good Samaritan." A place close by was pointed out and said to be the place where a man was severely injured and robbed and cared for by a Samaritan. This is claimed to be the Inn referred to by Jesus in a parable.

"Continuing on we reach the city of Jericho which lies in a very beautiful valley. It lies 820 feet below sea level and has a population of 3000 inhabitants, mostly Moslem Arabs, a few

Urge Renewal Of Three-Mill School Levy

R. H. Reighley, principal of West Junior and Senior High Schools on being interviewed concerning the 3 mill school levy gave the following information:

"Citizens of the Hilltops will be among other Columbus voters who will have the opportunity to express their opinion Nov. 2 at the polls, for the renewal of the 3-mill school levy.

"This levy has been granted each 5 years for the past quarter of a century. It furnishes 1-3 of the total income of the Columbus Public Schools. Expenditures of the 75 public schools in Columbus are modest, being next to the lowest among the eight large Ohio cities in per pupil cost.

"A total of 43,300 boys and girls attend day and evening schools in the city. There are 4,469 of these enrolled in west side buildings. Attending West Junior and Senior High schools are 2200, at John Burroughs, 1000, at West Mound, 83 at Highland, 516 and 666 at West Broad.

"Regular program for these young people is the first responsibility of the Board of Education in asking the people to continue to provide the income from this levy. However, other factors determine the cost of the right sort of an educational program. Hilltop school buildings have been much used for war service meetings, such as those for Air Raid Wardens, Civilian Police and Red Cross. Also the Hilltop community has been benefited this summer by the free use for gardens, of six acres of ground in Westgate, owned by the Board.

"It is important to emphasize," pointed out Dr. Reighley, "that the renewal of the 3-mill levy is necessary for the continuation of the present educational program, and that its approval does not increase the present tax rate."

Biblical History—

(Continued from Page 1)

Christians, and a few Jews. Old Jericho is situated about 1¼ miles further away. At the foot of Old Jericho is the Pool of Elisha. The Bible mentions of Elisha the Prophet, who visited Jericho. Then to the west of Jericho is a mountain which is sacred to the Christians. They say that Jesus was brought here and fasted for forty days and forty nights, and Satan appeared before him but could not lead him into temptation. There is a monastery on the side of this mountain and a large building on top of it. It is called the Mount of Temptation.

"We retraced our steps to Jericho and followed the road to the Allenby Bridge which crosses the Jordan River. At one end of the bridge is the Palestine Police Station and on the other end is the Transjordan Police Station. The road which crosses the bridge is a highway to Amman, the capital of Transjordan. The Jordan River begins at the Sea of Galilee and flows into the Dead Sea. It is about 80 miles in length and located on the boundary line between Palestine and Transjordan. During the first World War there were many skirmishes and encounters between the Turks and the British in this vicinity. The British seized this passage over the Jordan, so after the war this bridge was built and named in honor of the Commander-in-chief of the British Forces, Lord Allenby. It is 24 miles from Jerusalem to Jericho, and 5 miles from Jericho to the Allenby Bridge.

"Then from here we returned to Jericho and followed the road which leads to the Dead Sea, which is 14 miles from the Allenby Bridge. The Dead Sea lies 1280 feet below the Mediterranean and its shores represent the deepest depression on the globe. It is surrounded by mountains. It is about 47 miles in length, 9 miles across at the broadest point, and the greatest known deepth is 1300 feet. This Sea is noted for the various minerals which it contains, which differ from those found in ordinary sea water. Because of the immense salt concentration it is impossible for anything to live in this water. We were allowed a little time to go swimming here and the water is so dense that it is impossible to be downed in it. One can float on top of the water without putting forth any effort at all. There is a bathing beach, a hotel, and a restaurant here, and it is fast becoming a summer resort.

"We proceeded on to Haifa. Haifa is now the third largest city in Palestine, having a population of 120,000 inhabitants, of which 70,000 are Jews, a few Christians, and a few Moslems. It is situated at the foot of Mount Carmel and is an active commercial and manufacturing center, with a new harbor built in 1933. Haifa is not mentioned in the Bible. We followed the road which climbs Mt. Carmel, where we had a wonderful view of Haifa, the bay, the town Acre, the Valley of Zevelun, the river Kishon, and the mountains which surround the Sea of Galilee.

"It was a clear day and we could see the snow-capped peak of Hermon. Elijah the Prophet spent much of his time on the Carmel, and it is associated with many of the important events of his life. The Christian Arabs call this mountain the Mount of Saint Elijah.

"Continuing on we came to a large convent of Carmelite monks, which stands 558 feet above the sea. This convent is built over a small cave associated with the Prophet Elisha, the disciple of Elijah. On the altar stands an old woodcut representing Elijah, and also a statue of Our Lady of Carmel. On the ceiling of the hall are Latin quotations from the Bible relating to the Carmel. Above the cave is a marble statue adorned with heavy jewelry, known as Notre Dame du Mount Carmel.

"The entrance to the monastery contains a small collection of antiquities. In the garden opposite the monastery gate is a monument marking the spot where some of Napoleon's troops fell in the siege of Acre, when the monastery served as a hospital. From here we went to the Weiss Hotel in Haifa where we spent the night.

(More will follow in next week's issue of the Record).

THEIRS IS THE GREATER SACRIFICE

Giving is Fighting, too!

Help Our Boys Over Seas . . . Help Keep America AMERICA!

Give for Victory . . . 2 DAYS PAY or MORE for 44

All of us . . . our boys fighting across the seven seas, we plain American citizens here at home . . . all are part of the power and the glory which is America. The boys are doing their part magnificently. Their spirit of sacrifice knows no bounds. It is for us to match their fighting with our giving. At least 2 days pay! Providing for the whole year of 1944 for 88 war-and-home agencies. A helping hand to our Allies with their bombed cities, hungry people, orphaned children . . . aid to American Boys in Axis prison camps . . . a few hours of home-like recreation when they are off-duty . . . and constant vigilance to keep home the place where fighting men know their loved ones are safe and that hospitals, clinics, visiting nurses, settlements and nurseries are on the job. Let's pack our giving in 1943 into this one War Chest and fight with our dollars.

How You Can Help Save Vital Electricity

WE are glad to cooperate with the War Production Board in urging all our customers to conserve electricity wherever possible.

There is no shortage of electricity in this community, but you should remember that the production of electricity involves coal, transportation, equipment and manpower—all needed in the war effort. Therefore, we suggest:

IN YOUR HOME

Eliminate all waste in the use of various electric appliances.

Turn off lights and appliances when not actually needed.

AT YOUR BUSINESS

Eliminate decorative and ornamental lighting.

Eliminate daytime use of lighting—as in signs and show windows—wherever possible.

Day or night—turn off lamps not actually needed.

Electricity and eyesight are both important in fighting a war. Let's conserve them both.

Don't Waste Electricity just Because it isn't Rationed.

RETURNS FROM—

(Cont. from Page One)

from the ocean where the boys liked to swim. One day while they were enjoying a swim they were told the bay was shark infested. "That didn't bother us, we kept right on swimming there."

One of the greatest amusements of the boys on this island are the American records the Japs broadcast with remarks in between, such as: "Remember the moonlight nights on the river with your girl friend back home" or "Remember the hamburgers down at Joe's place." The point behind their efforts, Johnny explained, was to break the morale of the soldiers but instead they get a hearty laugh from it.

Johnny said he hadn't heard many of the latest song hits down there but as soon as he alighted from the plane in San Francisco "Pistol Packin' Mama" fell on his ears and he heard it clear across the states.

At the end of his 30 day furlough, Johnny will report to Kessler Field, Miss. for training as a pilot in the air corps. At the completion of his training he will be commissioned a second lieutenant in the air corps.

Victory for Vegetables

If vegetables are the rock on which your family founders, why don't you try preparing them in new, beguiling ways? It's a sad commentary on American cookery that most of us eat vegetables because we OUGHT TO—not because we WANT TO. And it's our own fault, too, for we seldom cook them with imagination. Worse yet, we seldom cook them the right way.

We have about forty different kinds of vegetables in our markets during the span of a year, and they are some of the finest vegetables in the world, with vitamins and minerals simply teeming under their skins. And what do we do with them? Mostly we just boil them. Boil the very vitals out of them, then try to sell them to our families on the strength that these pappy vegetables are good nutrition.

What a hoax we housewives have been playing on ourselves! For we have, by such cooking methods, unwittingly been violating nearly all the rules for retaining the nutrients we need. Check yourself by this list and see:

1. Cook vegetables quickly in the least possible amount of boiling salted water, just until tender.
2. Boil down any water left in the pan after cooking fresh or canned vegetables, and serve over hot vegetables, or save to use later in soups and stews and sauces.
3. Whenever possible, steam vegetables. If you have a small pressure cooker or a steamer left over from pre-priority days you are in luck. Cooked this way vegetables require a minimum of time and water.
4. Avoid unnecessary stirring when cooking vegetables.
5. Avoid putting vegetables through sieve while hot.
6. Start frozen vegetables cooking while they are still frozen.
7. Never add soda to vegetables in cooking. Soda destroys vitamins and does not improve flavor or texture.
8. When possible, cook vegetables whole, with the outer coverings left on.
9. Pre-cooking preparation also is important in retaining food values in vegetables. If you must peel and chop, pare paper thin, for the richest nutrients lie closest to the skin.
10. Never let peeled or chopped vegetables stand in water before cooking.
11. Shell green peas and lima beans just before cooking.
12. Cook potatoes immediately after paring.
13. Scrub carrots and parsnips with a vegetable brush rather than paring and scraping. Skins may be slipped off after cooking.
14. Cut carrots, parsnips, and other long vegetables lengthwise rather than crosswise, because they are long-celled and nutrients are less likely to escape.
15. Carrots, cabbage, or any vegetables to be shredded, should be cut just before using to avoid the loss of vitamins when so much surface is exposed.

Now all of this is to the good, but it's not enough to promote vegetables to prominence on your dinner table. Really, to catch the family fancy, you must also serve them well! Tone vegetables up with imaginative touches—dress them with seasonings and sauces that will give them glamour. A quick sauce, like tomato ketchup, can be added to vegetables in cooking, poured over them as sauces, or used to crown them with a crimson capping that will enhance their color, their flavor, and appeal. Here's how:

Broiled Corn

Spread in shallow baking pan—
1 No. 2 can whole kernel corn, drained.
Sprinkle with—
½ teaspoon salt.
Pour evenly over surface—
3 tablespoons tomato ketchup.
Cut into small pieces, then dot over top—
2 strips bacon.
Place under broiler 375° F. 10 to 15 minutes or until bacon is crisp and brown.

Marinated Egg Plant

Slice in ½ inch slices—
1 medium egg plant.
Sprinkle with—
Salt.
On each slice spread a thin layer—
Tomato ketchup. Stack slices in bowl and let stand 1½ hours.
Dip each slice in—
Flour or crumbs.
Fry until crisp and golden brown in—
Deep fat.

Mexican Onions

Slice—
3 Medium Bermuda onions. Cook in large amount of boiling salted water until tender. Drain in colander, then run hot water through them.
To make sauce, melt in pan—
4 tablespoons butter.
Add, blending well—
2 tablespoons flour.
Cook until bubbling, then add—
1½ cups milk. Cook, stirring constantly, until thickened.
Add—
½ cup tomato ketchup
½ teaspoon salt
Dash pepper.
Add onions to sauce and cook until heated through. Serve hot as creamed vegetable. Serves 8.

Guest Speaker

Westgate Evangelical Church S. Powell-av, will observe its fourteenth anniversary Sunday, Oct. 24. There will be morning worship at 10:30 a. m. and an afternoon service at 2:30.

R. A. Sain is the pastor.

ROSALBA

She is so lovely where she stands
With monolight flowing round her,
I dare not touch her with my hands.
Only my eyes in wonder.

Gaze and are filled and satisfied.
Moon-shimmer on her glancing
Gives to her play of white and shade
The grace of angels dancing.

As cool and fresh as spring, her veins
Run luminous with summer;
Reserve that never quite restrains
The blushes that become her.

The night has cast a spel on me;
My heart with doubt is laden.
Is this young girl a white rose-tree
Or this rose-tree a maiden?

—Ruby T. Scott

SUCCESSFUL STRATEGY

Love never falters, nor says, "By your leave,"
When it's April, and he has a romance to weave;
He's concerned with a plan
For a maid and a man,
And a beautiful story to make them believe.

He pictures a house with a rose at the door,
And a little new garden to love and adore,
With a dog for a pet,
And a new bassinet,
And teddy-bears, dollies, and booties galore.

Thus he slyly manipulates guillible boys,
Makes girls believe life will be crammed full of joys,
And then when they kiss
He's a picture of bliss
And prouder than Punch of the skill he employs.

HALO

Your kiss fell on my hair because
I turned my head.
The beauty of its lightness slowly grew
And spread
In widening circles over me like ripples
From a stone.
I have a tiny halo now of gold,
All my own.

INSULTED BY UNCLE SAM

I was insulted by Uncle Sam
I heard it in a roundabout way
He said I was a bluff and a sham
And too old for the fray
I call that a slur and a slander
An insult if you please
Cos I can fight daylight or night
And whip Nineteen Japanese.

And why shouldn't I feel insulted
I was not treated right
At no time was I ever consulted
And asked if I could fight.
But I will keep in condition
Get war glasses for my eyes
Immediately change my disposition
Then Sam will apologize

WRITE A LETTER!

"Write long letters with plenty of news from home. To me it is like getting a million dollars!"

A Hilltop boy now in Africa wrote the above in a letter to his parents recently. When he said "me" he was speaking for the millions of men in the service of our country who value a letter from home. No gift or money could replace a letter from home when you are that far away.

To add interest to your letter include a couple of recent snap shots. It's been a long time since he has seen you or the neighborhood surroundings. Home will be a little closer to him that way.

A BETTING FOOL

This tale was told by a traveling man
One night in my railroad station
I'll recite the story as near as I can
With only a slight deviation.
Said he met a man on an excursion train
Who would bet and take either side
In one hour, he'd bet, it would snow or rain,
Or the Engineer was cross-eyed.

Wanted to bet a man he be sent to the pen
For stealing chickens or a horse,
Offered to bet fat men from one to ten
Their wife would sue fo rdivorce.
Then a bomb edploded under the track,
He shouted sailing thru the blue
I'll bet all my jack I'll beat you back
And I'll go higher than any of you.

A former student of West High School and Hilltop resident, he is the son of Mrs. D. F. Goble, 1035 Bellows-av.

Pfc. John H. Bieber, 116 Eldon-av, ranked second in the latest class graduated from the Army Air Forces Training Command radio school at Scott Field, Ill. He is now at Flexible Gunnery School at Fort Myers, Fla. Before entering the service in March he was employed by Curtiss Wright in the airplane division. He was a graduate of West High school.

Lt. Alva Adams Wins D. F. C.

Second Lieutenant Alva Adams, of the U. S. Army Air Forces, winner of the Distinguished Flying Cross and the Air Medal, returned home recently after 11½ months in the Southern Pacific war zone.

Lt. Adams graduated from West in 1940.

Lt. Adams base was on the island of New Caledonia, a small island in the Coral Sea group. As a pilot of a C-47 cargo plane, similar to the airline's DC-3, his job was to fly supplies to the boys on the Solomon Island and, then, on the return trip, bring back the soldiers suffering from malaria and wounds. During these flights his squadron was never escorted by fighter planes.

Adams told a class which he visited, "the best trick of the Jap pilots is to fly above Henderson Field at night and drop empty beer bottles from about 20,000 feet, while they are dropping to the earth they make a weird noise like that of a falling bomb." He also said "the Americans are now doing this to the Japs."

One incident that he will never forget was seeing an American B-24 bomber, returning from a bombing mission, being shot down by the gun crews on Guadalcanal during an air raid by the Japs. He said that the plane had given a signal and put on its landing lights but they must not have been seen by the gunners.

His first meal on Guadalcanal was a bowl of corn flakes and a little bit of water, which he carried in his canteen.

Hospitality Of English Revealed In Letter To Parents Of Sergeant Hoy

An Ohio National Guardsman, Sgt. John M. Hoy, now stationed in Suffolk, England, was among the first to be inducted into the armed forces, entering Oct. 15, 1940. He embarked for overseas duty last Dec. 7 and was first stationed near London, England.

Since being transferred to Suffolk, he has had occasion to visit with an English family who have their home near the camp.

Parents of Sgt. Hoy, Mr. and Mrs. James Hoy, 2413 W. Broadway, received a letter from this English family the early part of August. Dated July 5, the letter follows:

"No doubt you will wonder from whom this letter comes and what it is all about.

"We have met your son, John, in fact, whilst he is near to us, we believe he is coming to treat our home as—his English home—that is what we want him to feel anyway. He and his pal, Staff Sgt. Bob Stockdale are quite frequent visitors during their off duty hours.

"Both of the lads are o. k. and John is looking very well. I thought, to write you a greeting from England (and to let you know that John is alright) would be welcomed.

"We are sure they are enjoying their stay here in England, as much as is possible under the circumstances. We are very near to the coast here and as no doubt you will see by a gazeteer, Bungay is a very small town. Amusements are not too plentiful, so that it is up to all who can, to help the lads to make their stay as pleasant as possible.

"'Jerry' planes have not worried us much of late, although we still get occasional 'alerts' on the town siren. It is nothing to what it was even a few months ago. Of course, our worse time was 1940 and 1941. In those days we never expected to get a full nights' sleep and if we did, we considered ourselves very lucky. Let us hope that now those days are passing. Anyway, the Germans are now testing their own medicine.

"All we get at all hours of the day and night, is the throb of R. A. F. and U. S. A. A. F. planes going to and fro to the continent in their bombing raids. That music we do not mind.

"The firm by whom I am employed have suggested it may be necessary for me to visit the United States after the world has recovered its' sanity, so that I hope it may be my privilege to meet you and John together.

"My wife joins me in sending to you our kindest regards.

—Will Cottrley."

They make their home at "Henham Villa," Bardolph Road, Bungay, Suffolk. Their homes do not have numbers as ours do, but each is named such as the Courtney's.

This English family have attempted to make the boys feel very much at home. Mrs. Courtney saved from their ration food, enough to bake Sgt. Hoy a cake on his birthday.

In a V-mail letter received this week, John stated that he had chanced to again meet up with an old school friend, Lt. Jim Smith. Chums during their school days, both were sent to Camp Shelby, Miss., when the O. N. G. was mobilized, but were later separated.

John took Jim to the Courtneys where he had a welcome bath, after which they had a turkey dinner. Smith is the son of Mrs. Eva Smith, 34 W. Hinman-ave.

The Hoys have another son, Sgt. Carl D. Hoy who also entered the armed forces three years ago and who is now stationed at Shreveport, La.

FIGURES WAR'S END

Want to know when the war will end?

A man up Fremont way has it all down in black and white. The answer is this year, however he will not guarantee it.

Here's how it all figures out. Take the birthdays of the world's leaders and set them down in a line, thusly: Roosevelt, 1882; Churchill, 1873; Stalin, 1879; Mussolini, 1883; Hitler, 1889; Hirohito, 1901. Then, under them, put the year they took power, 1933, 1940, 1924, 1912; 1933 and 1926. Next are the years in power, 10, three, 19, 21, 10 and 17. Next their ages, 61, 70, 64, 60, 54 and 42.

Now add up the six columns, adding downward, each one totals 3886. Next there are two sides, the Allied Nations and the Axis Powers, so divide by two. The answer, all the way across is 1943.

Of course, the skeptics might point out that Mussolini is no longer in power and that might throw the thing out of kilter.

DANGER! WET LEAVES

It's fall—and most of the leaves have fallen. That is nature's way of preserving the foliage of the trees during the wintery winds and snows to come.

But—nature doesn't provide a way for their removal from the lawns and sidewalks.

When they become wet from pre-winter rains, they are very treacherous and if not cleared away, may be the cause of a serious fall to some pedestrian.

You do not desire, I know, to be responsible for such an accident—so let's remove those leaves as soon as possible.

Alumni Membership Progresses

George K. Hardy, president of the West High Alumni Association, announced this week the first week of the membership drive is making fair progress.

"For the information of those who have not been informed, the new membership card will admit the member to the West-South Homecoming Game on Friday, Nov. 12 and then to the dance in the evening which is to be held in the school gymnasium," Hardy stated.

All council members are asked to call Hardy at RA. 1878 as committees are being formed for the various activities and cooperation of the members will be needed, he pointed out. Any alumnus who has not been contacted on membership can also call the above number.

He said further:

The alumni are proud to make it known that two of its members and graduates of West High School are running for the Board of Education election. These two are Robert M. Draper and Miles V. "Cap' Hoover."

J. M. Jackson Is Elected President

Last Chance Today

Today is the last chance to register for War Ration Book Four at the nearest public school. The schools will be open from 10:00 a. m. to 5:00 p. m. and persons whose names begin with a letter from O through Z as well as those who have failed to register must do so at this time.

When applying for War Ration Book Four the applicant should present War Ration Book Three for each member of the family. This is to be used as a speedy and sure way of identity.

Anyone on the West Side who has not obtained War Ration Book Four from his local school house this week may secure a book or books for his family by going directly to the local War Price & Rationing Board at Franklinton School, Sandusky and W. Broad-sts after Thursday, Nov. 4. He must produce Book Three in order to obtain Book Four.

When the registration is closed in the schools all the records and extra books will be returned to the board and checked, so that it is impossible to begin immediately issuing books through the board to belated applicants.

Holders of the new Book Four may begin using them Monday for the purchase of rationed process food and sugar, but if they failed to register at their school, then they will have to wait until their local board is in position to issue the books. Thereafter persons discharged from military service and new-born babies may obtain their ration books through their local board by furnishing discharge papers or birth certificates.

Shoe Ration Stamp 18

Refuting unfounded scare-buying rumors that the validity of Shoe Ration Stamp No. 18 might be cancelled overnight, W. M. Charters, OPA District Shoe Rationing Officer, announced today that assurance had been given the district office that, should it ever become necessary to terminate Shoe Stamp 18, adequate notice would be given.

By adequate notice,meant at least 30 days, and the district office had been advised that there is no intention of giving this notice now.

Airplane Stamp No. 1 in Book 3 becomes valid for the purchase of shoes Nov. 1, but this does not mean Stamp 18 in Book One expires on that date, according to OPA officials.

Because some counterfeits of Stamp 18 were discovered, loose shoe stamps will not be accepted and are being carefully scrutinized by dealers in the hope of tracing them to their source.

EDITORIAL

Draper and Hauntz

Elsewhere in this issue are the personal histories of a number of candidates who aspire to public office. Among them are two men whose outstanding public service, in office and out, has been exemplary in every way.

We refer of course to Robert M. Draper, candidate for reelection to the school board, and Ray G. Hauntz, candidate for reelection to city council. The work of both, in many city projects, is well-known to every Hilltopper and need not be retold here.

Your community paper has worked with these men before and during the terms of office. It has discussed with them many problems which do not attract the public eye.

We think it essential that the community continue to be represented on the school board and in the city council. We think Mr. Draper and Mr. Hauntz deserve the wholehearted support of Democrat and Republican alike at the polls next Tuesday.

A vote for them is a vote for capable Hilltop representation in two fundamental functions of our society.

West Loses To East, 12-6; Also Lose City League Lead

By JOE CASE

Overshadowing Harley field last Friday afternoon was a gloomy sky and the whole encounter proved to be the same for the fighting Buckaroos. As the crowd filed out, sadness was written upon them as the Cowboys went down to their initial city league defeat at the hands of the East High Tigers, 12-6, thus dropping the Buckaroos from the top spot and setting East into a tie with North for the league leader.

After taking a physical beating at the hands of the Aquinas Terriers, they fought to the end to relinquish the lead which the Tigers had so powerfully set up. Taking advantage of a fumble on the E-38 in the last period, the Cowboys rolled to the 4 after two deceptive pass plays and then Blackwell, who again displayed his shifty ability, cut over from the 2. Fullback Ison's kick was blocked.

East's first tally came from Everett Chandler, lanky Tiger flanker, who took three dump passes to put the ball over from mid-field. Their kick was wide.

Setting up some fine power plays the Cowboys drove to the 18 and turned the ball over after two attempted pass plays failed. Again they drove to the 3 but still lacked that added punch to put it over. The half ended with the game knoted 6-6.

Coming back after the half without the services of shifty halfback, Rich Gilmore, who suffered a severe charley horse received in the Aquinas fray. Without his help the blunt of the toting was put on Ivan Blackwell and Rich Ison who gave their best but their stubborn line tightened and held strong. In the third period East stole the ball on our 40 and drove to the 11 where a beautiful pass to the same Chandler gave them the lead and the deciding points in the battle. West blocked the kick.

Still putting up the fight to the end, the Cowboys were unable to threaten the Tigers, and the score remained 12-6.

North vs. West

Local Cowboys will venture to the North High School field for their first city night game. The important contest will start promptly at 8 o'clock with the fast and clever Polar Bears, now city league leaders.

THOUGHT FOR TODAY

By O. H. Craft

October, pangs of your passing
Bring to mind,
Balmy sunshine, falling leaves and
You were so kind,
I remember, by your uplifting grace
You brought me to the place
Of hearts desire and ties that bind.
Now as you take your leave
You bid me go to a place
Of ice and snow,
Should I be gone when again
You pass this way
Memory hold for us a tryst
Forever and a day.

West High Students To Again Solicit

Starting today, Friday, Oct. 29, students from the West High School journalism and athletic departments, will start their second annual drive for subscriptions to The Hilltop Record.

The drive will be conducted in a slightly different manner than last year, inasmuch as the territory has been divided into sections. The section the students will be working in each week will be announced in the forthcoming issues of the paper. This week, Oct. 29 to Nov. 5, the section to be solicited will be the area from Broad-st to Sullivant-av, Hague-av, west to and including Derrer-rd.

The school will again sponsor the drive in an effort to help pay off the debt on the high school stadium. Last year, in the initial campaign, West High made nearly $500 to apply on the debt.

Students selected by these departments will start today to make a house to house canvass and will be paid a very liberal commission for the athletic fund on each paid in advance subscription received. Such subscriptions may be either new or renewals, locally, anywhere in the United States, or to the men or women in service. Regular subscription rate for the Record is $1.50 per year anywhere in Franklin county; $2.00 per year or $1.00 for six months, elsewhere.

When the subscription campaign was conducted last year, the Record had just started on a paid circulation basis. All such subscriptions received at that time were dated to begin as of Jan. 15, 1943 and will expire on Jan. 15, 1944. The present campaign is being conducted at this time, before the expiration date of many of last year's subscriptions, in order that the solicitation may be done in good weather.

Subscriptions received now from persons who have subscriptions not yet due to expire, will have their payment applied as of the regular expiration date of their paper.

Sites Of Biblical History From Nativity To Ascension Visited By Hilltop Soldier On Furlough Overseas

(Editor's Note: The following article is a continuation of the story which appeared last week and it will be printed a portion at a time, until it is complete.)

By Denver S. Hastings

"On the morning of the third and last day of our tour we left Haifa and proceeded to Nazareth which covers a distance of 22 miles. On the way we stopped at Jacob's Well which is close by a town called Salem, and we each had a cold glass of water. Jacob bought this land when he returned from Mesopotamia and dug this well to which his name has been given. The well is 130 feet deep and contains 50 feet of water. This is where Jesus met the Samaritan woman from the village of Sychar, which is nearby and is now called Askar.

"Nazareth has a population of 9000 persons, the most of whom are Christians of various sects. There are also a few Moslem Arabs. The town is about 1480 feet above sea-level

"There are many churches in Nazareth, built on sites sanctified by association with Jesus. We visited the Church of the Annunciation built over the spot where the Angel Gabriel appeared to the Virgin and announced that the child Jesus would be born to her. In the cave is a granite column, called the column of Gabriel, which marks the traditional spot where the Angel stood. Opposite is a piece of a similar column, column of Mary, hanging from the ceiling, which marks the spot where Mary stood during the Annunciation. On the altar inscribed in Latin is: Verbum caro hic factum est.—"Here the word was made flesh."

"Not far from the Church of the Annunciation is another church built according to the Christian tradition on the site of the Workshop of Joseph. The present building was completed during recent years. It contains a very fine painting of the Holy Family in the carpenter's shop. It shows Jesus when he was about eight or nine years old making a small cross. The altar bears the Latin inscription: Hic erat subditus illis.—"Here he became subject to them."

"From the Church of the Annunciation we proceeded to the church built over the old synagogue of Nazareth where Jesus used to go to worship. This church now belongs to the Greek Catholics. Close by the synagogue is another church of Mensa Christi, where there is a large stone called in Latin. Mensa Christi,—"Table of Christ", upon which Christ dined with his disciples, according to tradition, after the resurrection.

"From here we went down a flight of steps to St. Mary's Well or the "Spring of the Virgin." This is where Mary used to come for water. Near Mary's Well stands the Church of the Archangel Gabriel, of the Orthodox Greeks, in which the spring rises.

"We continued on to Mount Tabor, covering a distance of nine miles. This is one of the outstanding mountains of Palestine. On

AN EDITORIAL

As we are interested in good government for our own community and the whole of Columbus, We heartily endorse the candidacies of James A. Rhodes, Republican candidate for mayor of the city of Columbus and Hilltopper Ray G. Hauntz up for reelection to City Council.

James A. Rhodes can be a successful mayor only if the voter will give him a City Council that will cooperate to make his program effective. This would include Hauntz, Alfred Ballin, James E. Hale and Robert T. Oestreicher.

Regardless of the qualifications of any of the men running for Council we believe it would be a mistake and a costly mistake to the citizens and taxpayers of Columbus to give a Republican Mayor a council, the majority of whom are Democrats. A city council of one political faith, with the administration of another, inevitably produces wrangling, bickering and a disposition on the part of the one to embarass the other. It is the people who suffer.

The election of a Republican council together with James A. Rhodes can develop his program, bring order out of the existing chaos and free Columbus from the worry of municipal shut downs.

(Foregoing are merely opinions of The Hilltop Record. We suggest that people go to the polss next Tuesday and vote for the parties that will do the most good.)

Pinafores Are In Style This Season

Pin your faith in pinafores for classes, office, even dates! Here are two, showing the alliance between this new American classic and an all-American fibre—cotton. The sophomore on the left wears a brown pinwale corduroy pinafore buttoned down the back in an artless fashion. It's accented with bright green rickrack to match the cotton jersey mixture blouse. Think of the changes that can be rung on a pinafore like this with different blouses and guimpes! The freshman's cotton herringbone twill jumper in a tasnish-blue is trim as a uniform—takes to tailored blouses and sweaters. Without detracting from its efficiency and practicality, checked cotton edging the bib and appliqued as flowers on the dirndl-skirt give it a feminine air.

Pig Boat

At sea on a submarine isn't exactly the "life of Riley." In the Battle of the Atlantic, or on the great stretches of the Pacific these sailors know the hazards of their work

One of the spots aboard these "Pig Boats" that all crew members enjoy is the galley, or kitchen. Space limitations prevent an elaborate set-up, but cooks aboard these vessels are justly proud of the meals they prepare for their crews. Your increased purchase of War Bonds helps make submarine life as pleasant as possible. *U. S. Treasury Department*

You Can Help 88 Agencies This Year With ONE Gift

"88" stands for our concern for the well-being of our people;—for hospitals, clinics, visiting nurses, family welfare agencies, settlements, guidance for our boys and girls. "88" means the lift to the morale of our fighting men. It represents the aid we send to American boys in Axis prison camps. And "88" symbolizes the helping hand we hold out to our Allies.

Give 2 Days Pay or More for '44

This year, at last, it requires two days' pay or more from every one of us to carry on the War Chest's vital War-and-Home agencies. So little to give compared to what our boys are giving! By giving, you aid the folks at home, aid our boys in the armed forces, aid our men in the enemies' hands and aid our hungry and orphaned allies. This year give generously and you'll aid 88 essential agencies for all of 1944.

21 Military and United Nations Relief Agencies Will Benefit By Your Giving

17 of these are National War Fund Agencies, such as U. S. O., War Prisoners Aid, etc. and 4 are National, Non-War Fund Agencies, such as Y. M. C. A. World Service.

You Will Help 67 Home Agencies

These are the agencies which aid our own people—our boys and girls, the sick and poverty stricken of Columbus and Franklin County.

Giving is Fighting too!

Biblical History—

(Continued from Page 1)

the way we passed the Precipice of the Mt. of the Leap. Legend tells that Jesus fled from his pursuers to this peak and leapt down from here, escaping them. We reached Mt. Tabor which is 1800 feet above sea level. There are several Christian Chapels built on top of this Mountain, as this is the Mount which Christ ascended with three of his disciples. In the Franciscan Chapel on Tabor is a mosaic fixed in the wall portraying this story.

"We followed the road leading us to Tiberias. On the way we stopped at Cana, which is inhabited by both Moslem and Christian Arabs. The village of Cana is familiar from the life of Jesus and sacred to the Christians.

"The Orthodox have in their church here two big vases of stone which they believe to be two of the six vases used at the wedding feast attended by Jesus and his disciples, and the mother of Jesus. This is where Jesus performed his first miracle of turning water into wine. A memorial of this wedding can be seen in the Parish Church built by the Franciscans in 1879 upon the remains of an old sanctuary of the 4th century.

"We reached Tiberias about noon time on the 3rd day of our tour. Galilee is divided into two parts, Upper Galilee, and Lower Galilee. The city of Safel is the Capital of Upper Galilee, and Tiberias is the Capital of Lower Galilee.

"In Biblical times Galilee was inhabited by three large Israelite tribes: Naphtali, Zebulum, and Asher. Lower Galilee is the center of a large agricultural district lying back of the land along the coast. Tiberias has a population of 12,000, mostly Jews, and lies 682 feet below sea level. It has no artistic interest of any sort.

"We then came to the Port of Tiberias where we had a fine view of the Sea of Galilee and the surrounding mountains. The length of the sea is 13 miles and its greatest breadth is more than seven miles. It lies 682 feet below sea level. The water is fresh and contains great numbers of fish of the best quality, which are said to be an inexhaustible source of life to the inhabitants here.

"The Sea of Galilee is also called the Lake of Tiberias, and the Christians know it as the Lake of Jesus because he has sanctified it with his miracles, with his frequent navigations from one shore to the other, and with his frequent excursions along its shores. We were allowed enough time here to go swimming and to go for a boat ride. Along the western shore are the ruins of Magdala.

"Farther on is the 'Mount of Beatitudes,' where Christ proclaimed the laws of the new area, the code of the new civilization of Christianity. Again farther along the shore are the ruins of Capernaum, called the City of Jesus. And on the eastern shore is the city of Bethsaida, in the neighborhood of which Jesus cured a blind man and worked the miracle of the multiplication of the five loaves and the two fishes.

"Then from Tiberias there is a regular bus service to the Hot Springs, farther up the sea shore. The Hot Springs comes up from out of the earth. The temperature of the water is 140 degrees and it contains many minerals and salts, and a high degree of radio-activity, which makes it useful for rheumatism, nervous disorders, etc. There are bathing facilities established here and thousands of people from Palestine and neighboring countries come here to bathe. The curative qualities of the Hot Springs of Tiberias have been known since ancient times. The ancients believed that the springs dated from Noah's time, when all the springs of Abyss were let loose.

"We proceeded to visit a Jewish Colony, which was interesting. Jewish Colonization dates back to 1870 with the opening of an agricultural school near Jaffa for the purpose of creating conditions favorable for Jewish agricultural activities. Their methods now differ considerably from those in the beginning. They prefer to go in for general farming, corn growing, dairy and vegetable farming, poultry raising, citrus plantations, etc.

"One of the outstanding features of these colonies is the principle of self-labor, eliminating the need of any help from others. One of their greatest values lies in their demonstration of the superiority of modern methods over those of primitive agriculture. These colonies are composed of three different groups, Moshavot, Moshavim, and Kibbutzim.

"Moshavot are villages on the European model, each farmer producing and selling on his own behalf. Moshavim are small holder settlements in which hired labor is prohibited while sale of the products and purchase of materials are handled by cooperatives. Within these limits of cooperative sale and purchase every farmer produces on his own account. Kibbutzim are communal settlements in which the communal settlement is the farm unit, there is no private property, and all members enjoy equal rights.

"We proceeded back to Tel-Aviv, reaching the Red Cross Club a while after dark, which ended our three day tour. I spent the rest of my time in Palestine visiting the various shops, sightseeing, and swimming. On Wednesday afternoon, (was delayed a day because of railway transportation being difficult to obtin), about 3:30 we boarded a train again, of which I gave a description in the beginning, and reached our destination about 9:30 the next morning, and rode the bus which runs between this town and camp. I think the most of us spent the rest of the day catching up on our much needed sleep which we had missed the night before.

Advantage Of Charter Given

An appeal is being made to civic minded Columbus citizens this week for the amendment to the City Charter regarding recreational facilities for children of various communities.

One of the greatest advantages to the amendment is to reduce juvenile delinquency, according to a report released by the committee.

Among propositions stated in the charter amendment are that the commission, unpaid, will consist of seven members, five to be appointed by the mayor and City Council. The appointees will be named for 1, 2, 3, 4 and 5 year terms. Two additional members are to be appointed in the same manner but on the nominations, one by the Board of Education and one by the Council o fSocial Agencies, each for a two-year term.

It has been pointed out that the facilities and services are inadequate.

1. The city operates only 27 playgrounds. The Board of Education operates 10 more. Only 17 per cent of juvenile delinquents were found to be living where public playgrounds were accessibl. Eighty-four percent were without such facilities.

2. A traffic casualty survey showed that, of the 1,002 children killed or injured by automobiles in Columbus in five years, the largest numbers occurred after school hours in the spring and fall when the playgrounds were closed.

Another point brought to light by the committee is the fact that in the winter months, as well as in the spring and fall, the public recreation program is confined almost entirely to sports for those over the age of 18 years and children are entirely neglected.

To cope with the problem the committee has decided the city is in need of a Recreation Commission.

The way to solve this serious problem, the committee suggests, to vote "yes" on the City Charter Amendment.

"What makes you think he's an efficiency expert?"

"Well, he always waits to make up a foursome before passing through a revolving door."

There is no need to make a great display
Of words and gifts to prove your love for me.
You do not have to conquer land or sea
To show the greatness of your strength each day.
Just go about your daily tasks; array
Yourself for common good; just be
An understanding friend, unbound and free,
For I would have you mine; no other way.

By these tokens spontaneous and true
You testify no other rules your heart:
Deep silences more eloquent that word;
Your clinging lips; then tender touch of you;
Your swift return to me . . . when forced to part.
These are enough . . . unflaunted and unheard.

POETRY SUBLIME

I was asked to define sublime poetry,
And they might as well ask Japan,
But while I am free and at liberty
I will do the very best I can.
Any one can detect I've a weak intellect
Utilizing spare time on rhyme?
And I suspect my brain I have wrecked
Trying to write poetry sublime.

For me poetry is hard to define
In one line or ninety and nine,
Why not ask those with talents Divine
I fear mine are on the decline.
Sailing on a calm sea is sublime poetry
It seems to me—regardless of time
Floating thru space with speed and grace
Is like poetry sublime.

WRITE A LETTER!

Have you found yourself pondering on letter material when you are writing to a friend in the service? A letter was received this week from a service man who stated just what they want to read in those letters you write.

"We want to hear about our families and friends and how everything is around the old hang outs. We want to know who is who; or rather who got married and to whom? Are the old places the same or are they changed? If so who has taken them over?" These were among the questions the soldier submitted.

But remember you don't have to personally know a soldier to write to him. He'll appreciate your letter and be glad to make a new acquaintance by mail.

Pick out a name or two each week from the list below and write a newsy letter to that boy. It'll be fun for you, too. Give a little of your time to a soldier—he is giving all of his for you.

"THE SPORTING PAGE"

It is a pleasure after working all day
To look in the paper for news,
The best to me is the sporting display
That is a cure for the blues.
I try to keep posted on daily events
Read what the critics say
And I love the condensed editorial comments
But the best is the sporting display.

The sordid war news makes me feel sad
And I only read the head lines
Everybody it seems have gone stark mad
Killing people by dynamite mines.
I don't keep track of ships that go under
Nothing about that to enthuse
They can leave out the blood and thunder
But never the sporting news.

Victim Of 30 Shots —All G. I.

Already possessing 30 GI shots and five army diplomas A-c Holly G. Donahue, 180 S. Warren-av, is preparing for another diploma and possibly another shot.

His first diploma was attained at Chanute Field, Sept. 1941, upon completion of the AM course he took there. While instructing at Chanute Field he received another diploma qualifying him as a training school instructor and on his own time received two more through Air Corps Institute correspondence courses in aviation engines and mathematics. Later he completed another course to become a power plant specialist.

Donahue got five of his shots when extras were given to him after a smallpox test came up, positive at Jefferson Barracks, Mo. The others he gathered from the time he enlisted in March, 1941.

Before joining the service he worked with five brothers at the Buckeye Steel Castings Co. When the war is over Donahue plans to remain in the field of aviation by becoming a civilian instructor at an aviation school.

ZANY QUIZ MASTER CONVULSES NATION

Ralph Edwards, master of ceremonies of the madcap quiz show, "Truth or Consequences," (WLW, Sundays, at 6:30 p. m., CWT), enjoys the dubious distinction of being known as the maddest emcee on the airwaves. His zany "consequences" have convulsed the nation. Example: Remember the fabulous "pennies?" Ralph asked listeners to send a penny each to a New York housewife. Within a week, 300,000 coppers arrived.

MONKEY BUSINESS

A new maid had just arrived from the country and her mistress was giving her a list of household requirements.

"And don't forget, Florence," she said, "we want a new griller for the kitchen."

Florence stared vacantly.

"You know what a griller is, I suppose?" inquired the mistress.

"Course I do," returned the girl. "It's a big hairy monkey, and if you want one of those in the kitchen, I'm leaving."

A man without mirth is like a wagon without springs, in which one is caused disagreeably to jolt every pebble over which it runs.

The Meat Suggestions

Since meat rationing is a reality, every housewife must plan more carefully the meals for her family in order so that the food will go farther and yet make attractive and nutritious.

The following are a few suggestions to make meat go farther:

1. "Manage Your Meat."—Distribute it over the week.

2. Learn more cuts of meat — learn to make delicious dishes out of available cuts, even if you have never served them before.

3. Serve smaller portions — fewer extra helpings.

4. Spread the good nutrition and flavor of meat by combining with such foods as rice, noodles, dumplings, macaroni, spaghetti, potatoes, and other vegetables.

5. Plan leftovers carefully for use in such dishes as stew, hash, croquettes, souffles, and chop suey.

6. Remember meat goes farther when cooked at moderate even temperature.

Left-over Ham with Mustard Dressing

- 1½ cups diced cold ham
- 3 tablespoons chopped sweet pickle or sweet relish
- ⅓ cup diced orange
- ⅓ cup pineapple cubes
- ¼ cup chopped nut meats
- ⅓ cup mustard dressing
- ½ cup finely rolled cracker crumbs

Combine diced ham, pickle, orange, pineapple and nut meats. Heat mustard dressing over hot water in top part of double boiler (make dressing by adding two tablespoons mustard to each cup of mayonnaise). Add ham mixture to dressing and cook for five minutes. Place in individual custard cups or casserole, top with cracker crumbs, and place in boiling unit four or five inches below flame; broil until crumbs are browned. Serve hot.

Roast Veal Breast, Stuffed

Select piece of veal breast and have butcher make opening on underside and stuff with any favorite bread dressing. Sew up ends, dredge with salt, pepper, ginger and flour; place in hot oven in roasting pan with two tablespoons beef or poultry fat, an onion cut fine and little boiling water. Turn and baste roast often until brown and tender. them attractive and nutritious.

A wartime meat recipe which is nutritious and also a point saver is a Luncheon Loaf served hot.

Place a 3-lb. piece of solid meat loaf in oven in one piece. Heat and serve hot with scalloped vegetables.

Or cut solid meat loaf into thick slices and broil 3 minutes on each side. Vegetables such as green beans, corn or hominy may be heated under the broiler rack in the drippings from the loaf.

A chip on the shoulder indicates there's wood higher up.

CAPABLE BEAUTY

ANTICIPATING ALL SEASONS AND CLIMATES, the two-piece evening gown of CBS singing star Joan ("Texaco Star Theater") Roberts, expresses the originality of designer Patricia Brohun. The white marquisette skirt over blue taffeta, shown with a washable pique overblouse, finds warm allies in interchangeable long-sleeved blue taffeta or royal velvet jackets.

Amusements

Loew's Ohio

Loew's Ohio this week is showing "Destroyer," great sea action yarn starring Edward G. Robinson as the chief boatswain's mate who infuses new soul into the John Paul Jones, the ship which he helps build to replace his former ship of the same name. Loew's Broad

"Sweet Rosie O'Grady," the smash technicolor musical starring Betty Grable ,is now at Loew's Broad for a second downtown week, the 1st. stanza having been one of the biggest box-office hits of the year at Loew's Ohio. CARE FOR YOUR WORK CLOTHES

By Ruby Littlefield
General Electric Consumers Institute

Do you know that 'clean, neat clothes will help a worker through his or her day's labors? They keep a worker's morale up to par; they are a common sense safety measure.

Soiled clothing gives an individual a tired feeling. Torn or tattered clothing is a real safety menace. Soiled head coverings, such as the bandanas popular with women workers, can be the cause of an unhealthy, itchy scalp condition. Dirty hose provide a fine place for the breeding of infectious germs; they are given as one of the chief causes, too, of tired, aching feet.

If you or some member of your family is bothered with sore, aching, tired feet, be sure a clean pair of stockings is worn every day and try carrying an extra pair to work for midday change. This will do wonders toward helping feet to better health.

In the case of soiled head covering, there is much to be said about the daily changing of these. A head covering absorbs excessive moisture from the scalp besides serving as a protection against stray wisps of hair. A soiled bandana will not absorb perspiration, then your scalp itches, you feel uncomfortable, and fatigue soon overtakes you. Strive to wear a clean bandana each day.

Wash all your work clothes often (*before* they get too dirty) and wash them with care, paying particular attention to grease or oil spots. Don't let the washing of work clothes be a "sissy" procedure. Stains and factory dirt need a violent course of action to make them vanish.

Here is a step-by-step procedure for successful laundering of work clothes.

Mend

This should be attended to before clothes are washed. Unchecked rips and tears grow bigger and shaggier during the washing process.

Brush

Turn all pockets inside out and brush away all metal filings, abrasives, tobacco or grit that may have collected there.

Remove Factory Stains

Paint thinner or kerosene are the best bets. Rub gently to loosen the grease or oil. Do not try to get the spot completely out with this method. It's merely to soften the stain so that soaking and washing can finish the job.

SCRUB Soiled Places

With lukewarm water and soap, rub or scrub with a brush places such as collars and cuffs.

Soak

Two cups of kerosene to ten gallons of water makes a fine solution for soaking the grime out of dirty work garments. Soak about an hour and a half or overnight.

Wash

Fill your washer with hot, soapy water. After the above preliminary steps, 10 to 15 minutes washing time should be ample.

Starch

Starch is desirable in most work clothes. A smooth finish keeps clothes clean longer, and gives that "hard finish" that factory managements recommend because it's safer than soft fabrics around machines.

Finish

Dry, sprinkle, and iron the work clothes. Freshly ironed clothes should not be put away immediately. Place them on a clothes dryer to air thoroughly before storing.

If you would like the booklet, "*How To Take Care Of Work Clothes*," just write to General Electric Consumers Institute, Dept. G.N., Bridgeport, Conn. This helpful booklet will be sent free upon request.

A BIT NUTTY

Dinner Guest: "Will you pass the nuts, professor?"

Professor(absent-mindedly): "Yes, I suppose so, but I should flunk them."

HIGH EXPECTATIONS

Dumbo: "Will I know anything when I come out of the anesthetic?"

Doctor: "Well, that's expecting a lot from an anesthetic."

Mother (reading letter from her son in the navy): "Oh dear! Just what I expected has happened."

Dad: "What's the matter now?"

Mother: "Donald writes that he has been put in the commissary, but he doesn't say what for."

WHAT A MAN!

"You've already had leave, Ferguson to see your wife off on a journey; for your mother-in-law's funeral; for your little girl's measles; your boy's christening. What is it now?"

"I'm going to get married, sir!"

Do your best, and let the world make its own appraisement. Let your work speak for itself. Excuse is weakness.

A serious problem is to know what to do when you are confronted by dark and discouraging days. The remedy lies in hard work. Apply yourself at once to an earnest, energetic, mind-absorbing task, and your troubles will rapidly take wing.

The ability to make sound decisions, and to put them promptly into execution, has been a leading characteristic of distinguished men.

True friendship is not based upon selfish bargaining it makes no undue demands, is not supersensitive, gives without thought of return, and generously overlooks faults.

Make the use of the valuable moments so prodigally wasted by the unthinking.

Hearty Breakfasts - - Enjoy Better Health!

It has been proven time and again that many war workers and mothers in the home suffer 10:00 A. M. fatigue because they eat a skimpy breakfast. Try this for two weeks. Get up a little earlier; take 20 to 30 minutes for a good, hearty breakfast. Make the foundation of your meal a cooked or ready-prepared breakfast food. We believe you will feel better, and you will do more work with less irritation.

QUIET HOUR WITH BABY

Now, more than ever, your baby needs to feel a sense of security at home. Psychologists say this need for security exists in direct proportion to the maturity of the individual. Think how enormous is the need of a tiny baby, if this be so, to feel that the world around him is a safe and happy place in which to grow. That he is loved and cherished in a calm contented home.

It's no slight task to keep a placid front these days. Not with all the war talk and the news. Not when we are devoting every spare minute to the Red Cross, to canteen work, and first aid classes. Not when our menfolk are working hard in fields and factories, and doing civil defense duties on the side.

Nevertheless, we women must make a special effort to appear composed and happy in our homes; for even a tiny child can be upset by anxiety and excitement in his mother. A tranquil attitude on mother's part helps preserve baby's stability and mental health, which is, of course, as essential to his physical development as night to day.

In spite of crowded schedules and the excitement of these times, every mother should set aside a certain portion of the day just for playing with her baby. A quiet hour like this will have a soothing effect on her, as well as to reassure her baby of the peace and protection, the love and affection of his home.

Your baby is small and sweet and cuddly for such a tiny time. And he needs so much, this little chap of yours, to feel that home is a haven of security where he can grow into a fine and fearless childhood.

Of course, setting aside several hours each day means mother must take full advantage of the time-saving developmeats science and industry have devised to simplify her work. Not the least of these benefits, when it comes to bringing up a baby, are the prepared strained foods designed for feeding infants. These foods are made from choice cereals and vegetables and fruits, grown specially for babies, in the finest garden country in the land. They are cooked according to strict laboratory procedure, strained to minute particles sized perfectly for baby's tender digestive tract, and packed in sterilized, enamel-lined cans.

Knowing these truly fine foods, of which her physician has approved are now available in all our markets, is a great comfort to a mother. And it's an equal comfort to feed them to her child, for all fifteen varieties are fully prepared and ready to be served. She need only open a can, spoon the contents into the top part of a double boiler, heat to lukewarm, and

Using these ready-to-serve foods for her baby will free mother from the tedious, time-consuming task of preparing strained fruits and vegetables at home, and give her extra hours of leisure to enjoy playing with her child.

West High School to Again Conduct Subscription Campaign

Starting today, students from West High School will begin their second annual community-wide subscription campaign for the Hilltop Record. On every subscription whether new or renewal, a liberal commission will be paid and all such money collected will be applied on the West High School Stadium debt.

West High needs your support and the student who calls on you will appreciate it very much if you will renew your subscription at this time. Or, if you are not already a subscriber, give him or her your subscription today.

Although your yearly subscription, if subscribed through West High last year, does not expire until January 15, 1944, all subscriptions now renewed will have the additional payment properly credited. Students will give a blue receipt on all such funds collected. Paying for your subscription at this time merely makes it possible for West High School to profit on each subscription.

If you have a son or daughter in the service, why not send them the Record? It is like a weekly letter from home and the cost is very small. Hundreds of Hilltop boys away from home are getting the Record mailed to them all over the world. They appreciate it immensely.

GIVE A STUDENT YOUR SUBSCRIPTION FOR A SERVICE PAPER AS WELL AS FOR YOUR OWN

Help Yourself---Help West High

By paying your subscription now, you will have it out of the way for another year and will be assured of receiving your community paper for another twelve months. Your time is valuable and you don't want to miss a single copy. This method takes care of both these items.

Then too, you are helping your community high-school. The large stadium debt will not be decreased in present day conditions unless outside assistance is afforded. This is one of the best ways to help West High pay off the stadium debt.

Give a hand.

Statement from Dr. H. H. Reighley, Principal:

"Volunteers from our Journalism and Business Advertising classes and our active W Association members have again agreed to help in The Hilltop Record subscription campaign.

"This work will give the members of these activities practical newspaper subscrption experience and make it possible for them to render financial assistance to West High School athletics. Our students appreciate this educational opportunity."

Dr. H. H. Reighley, Principal
West High School.

Credentials:

Ask the person who solicits your subscription to show their identification. Unless the signature on the identification tallies with that on your subscription, please do not pay the solicitor.

Statement By Lt. (j.g.) C. C. Hartley:

"Last year West High School did a fine job in conducting the Hilltop Record campaign. They made nearly $500 for their stadium fund and it was valuable experience for the students.

"This year, the Record is offering them the same proposition and we feel the public will respond generously. If you like the Record, we'd appreciate your subscription again.

"Although I am not active in the operation of the Record at this time, I have been well pleased with its operation in my absence and the very fine cooperation extended from all sides, by the public."

Lt. (j.g.) C. Carlton Hartley,
United States Navy.

Your Receipt:

Each solicitor for your subscription will give you a blue receipt bearing a serial number. Please request one if he does not offer it. Be careful to preserve it—it is valuable to you.

Republican Platform Announced

Evidencing their full accord with the comprehensive platform of James A. Rhodes, Republican mayoralty candidate, Ray G. Hauntz, Alfred Ballin, James E. Hale, and Robert T. Oestreicher, Republican Councilmanic candidates today went on record, pledging their wholehearted support to this program.

Platform, as announced provided for six main points:

"To put the City's financial problems on a firm and sound basis.

"To get the garbage and refuse collection departments in such shape that regular and systematic collections will be maintained.

"To curb the ever growing problem of juvenile delinquency by insisting upon rigid law enforcement as it respects minors.

"To provide adequate park and recreational facilities; this will enable us to keep children busy and out of mischief as well as provide suitable recreational spots for many of our adult war workers.

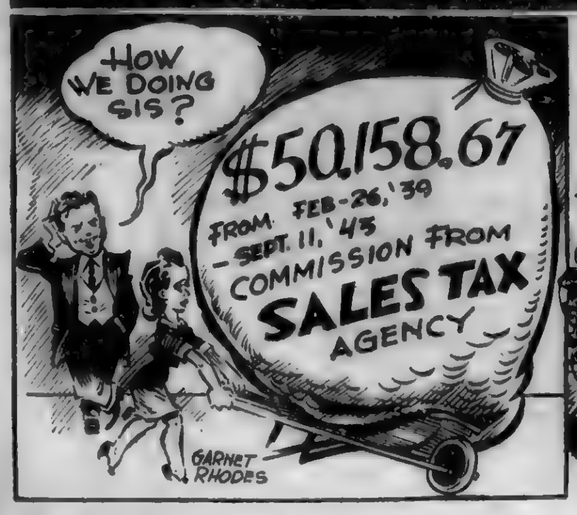
"To develop an effective post-war plan that will combine the advantage of putting unemployed men to work and on worthwhile improvements of a permanent and lasting nature.

"We pledge to take politics out of the police department. We shall suspect all civil service laws as they relate to the administration of the police and fire departments."

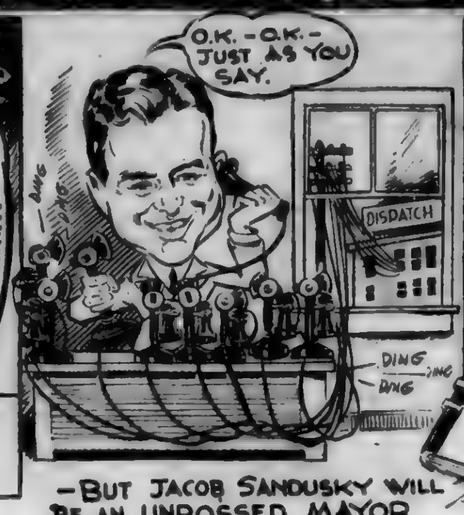
Candidate Seeks Re-election To School Board

Mrs. Grace R. Clifton, 207 Fifteenth-av, presents herself to the citizens of Columbus as a candidate for re-election to the Columbus Board of Education on Nov. 2.

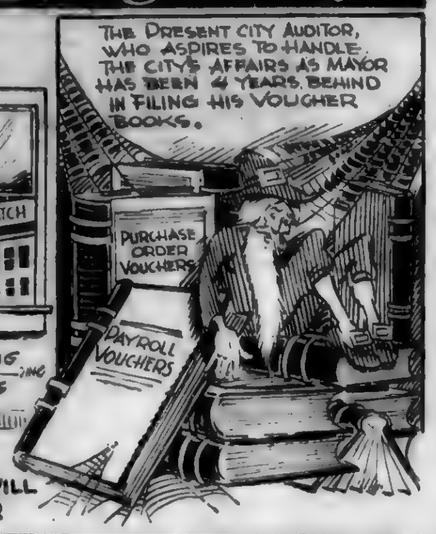
Mrs. Clifton is well known in social and civic circles and has established a well-known record during her two terms as a member of the School Board.



Among important school improvements which she has helped to inaugurate are school health survey, vocational guidance for pupils, increased and improved nurse services in the schools, better working conditions for school personnel, establishment of personnel committee, cumulative sick leave for school employes, enlarged and extended recreational facilities through the opening of school playgrounds during the summer of 1943.



Mrs. Clifton is the mother of three children, all of whom have passed through the Columbus Public Schools. Dr. John Clifton, 3416 N High-st, son; Miss Lucile Clifton, her older daughter, is at present an instructor in the Department of English in the University of Oregon, and Miss Esther Clifton is a student at Ohio State University.



As a parent, therefore, she has been in intimate touch with the schools an also gained that additional, valuable point of view concerning the school child and its welfare.

Placing Mrs. Clifton back on the Columbus Board of Education, will guarantee the continued promotion of that type of forward-looking school program which Columbus citizens and she value so highly.

A PRAYER FOR EVERY DAY

Make me too brave to lie or be unkind;
Make me too understanding, too, to mind
The little hurts companions give and friends,
The careless hurts that no one quite intends.
Make me too thoughtful to hurt other so.
Help me to know
The inmost hearts of those for whom I care,
Their secret wishes, all the loads they bear,
That I may add my courage to their own.
May I make lonley folks feel less alone
And happier ones a little happier yet.
May I forget
What ought to be forgotten; and recall,
Unfailing, all that ought to be recalled,
Each kindly thing.
Forgetting what might sting.
To all upon my way,
Day after day;
Let me be joy, be hope!
Let my life sing.

Un-elected Alexander Renegs on $100,000, Now Asks Millions

By ARTHUR ROBINSON

While discussing possible mayoralty candidates last week, I neglected to mention the name of Arvin Alexander, a slip which was not called to my attention by anyone. Since nobody seemed to care that Mr. Alexander's name was missing, it might be assumed that he is not a threat in the mayoralty race. But actually Mr. Alexander is always a threat.

There are many persons who had no idea that Mr. Alexander would be a member of City Council right now. These are persons who voted against him in sufficient numbers to keep him out of Council, but that didn't work. He got in anyway. That was in 1941.

Arvin Alexander, one of the younger hopefuls in County Democratic Chairman Walter Heer's stable of politicians, first came into major public attention in 1939, when four Democrats in Council elected him to fill a Council seat left vacant by the death of Milton W. Westlake.

This selection was made, of course, only after the four Democrats held a caucus with Mr. Heer. The records show that prior to 1939, Mr. Alexander had been a loyal party worker, taking such small crumbs as a part-time job as investigator for the State Securities Division.

Platform Misses Fire

For a time, Mr. Alexander did nothing spectacular in Council, using his time to learn the tricks of procedure, all of which are not written in the books, and much of which takes place behind closed doors.

In 1940 and 1941, he came out as a champion of "compromise" on gas rates. He argued that the city was wasting money in its almost continuous fight against the Ohio Fuel Gas Co. for a 45-cent rate. He proposed that the city stop fighting and let the consumers pay higher rates.

Voters turned down these "compromise" proposals, and late in 1941, looking for a more popular issue on which to get himself elected to Council, Mr. Alexander began preaching economy in government.

Perhaps the voters remembered Mr. Alexander's attitude on utility rates, perhaps it was something else. Anyway, he ran fifth in a field of six candidates for Council, only three of whom were to be elected. But did that keep Mr. Alexander out of Council? Not Alex. The Democrats still had a few tricks up their sleeves.

Still holding a majority in Council, the Democrats chose Councilman Wyatt Millikin to be city treasurer. And when Mr. Millikin resigned from Council, the Democrats elected Alex back in again.

So we still have Arvin Alexander as a member of Council after almost four years, although he never was elected by the people.

He Thinks in Millions

Last week, Mr. Alexander showed his unusual interest in utilities again. Councilman Joseph R. Jones, Republican, was arguing in behalf of the run-down Municipal Light Plant, contending that the plant should be given at least a small share of its own profits to repair and replace old boilers and generators. Into the midst of this reasonable argument, Mr. Alexander injected what was for him a revolutionary idea. He proposed that the city buy the Columbus & Southern Ohio Electric Co.

Mr. Jones immediately charged that this proposal was a smoke screen to cover up the Municipal Light Plant issue, a scheme to delay even longer giving aid to the city-owned plant which has long been the yard-stick for keeping Columbus & Southern rates within reason.

To many others besides Mr. Jones, it seemed a bit queer that Mr. Alexander should propose issuing bonds—$50,000,000, $70,000,000, maybe $90,000,000 worth—to buy the Columbus & Southern Ohio Eelectric Co., after Mr. Alexander had been unwilling to approve even a depreciation fund for the old city plant.

WHEN WILL THE DEMOCRATIC COUNCIL CHARGE THE RAIL-LIGHT COMPANY FOR THE USE OF OUR CITY STREETS? READ JUST WHO IS UTILITY CONTROLLED! FOR THE PAST FOURTEEN YEARS THE DEMOCRATIC COUNCIL HAS NEVER MENTIONED A FRANCHISE!

(Editorial in the Columbus Citizen, February 7, 1943.)

THIS DEMOCRAT CONTROLLED COUNCIL HAS PLAYED POLITICS WITH HUMAN LIVES BY THEIR CONSTANT BICKERING AND SELFISH GREEDINESS---AND THIS IS WHAT HAS RESULTED.

1. High Utility Rates.
2. Payless Paydays.
3. No Money for Adequate Garbage and Refuse Collections.
4. Furloughed Police and Firemen.
5. Disregard of Civil Service Laws and Regulations.
6. Impaired City Services In All Departments.
7. Don't Be Confused or Misled by the Smoke Screen of Evasion That This Democrat Council is Spreading to Be-Cloud the Issue.

Yet The Rail-Light Com pany Still Uses Our Streets Free Of Charge!

Save Sales Tax Stamps

If you are not already saving your sales tax stamps, an appeal has been made for them with which to purchase wheelchairs for invalids at the Soldiers and Sailors home at Sandusky.

There are many boys there who would not be bedridden if they had the use of a wheelchair.

The saving of your stamps during December and January and sending them to Mrs. Roger Meyers, 97 N. Chase-av, would enable the Camp Chase Post Auxiliary to secure these chairs.

Missing—

Our circulation department reports that a great many, in fact too many, are not advising us immediately when their service man changes his address—it is important that we know this just as soon as possible—otherwise several issues will be missed.

Halloween Is Over

Some people will exclaim—"Yes, halloween is over, thank heaven" — but all in all the boys and girls this year weren't too destructive. The usual soaping of windows was done Halloween night and business establishments had theirs pretty well covered, necessitating some extra work last Monday morning.

Only one case of destruction has been reported to the Record—that of a flag being pulled down, pole broken, and flag retied to the pole with the cord of the flag. This however, could not have been done if the flag had been taken in at sundown, as the rule of courtesty to the flag requires.

The show will be put on at the school collecting the most paper between Nov. 8 and 15.

In addition Gov. John W. Bricker announced that he would issue a certificate of merit to each Ohio school that enters the contest. A special award will be given by the governor to the highest school in the state.

Glenwood Church To Celebrate 50th Anniversary

Fiftieth anniversary of the founding of Glenwood Methodist Church, 64 Highland-av, will be celebrated Nov. 19. Special Golden Jubilee services will begin Nov. 14 and continue through Nov. 21, featuring noted speakers and musical programs.

With a membership of 2,750, Glenwood has the distinction of being the largest Methodist church in Columbus and the second largest in the Ohio conference. Grace Methodist Church of Dayton alone exceeds it in point of membership.

First step towards organization of the church was taken March 20, 1893, when a small group of men and women met at the home of Samuel W. Six, in Clarendon-av, (then Price-av.), and discussed the need for a church of Methodist denomination in the community. Following the initial church organization, Nov. 19, 1893, the congregation worshipped for two years in a brick school house in Clarendon-av. This building still stands, although is has long since been remodeled into a private residence.

The first church, which stood on the site of the present one, was formally dedicated Sept. 1, 1895. It was a modest frame structure 36 by 50 feet, and adequate for the needs of the 65 members who composed the congregation.

Gradually, as the city spread westward, and house lined streets filled up the farm lands towards Camp Chase, it became apparent that the little chapel was outgrown. A new church, the present brick edifice, was started in 1910. To this, in 1933 was added a two story wing to house the youth training program. In it are Sunday School rooms, a junior church and a large auditorium for youth activities.

During these first 50 years the church has had 17 pastors. The present one, Rev. Joseph B. Shellhaas, has served the church since 1939. Under his leadership 810 new members have united with the church.

Glenwood takes special pride in its war record. In a glass case in the church vestibule may be seen the faded flag of '17 and '18, its 106 stars symbolizing sons in service. Eclipsing this however, are the two newer and larger flags now hanging in the sanctuary with a total of 260 stars.

Five of the original charter members who have been with the church since its inception are still active and attend services

The Hilltop Is Again Ready To Subscribe

The first week of the solicitation for subscriptions to the Hilltop Record by students from West High School is over. The number of subscriptions turned in from the section in which they were working, between Broad-st and Sullivant-av, Hague-av west to and including Derrer-rd, shows that the Hilltop again is ready to subscribe to their community newspaper.

The drive, differing slightly from last year, consolidates the solicitation of subscriptions to certain areas. This enables the customer to expect solicitation in his neighborhood during the time designated.

This week, Nov. 5-12, the territory to be solocited will be North of Broad-st, between Wheatland-av and the city limits. Students will continue to solicit in the above mentioned area until that territory is completed.

Approximately 30 students have divided themselves into two teams, the Blues and the Reds. At the completion of the drive, the losing team will satisfy the demands of the winners.

Although subscribed for a year at the time of the drive last year, your subscription actually started Jan. 15, 1943 and will end Jan. 15 1944. If now paid in advance for another year to a West High School student during this drive, your subscription will be properly credited in the Hilltop Record office and extended to Jan. 15, 1945.

The school will again receive a liberal commission on all subscriptions paid in advance to them at this time.

In order to avoid confusion to those who are subscribing for the paper on a monthly pay plan, we desire to make this statement:

If, during the West High School drive last year, a subscription was made on the monthly pay plan, it is important to remember that the subscription at that time does not expire until Jan. 15, 1944. You are expected to pay collector, each month until that date.

Renewals given the students of West High School, NOW, are to start Jan. 15, 1944, and continue until Jan. 15, 1945, and we will send collector each month when due.

Subscriptions for less than one year will not be accepted, unless subscribed by the single copy rate of 5c per copy each issue.

To Avoid Inflation - - - Volunteers Are Needed

Since the war has started, there has been a gradual increase in prices which is tending to increase the high cost of living. The government realizes that if prices are not kept within bounds, inflation will set in, money will depreciate in value and persons will be unable to purchase the necessities of life.

With this in view, the local War Price and Rationing Board, Sandusky and Broad-sts, wishes to cooperate with the Office of Price Administration in setting up a system, whereby, with the cooperation of the public, they may play a part in controlling the price ceilings.

Volunteers are needed who would be willing to serve on a committee that would operate, not hap-hazardly but continuously, to serve the public in keeping prices down. Such a committee is as valuable in a patriotic way as many other war services that are in existance. Unless they have volunteers who can serve in this capacity, the whole price program will fail and prices will rise, wages will increase and taxes will then become a great burden.

The price panel now has only three individuals giving their time freely and it is impossible for them to attempt to keep uniform prices in a community as large as the West Side.

If anyone is willing to volunteer for this service, please address all correspondence to the chairman of the price panel, Robert M. Draper.

Cigarettes Not Rationed

There will be no rationing of cigarettes. Rumors of such have been denied by Washington. Rationing is not contemplated, because even if there were a shortage, cigarettes are not considered a necessary commodity.

The executive secretary of the Tobacco Distributors has advised dealers that there is an abundance of tobacco and, because the keeping qualities of cigarettes has been greatly reduced under war production, they have been cautioned against overstocking.

Cigarettes were being shipped to members of the armed forces overseas, for Christmas, and since the time for such shipment has expired, the demand for supplies of cigarettes is expected to ease.

Memberships Secured At Local Business Places

Memberships to the West High School Alumni Association can be purchased at Goodwin's Pharmacy, 2773 Sullivant-av; Campbell's Pharmacy, Hague and W. Broad-st, and Koontz's Pharmacy, Eureka and Sullivant-av. Those who purchase a membership, in addition to having their dues paid for one year, will also be admitted to the homecoming game and dance, Friday, Nov. 12, to be held at West High School.

The team and homecoming queen will be introduced at the dance which is to start at 9 o'clock and last until 12. Howdy Gorman's orchestra will supply the music.

Nazarene Revival Ends Sunday

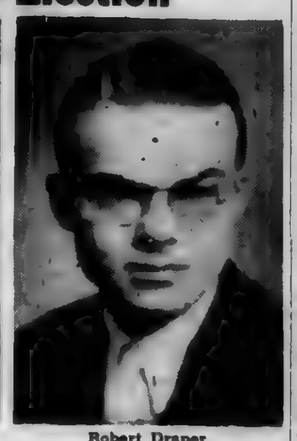
Rev. Miss Nettie A. Miller, of Columbus, Ga., will end her revival meeting at the Warren Avenue Church of the Nazarene, 628 S. Warren-av, with final services Sunday evening. Rev. H. B. Anthony, pastor of the church, reported this week that there has been a large attendance at these meeting each night.

Townsend Club

Townsend Club No. 7 will meet Tuesday, Nov. 9, at V. F. W. Hall, 2393½ W. Broad-st, at 7:30 p. m. John F. Carlisle, attorney, will speak on taxation. There will be music and the public is invited.

Armistice Day Program Sunday At Hillcrest

Wives and parents of Hillcrest Baptist Church's 80 members of the armed forces will take part in an Armistice Day program Sunday evening at 7:45 at which time a member of the serviceman's family will approach a large "V" and light a candle in it for the one he represents. A prayer for the men at the front and for the homes they have left behind will be offered under the light of the V.



There will be special music, an oration, "America on Signal Hill," with the candlelight roll call. The Adult Union of the church will conduct an open forum at 7:00 p. m. on "The World We Want After the War."

Veterans from the Hilltop Veterans of Foreign Wars, Camp Chase Post and Franklin Post of the American Legion will have a delegation present at these services.

Goal In Local War Chest Drive Is $5030

Goal set for the War Chest for the entire West Side district which takes in all territory from Sandusky-st west to the city limits, north to McKinley-av and south to Mound-st, is $5030.

Mrs. Harold C. Kay, '91 Schultz-av, head of the West Side Women's Territorial Division, announced this week that the drive is making slow progress.

"I believe most of this is due to the fact that many of the pledges are already in the army and so many o fthe housewives are contributing through war plants or other places of business," Mrs. Kay stated.

She also credited some of the slow progress to the bad weather last week that prevented the ladies from getting out as much as they had anticipated. According to tabs taken on solicitations to date the West Side has made 50% of its quota. The drive ends Monday.

Board 12 Only One To Draft Fathers In Nov.

Local selective service boards gave statements this week on the possibility of their drafting fathers from their district in the near future.

Board No. 11, at 56 S. Highland-av, made the announcement that the reclassification of fathers hasn't started as yet and none will be called in November. Whether it will be necesary to call any in December is still uncertain.

No fathers were called in October from Board No. 12, 2405½ W. Broad-st, it was announced. The board might have to call a few in November but isn't certain yet. It is possible that a considerable percentage of the December call will be fathers.

Board No. 13, 3184 W. Broad-st, said that no fathers were taken in October except volunteers and none will go in November. Reclassification of a few have been started and December's prospects are still uncertain.

Sites Of Biblical History From Nativity To Ascension Visited By Hilltop Soldier On Furlough Overseas

(This is the last insertion of this series of articles which has been continued over a period of weeks.)

"Although Palestine is no larger than a province in other countries, it has a variety of soil and climate, such as might be expected on a large continent. Palestine is a country of hills and dales, of arid wastes and fersea is a level uniform sea coast composed chiefly of low cand tile valleys, of inland lakes and dunes. The Jordan valley is the a long coast line. Bordering the outstanding feature in the east, which divides the group of mountains of the land into two. Palestine and Trans-Jordan. The total area of Palestine is 10,429 square miles and the area of Trans-Jordan is estimated at 34,750 square miles.

"The chief commercial centers of this country are the cities on the sea coast, Haifa, Jaffa, and Tel-Aviv. The coastal plain is the most important agricultural zone of Palestine, and the best watered one. After the first World War the swamps were drained, the land improved and developed for agriculture. The mountains of Palestine were always the scenes of great events in history, but the agriculture values are much less than that of the plains. The main crops are wheat, barley, corn, beans, peas, oranges, grapefruit, olives, watermelons, figs, tobacco, almonds, and bananas.

"The climate of Palestine is generally speaking, Mediterranean in character, but in several districts the climate is subtropical, and in others more or less continental. The long dry summers are almost immediately followed by cool winters, which in the hilly region turns distinctly cold, with plenty of rainfall The entire coastline has the typical temperate Mediterranean climate, the winter being relatively warm, and the summer hot and damp.

"Winters in the Jordan valley are very pleasant and mild, and the summer torrid. In the hills the summer days may not be hot, but the evenings are always cool. As a result of the differences in climate an dtemperature, harvest periods vary as much as six weeks in different regions. The Palestine winters last from October to April. The summer season begins the end of April and lasts till the middle of October.

"Palestine is a small country and is often called Asia's bridge to Africa, because it is the connecting link between the two contenients. Because of its geographical position it has served as a battle ground between conflicts of the East and West.

"At the conclusion of the first World War, Palesttine was turned over to Great Britain. So at the head of the present Government is the High Commissioner, appointed by his Britannic Majesty. In addition to his admisistrative duties he is, in peace time, the Commander-in-Chief of the Military forces in Palestine His principal adviser is the Chief Secretary, who acts as intermediary between the Palestine population and Government. Hauntz, Draper, Lead City Ballot

Two Hilltoppers demonstrated their vote-getting ability in Tuesday's muncipal electon by placing first and second in the races for council and school board.

Ray Hauntz, Hilltop groceryman, lead the ticket in the race for city council in unofficial city-wide returns. In his own Eleventh Ward he piled up 3882 votes to lead the successful mayoralty canddate, James Rhodes, by 630 votes. Hauntz has been confined to his home by illness and was unable to do any personal campaigning. His 41,379 votes in a large measure reflected public approval of his service in council. All four seats were filled by Republicans thus assuring a council and mayor of like politics fo rthe first time in several years.

In the race for city school board Robert Draper, attorney, polled the second largest number of votes tallying 41,963, according to unofficial count. His standing in his own Eleventh Ward could not be determined at this time. Draper was one of two Democrats reelected in the school board contest, Mrs. Grace Clifton gathering 43,149. The city-wide vote of these two Democrats was unusual in-as-much-as no Republican in either the council or school board races polled that many votes.

Another successful candidate for school board known to many Hilltoppers through his activities at West High School both as a student and alumnus was Miles V. "Cap" Hoover who garnered 39,261 votes.

Both the Tenth and Eleventh Wards turned in a good vote considering that it was an off year election.

Renewal of the school tax levy was approved by a vote of 40,075 to 26,005. The vote on establishing a recreation commission was in favor of the charter amendment 43,093 to 18,229.

Rhodes piled up comfortable majorities in both Hilltop wards. The predominantly Republican Eleventh gave him a majority of 1523 votes while in the Tenth Sandusky trailed the successful candidate by 714.

The unofficial tabulation in the races for council and mayor in the two wards follows:

	10th	11th
FOR MAYOR		
Rhodes (R)	2178	3252
Sandusky (D)	1464	1729

West Loses To North

By Joe Case

A complete North High eleven sparkled by Jesse Van Fossen and Dave Bonnie, half and fullback respectively, romped over our own mighty Cowboys in true polar bear style, last Friday night, on the Arcadia-av, turf with a tally of 28-0.

Marching down the field in eight consecutive plays the Polar Bears put the ball in the end zone after "Andy" Anderson had punched over from 1-yard out. Hindman, accurate place-kicker made the first of his four extras.

Completely baffled by their strong charging line, the Buckaroos could gain no ground and were forced to punt after three attempts to buck their superior line.

The mighty Polar Bears were on the move to their second score but a costly fumble, was recovered by Mowery, stalwart blocking back, on the 13. Finally coming to life, the Cowboys drove from the 13 to N-40 but were stopped cold and forced to punt.

Just before the half the Polar Bears showed their supreme power by driving over from the 50 in eight plays with Van Fossen bearing the burden. The kick was good to make it 14-0 at the intermission.

The Polar Bears could not be stopped, as immediately they marched to their third tally as big Dave Bonnie drove right through the forward wall for a 7-yd. plunge. This lad was never stopped dead and with his teammate, Van Fossen, constantly kept the Bucks in trouble. Only in the third quarter did West show any scoring threat as Rich Gilmore tossed an aerial to Blackwell who beautifully snagged it and fought to the N-7. A pass failed and two line plays drove to the 2 where on last down they failed to plunge over and turned the ball over to those unbeaten lads. The Cowboys were constantly hindered with so many of their aerials being intercepted by the alert North backs.

In the fourth quarter, Gilmole's pass was intercepted in the 42 and the Bonnie brothers took over to the 3 and Van Fossen accounted for the tally.

North, our greatest rival, showed supreme power in every phase to give us the worst defeat of the current season and to keep them in tie with East for the league's top berth.

West vs Upper Arlington

The Cowboys will meet Upper Arlington on their own field this afternoon at 3:15. It will be a non-league encounter.

WHEN YOU WORK AT CURTISS-WRIGHT

Do you know that an overwhelming percentage of the men and women building Curtiss Helldivers are permanent residents either of Columbus or communities less than 30 miles away?

They are representative Americans—wholesome, ambitious, patriotic. They live pretty much the way you do . . . go the same places, enjoy the same pleasures, recognize the same obligations. You'll enjoy working with them and becoming their friends.

Many of them never before worked in a factory. They came to Curtiss-Wright because they believed it was the best way to put their best effort into the fight for Victory. They know that every Helldiver they help build will soon be giving Hitler and Hirohito bigger headaches.

Don't let this opportunity pass to make a vital urgent and highly personal contribution to shortening the war. Come to work in this modern, clean, safe, healthful plant. Enjoy the fine lunch and cafeteria service, the organized recreation program, service on transportation, rationing and other problems.

EARN WHILE YOU LEARN

No previous experience is required. Learn the basic processes of airplane building at our five-floor Training Center, 369 South Fourth Street. Your pay starts the very first day you enter the Training Center. In a short time you will be sent to the Curtiss-Wright plant.

The War Manpower Commission requires that you furnish an availability slip if you are changing employment.

• TUNE IN — Listen to "Conquerors of the Clouds," with all-Curtiss-Wright cast, every Sunday at 2:30 p. m. over WHKC.
